State and local budgets serve all of the following purposes EXCEPT to

- A. set public policy.
- B. act as legislative control on taxing and spending.
- C. determine debt policy.
- D. serve as a financial planning tool.

**Answer: C**

Explanation:

State and local government budgets primarily serve to:

Set public policy priorities

Provide legislative control over taxing and spending

Serve as a financial planning tool

Debt policy is typically established outside the annual budget process and guided by a separate debt management policy that sets borrowing limits, credit rating objectives, and debt service goals.

C). determine debt policy

### NEW QUESTION # 93

Federal agencies accumulate and report costs in order to perform all of the following EXCEPT to

- A. comply with the CFO Act.
- B. comply with the GPRA.
- C. achieve an unmodified audit opinion.
- D. comply with SFFAS #4.

**Answer: C**

Explanation:

Federal agencies accumulate and report costs for a number of reasons, including:

Compliance with GPRA (Government Performance and Results Act), which links budgeting to performance Compliance with the CFO Act, which mandates preparation of auditable financial statements Compliance with SFFAS No. 4 - Managerial Cost Accounting, which requires cost accumulation for decision-making and performance evaluation While accurate cost reporting supports audit quality, achieving an unmodified audit opinion is not the primary reason for accumulating costs - it is an outcome, not a purpose.

Relevant References:

CFO Act of 1990

GPRA Modernization Act of 2010

C). achieve an unmodified audit opinion

### NEW QUESTION # 94

Which of the following revenue sources is an exchange-like transaction?

- A. grants
- B. fines
- C. income taxes
- D. operating permits

**Answer: D**

Explanation:

Exchange and exchange-like transactions occur when each party receives and gives up essentially equal value.

In the case of operating permits (e.g., business licenses or environmental permits), the payer receives a direct and proportional benefit in exchange for the fee paid, making this an exchange-like transaction.

In contrast:

Income taxes and fines are non-exchange revenues.

Grants may or may not be exchange-like, depending on stipulations, but generally are non-exchange.

Relevant Standards and References:

- B. a discussion of the basic financial statements.
- C. an overall analysis.
- D. condensed comparative data.

**Answer: A**

Explanation:

Management's Discussion and Analysis (MD&A) is a required part of Required Supplementary Information (RSI) under GASB standards. It includes:

An overview and analysis of financial activities

Condensed comparative financial data

A discussion of the basic financial statements

An explanation of significant changes from the prior year

However, computation of legal debt margins is not required in the MD&A. This type of information is typically included in the statistical section of the ACFR (Annual Comprehensive Financial Report), not in MD&A.

## NEW QUESTION # 96

State Medicaid caseloads have been exceeding projections for the past two months. Review of the data indicates the increase is likely to continue, leading to the need for significant supplemental appropriations before the end of the fiscal year. Based upon this information, what is the first action the state director of Medicaid should take?

- A. Confer with the chairmen or staff directors of the House and Senate appropriations committees concerning the need to call a legislative special session.
- **B. Inform the governor of the situation and options for addressing the shortfall.**
- C. Inform the legislative counsel bureau about the potential over-expenditure.
- D. Impose a hiring freeze and hold all spending approvals for contracts and purchases on the affected departments.

**Answer: B**

Explanation:

The first and most appropriate action for the state Medicaid director is to inform the governor. This ensures that executive leadership is aware of the fiscal shortfall early and can weigh in on how to proceed. The governor plays a central role in budget planning and proposing supplemental appropriations.

While informing legislators or freezing spending may be necessary later, those steps should occur after executive leadership has been notified and involved in decision-making.
