- D. A Sharing Rule needs to be created.

Answer: A

NEW QUESTION # 117

Universal Containers (UC) works with regional partners to sell localized products. UC Is actively accepting new partner applications in certain regions. Partners can only apply using uCs referral program, and the application form in certain regions can potentially contain a varying degree of sensitive information. The list of existing partners must not be shared with the general public.

What should the Experience Cloud consultant recommend?

- A. Create a public site for existing partners and allow them to generate token-based referral links for prospect partners.
- B. Create an app for the Internal business development team and allow them to generate token-based referral links for existing partners In their region.
- C. Create an authenticated digital experience for partners and allow them to refer other partners in their region.
- D. Create a public site for prospect partners, show them a nondisclosure agreement, and allow them to fill out on application form on the site.

Answer: B

Explanation:

This option allows UC to control the access to the partner application form and ensure that only qualified partners can apply. Token-based referral links are unique and expire after a certain time, which adds an extra layer of security. Creating an app for the internal team also allows UC to track the performance of the referral program and reward the existing partners accordingly1

NEW QUESTION # 118

Zephyrus Relocation Services (ZRS) plans to build a portal for its partners. The portal needs to show company information and brand details on the Account Management page.

Which templates should ZRS consider to build the portal?

Choose 2 answers

- A. Help Center
- B. Partner Central
- C. Build Your Own
- D. Customer service

Answer: B,C

Explanation:

Partner Central and Build Your Own are two templates that ZRS can consider to build the portal for its partners. Partner Central is a template that is designed for managing partner relationships, such as recruiting, onboarding, training, and co-selling. Build Your Own is a template that allows you to create a custom site using Lightning Web Components and other web standards.

NEW QUESTION # 119

Cloud Kicks (CK) uses SSO (Single Sign-on) for its customer portal. The customer portal is built on the Customer Service template which uses LDS (Lightning Design System) and has public pages that use Lightning Web Components. CK gas also set up the Salesforce Content Delivery Network (CDN) for its domain, which CK is planning to change.

- A. Changing the Salesforce CDN overwritesLDS defaults.
- B. Changing the Salesforce CDN affects SAML SSO settings for all custom URLs in that domain.
- C. Changing the Salesforce CDN impacts definitions of all Lightning Web Components used in public pages.

- D. Changing the Salesforce CDN impacts the AppExchange packages in the org that use Documents object.

Answer: C

Explanation:
Salesforce Content Delivery Network (CDN) is a feature that allows you to improve the performance of your site by caching static resources, such as images, JavaScript, and CSS files. However, changing the Salesforce CDN has some implications, such as:
* Changing the Salesforce CDN impacts definitions of all Lightning Web Components used in public pages. You need to redeploy your components after changing the CDN to ensure that they work properly.
* Changing the Salesforce CDN does not affect SAML SSO settings for all custom URLs in that domain.
SAML SSO settings are independent of the CDN settings.
* Changing the Salesforce CDN does not impact the AppExchange packages in the org that use Documents object. Documents object is not affected by the CDN settings.
* Changing the Salesforce CDN does not overwrite LDS defaults. LDS defaults are not affected by the CDN settings.
