**Answer: A,C**

#### NEW QUESTION # 17

Universal Containers (UC) has four different business units (BUS) with different processes that shares global customers. They have implemented a multi-org strategy with one org consolidating customer 360-degree view, and four orgs for the different BUS. Each of the BU orgs read and write customer information from/to the customer 360-degree view org in real time. UC is now launching a new BU that will use Salesforce. It does not share customers with the other BUS and needs flexibility in their Business processes.

What should an architect recommend as org strategy for this new BU

- A. Use a new stand-alone Salesforce org for the new BU, not integrated with the others.
- **B. Use a new Salesforce org for the new BU, and customize integration so that it reads and writes customer information from the customer data org**
- C. Use the same Salesforce org of another BU that shares geographical localization with the new BU.
- D. Deploy the new BU in customer 360-degree view org, and read and write customer information from it without need of custom integration.

**Answer: B**
