## 2026 100% Free H11-861\_V4.0 –Accurate 100% Free Examcollection Dumps | HCIP-Collaboration V4.0 Valid Braindumps Book

The users of H11-861\_V4.0 exam reference materials cover a wide range of fields, including professionals, students, and students of less advanced culture. This is because the language format of our H11-861\_V4.0 study materials is easy to understand. No matter what information you choose to study, you don't have to worry about being a beginner and not reading data. And our H11-861\_V4.0 Test Questions are prepared by many experts. The content of our H11-861\_V4.0 study guide is very easy for you to understand for all the levels of the candidates.

### Huawei H11-861\_V4.0 Exam Syllabus Topics:

| Topic   | Details                                                                                                                                                                                                                                                                                                                             |
|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Topic 1 | <ul style="list-style-type: none"><li>Implementation and Configuration: This domain targets IIoT Solution Architects and System Integrators, focusing on configuring IoT devices, network connectivity, communication protocols, and edge computing components used in IIoT deployments.</li></ul>                                  |
| Topic 2 | <ul style="list-style-type: none"><li>Technical Concepts: This section measures skills of Industrial IoT Engineers and Network Engineers and covers fundamental technical principles relevant to Industrial Internet of Things (IIoT), including architectures, protocols, data management, and integration technologies.</li></ul> |

|         |                                                                                                                                                                                                                                                                                                                         |
|---------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Topic 3 | <ul style="list-style-type: none"> <li>Integration and Application: This section targets Solution Developers and System Integrators involved in integrating IIoT systems with existing enterprise applications, cloud platforms, and analytics tools for data-driven decision making.</li> </ul>                        |
| Topic 4 | <ul style="list-style-type: none"> <li>Operations and Maintenance: This domain measures skills of Operations Engineers and Network Administrators in monitoring IIoT systems, troubleshooting network and device issues, and maintaining overall system health and performance.</li> </ul>                              |
| Topic 5 | <ul style="list-style-type: none"> <li>Cybersecurity and Risk Management: This section assesses the expertise of Security Engineers and Compliance Officers in securing IIoT environments by applying security frameworks, identity and access management, threat detection, and risk mitigation strategies.</li> </ul> |

## Huawei HCIP-Collaboration V4.0 Sample Questions (Q15-Q20):

### NEW QUESTION # 15

Which of the following MCU debugging commands is used to display detailed information about a specified conference?

- A. conf get csdchaninfo [confnum]
- B. conf get [confNum]
- C. conf get strmInfo [confnum]
- D. conf get iaures [confNum]

**Answer: B**

Explanation:

The generic conf get [confNum] command retrieves comprehensive details for the specified conference, whereas the other commands show only specific aspects (IAU resources, stream info, or channel info).

### NEW QUESTION # 16

Which of the following statements is false about point-to-point calls?

- A. During a point-to-point call, the called endpoint sends a call request to the GK after receiving a SETUP message.
- B. During a point-to-point call, the Alerting signaling is used during the H.225/RAS connection.
- C. During a point-to-point call, the GK receives two call requests.
- D. During a point-to-point call, H.245 performs capability set matching before the logical channel is opened.

**Answer: B**

Explanation:

Alerting is part of the H.225 call-signaling sequence, not the RAS interface, so it is not used over the RAS channel.

### NEW QUESTION # 17

In the non-DMZ public-private network traversal scenario (small- and medium-sized network where the SMC and SC are co-deployed), you need to configure the LAN2 port of the SC as the default routing port.

- A. FALSE
- B. TRUE

**Answer: A**

Explanation:

In a co-deployed small/medium network, LAN1 is used for the default gateway to the SMC/public network; LAN2 serves the private segment, so you do not set LAN2 as the default routing port.

### NEW QUESTION # 18

FILL BLANK

In a SIP-only multipoint conference, when a participant sends the presentation, the system uses the \_\_\_\_\_ protocol for presentation. (Enter the abbreviation.)

**Answer:**

Explanation:

BFCP

Explanation:

In SIP-only multipoint conferences, presentation content is delivered using the Binary Floor Control Protocol (BFCP), which handles floor control and content distribution.

#### NEW QUESTION # 19

By default, the SMC provides six user roles. Default permissions of each user role can be modified or deleted based on site requirements.

- A. FALSE
- B. TRUE

**Answer: A**

Explanation:

The SMC indeed provides six built-in user roles (system administrator, security administrator, security auditor, program administrator, conference administrator, and common user), but their default permissions are fixed and cannot be modified or removed.

#### NEW QUESTION # 20

.....

As long as you study with our H11-861\_V4.0 exam braindumps for 20 to 30 hours that we can claim that you will pass the exam for sure. We really need this efficiency. Perhaps you have doubts about this "shortest time." I believe that after you understand the professional configuration of H11-861\_V4.0 Training Questions, you will agree with what I said. What our H11-861\_V4.0 study materials contain are all the real questions and answers that will come out in the real exam.
