# Quiz NCP-EUC - Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam–High Pass-Rate Training Materials

P.S. Free 2026 Nutanix NCP-EUC dumps are available on Google Drive shared by TestsDumps: https://drive.google.com/open?id=1v0F0czDQinERsBy68bXXgsObKJkrn6rQ

TestsDumps has focus on offering the accurate and professional exam dumps for Nutanix certification test. All questions and answers of NCP-EUC are written by our IT experts who has more than 10 years' experience in IT filed. With the help of our NCP-EUC Dumps Torrent, you will get high passing score in the test with less time and money.

If you are busying with your study or work and have little time to prepare for your exam, choose us, we will do the rest for you. NCP-EUC exam bootcamp are edited and verified by professional experts, therefore the quality and accuracy can be guaranteed. You just need to spend about 48 to 72 hours on practicing, and you can pass the exam in your first attempt by using NCP-EUC Exam Braindumps of us. We offer you free demo to have a try before buying. Online and offline chat service are available, and if you have any questions about NCP-EUC exam bootcamp, you can have a conversation with us.

Trustworthy NCP-EUC Training Materials & Leader in Qualification Exams & Valid NCP-EUC: Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam

Individuals who hold Nutanix NCP-EUC certification exam demonstrate to their employers and clients that they have the knowledge and skills necessary to succeed in the NCP-EUC exam. TestsDumps NCP-EUC Questions have numerous benefits, including the ability to demonstrate to employers and clients that you have the necessary knowledge and skills to succeed in the actual Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam (NCP-EUC) exam.

Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam Sample Questions (Q136-Q141):

NEW QUESTION # 136
An AHV-based virtual desktop user is reporting poor performance in a newly-provisioned VDI environment.
After investigating, an administrator discovers this VM configuration:
UEFI BIOS1
2 vCPU

8GB RAM
Windows 11
SCSI disk controller
Thin provisioned storage
VLAN tagged network
How should the administrator best improve performance?

- A. Connect the vNIC to the Native VLAN.
- B. Add 2GB RAM to the VM.
- C. Configure at least three vCPUs.2
- D. Use qemu-img to expand the vDisk.

Answer: C

Explanation:
According to Nutanix and Microsoft best practices for Windows 11 on AHV, the operating system has significantly higher CPU overhead compared to previous versions due to mandatory security features like Virtualization-Based Security (VBS) and Hypervisor-Protected Code Integrity (HVCI).
While the minimum requirement for Windows 11 is 2 vCPUs, this configuration is often insufficient for an acceptable user experience in a VDI environment where users are running concurrent applications.
Performance analysis indicates that 2 vCPUs results in high CPU Ready time and sluggishness. The recommended configuration to resolve these performance bottlenecks is to increase the CPU allocation to at least 3 vCPUs (typically 4 vCPUs is the standard "sweet spot" for Windows 11 VDI), ensuring enough compute cycles are available for both the OS overhead and user workloads.3

NEW QUESTION # 137
What should the administrator use when creating a Windows 10 gold image using Calm for Citrix MCS persistent desktops?

- A. VMware optimized Windows 10 image.
- B. Snapshot of Citrix optimized Windows 10 image.
- C. Microsoft downloaded Windows 10 ISO image.
- D. Sysprepped Microsoft Windows 10 image

Answer: B

Explanation:
A snapshot is a point-in-time copy of a virtual machine that can be used as a template for creating new machines. A Citrix optimized Windows 10 image is a Windows 10 image that has been configured with best practices and optimizations for Citrix Virtual Apps and Desktops.
Using a snapshot of a Citrix optimized Windows 10 image can ensure that the persistent desktops have consistent performance, security, and user experience. It can also simplify the image management process by allowing you to update the snapshot with new patches or applications using Calm.
Calm is a tool that automates application lifecycle management across different environments. Calm can integrate with Citrix MCS to create, update, and delete virtual machines based on blueprints that define the configuration and dependencies of an application.

