

Free PDF Updated Juniper - JN0-253 - Trustworthy Mist AI, Associate (JNCIA-MistAI) Practice

BTW, DOWNLOAD part of ITPassLeader JN0-253 dumps from Cloud Storage: <https://drive.google.com/open?id=16ylcrBvzQkJ6fVyBjRTtTJC02jmZUiUq>

The ITPassLeader Mist AI, Associate (JNCIA-MistAI) (JN0-253) PDF dumps file work with all devices and operating system. You can easily install Mist AI, Associate (JNCIA-MistAI) (JN0-253) exam questions file on your desktop computer, laptop, tabs, and smartphone devices and start Mist AI, Associate (JNCIA-MistAI) (JN0-253) exam dumps preparation without wasting further time. Whereas the other two ITPassLeader Juniper JN0-253 Practice Test software is concerned, both are the mock Mist AI, Associate (JNCIA-MistAI) (JN0-253) exam that will give you a real-time JN0-253 practice exam environment for preparation.

Since the cost of signing up for the Mist AI, Associate (JNCIA-MistAI) JN0-253 exam dumps is considerable, your main focus should be clearing the Mist AI, Associate (JNCIA-MistAI) JN0-253 exam on your first try. Utilizing quality Juniper JN0-253 Exam Questions is the key to achieving this. Buy the Mist AI, Associate (JNCIA-MistAI) JN0-253 Exam Dumps created to avoid the stress of searching for tried-and-true Juniper JN0-253 certification exam preparation.

Pass Guaranteed Quiz Efficient Juniper - JN0-253 - Trustworthy Mist AI, Associate (JNCIA-MistAI) Practice

We provide free update and online customer service which works on the line whole day. Our JN0-253 study materials provide varied versions of our JN0-253 study material for you to choose and the learning costs you little time and energy. You can use our JN0-253 exam prep immediately after you purchase them, we will send our JN0-253 Exam Questions within 5-10 minutes to you. We treat your time as our own time, as precious as you see, so we never waste a minute or two in some useless process. Please rest assured that use, we believe that you will definitely pass the JN0-253 exam.

Juniper Mist AI, Associate (JNCIA-MistAI) Sample Questions (Q56-Q61):

NEW QUESTION # 56

Which Juniper Mist product enables the onboard Bluetooth Low Energy (BLE) antenna array for listen-only mode?

- A. Wi-Fi Management and Assurance
- **B. Asset Visibility**
- C. vBLE Engagement
- D. Access Assurance

Answer: B

Explanation:

InJuniper Mist's Location-Based Services, theAsset Visibilityservice utilizes the built-inBluetooth Low Energy (BLE)antenna array within Mist Access Points to track BLE tags and devices inlisten-only mode.

This allows the APs to receive BLE signals emitted by assets and compute their real-time location usingangle- of-arrival (AoA)andRSSI-based triangulation.

According to theJuniper Mist Asset Visibility and Location Services Guide:

"When operating in Asset Visibility mode, the vBLE antenna array in Mist Access Points functions in listen- only mode, collecting BLE chirps from asset tags and relaying this data to the Mist Cloud for location determination." This configuration differs fromvBLE Engagement, where APs transmit BLE beacons to interact with mobile apps. InAsset Visibility, the BLE array passively listens to track tagged assets (e.g., equipment, IoT devices) across a defined floor map.

Therefore, the correct answer isD. Asset Visibility.

NEW QUESTION # 57

Which two statements correctly describe Mist single sign-on (SSO)? (Choose two.)

- A. Mist administrative logins cannot use SSO.
- **B. Guest user access can use SSO.**
- C. Guest user access cannot use SSO.
- **D. Mist administrative logins can use SSO.**

Answer: B,D

Explanation:

SSO can be implemented for guest user access, allowing them to authenticate through their existing enterprise identity provider (IdP) instead of creating separate accounts for the Mist network.

Mist supports SSO for administrative logins, enabling IT administrators to use their existing corporate credentials (e.g., Active Directory) to access the Mist cloud management platform.

NEW QUESTION # 58

Which Juniper Mist dashboard feature uses the ROAMINGOF element?

- A. Conversational Assistant
- B. Wireless SLE
- **C. Marvis Query Language**
- D. Marvis Minis

Answer: C

Explanation:

TheROAMINGOF elementis part of theMarvis Query Language (MQL), which is the structured query syntax used byMarvis, Juniper'sVirtual Network Assistant (VNA).