NEW QUESTION # 138
An administrator wants to allow Citrix MCS integration with AHV.
Which component needs to be installed and where should it be deployed?

- A. Citrix Desktop DC Plug-in on Prism Element
- B. Nutanix AHV MCS Plug-in on Citrix XenDesktop DC
- C. Nutanix AHV MCS Plug-in on Prism Central
- D. Citrix MCS AHV Plug-in on AHV

Answer: B

Explanation:
According to Nutanix Support & Insights3, you need to install the Nutanix AHV plugin for Citrix Virtual Apps and Desktops on Delivery Controllers (also called the MCS plugin SDK) to create and manage Citrix-provisioned VMs in a Nutanix AHV

infrastructure environment.

NEW QUESTION # 139
An administrator is using a mix of full clones and nan-persistent desktops deployed via Citrix MCS on a three-node cluster. The full clone and non-persistent desktops are managed using separate storage containers.
Which two Storage Efficiency features will provide better storage efficiency and performance improvement?
(Choose two.)

- A. Compression
- B. Erasure Coding
- C. RDMA
- D. Deduplication

Answer: A,D

Explanation:
Storage Efficiency features that will provide better storage efficiency and performance improvement for a mix of full clones and non-persistent desktops deployed via Citrix MCS on a three-node cluster are Compression and Deduplication. Compression is a technology that reduces the size of data blocks by removing redundant information. Deduplication is a technology that eliminates duplicate blocks of data and reduces storage consumption. Both Compression and Deduplication can be enabled on a per-container basis and can provide significant savings for Citrix virtual desktop deployments that use cloning technologies such as MCS2.

NEW QUESTION # 140
Developer VDI users are complaining about performance issues and states that tasks are taking longer to complete than before. An administrator is analyzing the environment trying to determine the cause. The administrator has determined these metric values for the host:
CPU Usage = 18%
CPU Ready = 6.5%
IOPS = 250
Storage Usage = 20%
Which performance counter could explain the issue?

- A. CPU Usage
- B. Storage Usage
- C. CPU Ready
- D. IOPS

Answer: C

Explanation:
In virtualization performance troubleshooting, CPU Ready % is a critical metric that indicates the percentage of time a virtual machine was ready to execute a thread but had to wait for the hypervisor to schedule it on a physical CPU core.
According to standard Nutanix and AHV performance guidelines, a CPU Ready value above 5% per vCPU is considered a leading indicator of CPU contention (oversubscription) and performance degradation. While the overall host CPU Usage appears low (18%), the high CPU Ready (6.5%) suggests that specific VMs are fighting for scheduling slots, causing the latency ("tasks taking longer") reported by the users. The other metrics (IOPS, Storage Usage) are well within normal operating parameters.

NEW QUESTION # 141
......

We can make sure that our Nutanix NCP-EUC test torrent has a higher quality than other study materials, Nutanix NCP-EUC Training Materials How many days you are allowed to use it, Nutanix NCP-EUC Training Materials They have improved their strength and proved their strength, If the NCP-EUC valid test answer is coming and the time is tense, it is better to choose our NCP-EUC test vce material, With infallible content for your reference, our NCP-EUC study guide contains the newest and the most important exam questions to practice.

Success in nursing school, and ultimately on the licensure exam, depends NCP-EUC on developing strong study skills and continual reinforcement of what you have learned, Find reliable health information online.

High-quality Nutanix NCP-EUC Training Materials offer you accurate New Exam Braindumps | Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam

We can make sure that our Nutanix NCP-EUC Test Torrent has a higher quality than other study materials, How many days you are allowed to use it, They have improved their strength and proved their strength.

If the NCP-EUC valid test answer is coming and the time is tense, it is better to choose our NCP-EUC test vce material, With infallible content for your reference, our NCP-EUC study guide contains the newest and the most important exam questions to practice.