According to theJuniper Mist Marvis and MQL Technical Reference, Marvis Query Language provides advanced data query and automation capabilities that go beyond the conversational interface. It allows administrators to directly extract analytical insights, run network diagnostics, and perform queries related to user experience metricsandService Level Expectations (SLEs).

The documentation specifies:

"MQL is the analytical engine of Marvis that uses elements such as ROAMINGOF, CONNECTIVITYOF, and PERFORMANCEOF to query Mist data and retrieve SLE metrics, performance trends, and device events."

TheROAMINGOFElement specifically relates to theWireless Roaming SLEcategory, enabling Marvis to evaluate client roaming performance across access points, identify failed transitions, and correlate signal quality or capacity-related issues.

While theConversational Assistant (A)uses natural language queries, it translates them internally intoMQL commands.Marvis Minis

(C) runs synthetic tests, and Wireless SLE (D) displays performance metrics but does not directly use MQL syntax elements. Thus, the correct answer is B. Marvis Query Language.

NEW QUESTION # 59

Exhibit:

Coverage

Referring to the exhibit, which percentage of Coverage was unsuccessful?

- A. 21%
- B. 9%
- C. 15%
- D. 79%

Answer: A

Explanation:

In Juniper Mist Wireless Assurance, the Coverage SLE (Service Level Expectation) measures the quality and consistency of Wi-Fi signal coverage across an organization's wireless infrastructure. It provides insight into how well clients can connect to access points with sufficient signal strength and quality.

According to the Juniper Mist AI Operations and Analytics Guide, the Coverage SLE is defined as:

"The percentage of client connections that meet the minimum signal strength threshold required for satisfactory performance. Sub-threshold values represent areas where coverage is inadequate or inconsistent." In the exhibit, the SLE visualization shows 79% successful coverage and 21% unsuccessful coverage, meaning that 21% of connection attempts or client areas did not meet the desired signal strength threshold. These failures may be caused by factors such as:

- * Insufficient AP density or placement.
- * RF interference from neighboring devices.
- * Physical obstructions impacting signal propagation.

Thus, the unsuccessful coverage percentage is 21%, indicating potential areas where additional APs or configuration optimization may be needed to improve user experience.

NEW QUESTION # 60

Which two Mist location tracking components run in the cloud? (Choose two.)

- A. BLE tag
- B. location engine
- C. location system
- D. location sensor

Answer: B,C

Explanation:

Location Engine: The location engine runs in the cloud and processes data from BLE tags and sensors to determine the location of devices within a network. It performs the necessary computations to provide accurate location tracking and analytics.

Location System: The location system, also cloud-based, integrates with the location engine to provide a complete solution for tracking and managing location data within Mist's ecosystem. This system supports various applications such as asset tracking, wayfinding, and proximity-based services.

NEW QUESTION # 61

.....

Many people are keen on taking part in the JN0-253 exam. The competition between candidates is fierce. If you want to win out, you must master the knowledge excellently. Our JN0-253 training quiz is your best choice. With the assistance of our JN0-253 study materials, you will advance quickly. Also, all JN0-253 Guide materials are compiled and developed by our professional experts. So you can totally rely on our JN0-253 exam simulating to aid you pass the exam. Furthermore, you will learn all knowledge systematically, which can help you memorize better.

JN0-253 Exam Preparation: <https://www.itpassleader.com/Juniper/JN0-253-dumps-pass-exam.html>

This facility is being offered in all three JN0-253 Exam Preparation - Mist AI, Associate (JNCIA-MistAI) exam question formats, We provide the latest and exact JN0-253 practice quiz to our customers and you will be grateful if you choose our JN0-253 study materials and gain what you are expecting in the shortest time, The format name of Channel Partner Program JN0-253 practice test questions is Juniper PDF Questions file, desktop practice test software, and web-based practice test software, Juniper Trustworthy JN0-253 Practice We provide 24/7 top notch support to every customer through live chat.

This chapter offers you a glimpse at how it all started and where it's going. JN0-253 jQuery, on the other hand, is an additional library, and you will need to add the jQuery library to your web page before adding jQuery scripts.

Top Features of ITPassLeader Juniper JN0-253 Practice Test Software

This facility is being offered in all three Mist AI, Associate (JNCIA-MistAI) exam question formats, We provide the latest and exact JN0-253 practice quiz to our customers and you will be grateful if you choose our JN0-253 study materials and gain what you are expecting in the shortest time.

The format name of Channel Partner Program JN0-253 practice test questions is Juniper PDF Questions file, desktop practice test software, and web-based practice test software.

We provide 24/7 top notch support to every customer through live chat, You are free to ask questions about JN0-253 training prep at any time since that we are working 24/7 online.
