

Free PDF Quiz 2026 Plat-Admn-202: Salesforce Certified Platform App Builder High Hit-Rate Authorized Certification

What's more, part of that Itcerttest Plat-Admn-202 dumps now are free: <https://drive.google.com/open?id=1vOBq73HELT-TALvqOpDq3eUVesV4q3E>

When you are visiting our website, you will find that we have three different versions of the Plat-Admn-202 study guide for you to choose. And every version can apply in different conditions so that you can use your piecemeal time to learn, and every minute will have a good effect. In order for you to really absorb the content of Plat-Admn-202 Exam Questions, we will tailor a learning plan for you. This study plan may also have a great impact on your work and life. With our Plat-Admn-202 preparation materials, you can have a brighter future.

Salesforce Plat-Admn-202 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Business Logic and Process Automation: This section of the exam measures the skills of Process Automation Specialists and Salesforce Administrators and covers the key tools Salesforce provides to automate and enforce business logic. It focuses on using formula fields, roll-up summary fields, and validation rules to meet defined requirements. Candidates must also understand approval processes and know how to select the right automation tool to prevent conflicts or errors. The domain emphasizes evaluating business requirements and recommending automation solutions that maintain system stability and accuracy.
Topic 2	<ul style="list-style-type: none"> • Salesforce Fundamentals: This section of the exam measures the skills of Salesforce Administrators and Junior Salesforce Consultants and covers the essential concepts needed to understand how Salesforce works at a foundational level. It focuses on recognizing when to use declarative tools versus programmatic customization, determining when AppExchange apps extend org capabilities, and understanding key methods for managing object, record, and field access. It also evaluates your ability to choose the right sharing model based on business needs and to apply reporting tools effectively, including report types and dashboards. Additionally, the domain reviews how to optimize the mobile experience through actions and layouts, and how Chatter can be used to support collaboration.
Topic 3	<ul style="list-style-type: none"> • App Deployment: This section of the exam measures the skills of Release Managers and Salesforce Administrators and covers the application lifecycle from planning through deployment. It requires determining the appropriate strategy when working with different sandboxes and managing milestones during development. Candidates must know when to use change sets and how to troubleshoot deployment issues. The section also includes understanding the implications of using unmanaged versus managed packages and selecting the correct deployment plan for various business scenarios.

Topic 4	<ul style="list-style-type: none"> • Data Modeling and Management: This section of the exam measures the skills of Data Analysts and Salesforce Administrators and covers the core principles of designing and maintaining Salesforce data structures. It requires selecting the correct data model in various scenarios and understanding relationship types and how they influence reporting, record access, and the user interface. It also tests knowledge of field data types and the operational impact of changing them. The section includes evaluating the use of Schema Builder and understanding the considerations involved in importing and exporting data across internal and external sources.
Topic 5	<ul style="list-style-type: none"> • User Interface: This section of the exam measures the skills of Salesforce UI Designers and Lightning App Builders and covers the ways in which Salesforce interfaces can be customized to improve usability. It includes understanding available options for UI customization and demonstrating when to apply custom buttons, links, and actions. The domain also distinguishes between declarative and programmatic methods for incorporating Lightning components in applications, ensuring that the right approach is selected for different user interface needs.

Quiz 2026 Salesforce Professional Plat-Admn-202: Salesforce Certified Platform App Builder Authorized Certification

Our Plat-Admn-202 cram materials will help you gain the success in your career. You can be respected and enjoy the great fame among the industry. When applying for the jobs your resumes will be browsed for many times and paid high attention to. The odds to succeed in the job interview will increase. So you could see the detailed information of our Plat-Admn-202 Exam Questions before you decide to buy them on our web. Also we have free demo of our Plat-Admn-202 exam questions for you to try before you make the purchase.

Salesforce Certified Platform App Builder Sample Questions (Q183-Q188):

NEW QUESTION # 183

What are two capabilities of Schema Builder? Choose 2 answers

- **A. Showing selected objects on a page**
- B. Creating a new record type
- **C. Editing custom settings**
- D. Viewing page layouts in a new window

Answer: A,C

Explanation:

Schema Builder is a tool that allows app builders to view and modify the data model of their Salesforce org. Some of the capabilities of Schema Builder are:

Creating and editing custom objects and fields

Creating and editing relationships between objects

Showing selected objects on a page

Editing custom settings

Schema Builder cannot be used to create a new record type or view page layouts in a new window.

NEW QUESTION # 184

The developer at Universal Containers wants to test code in a sandbox environment. In order to ensure the code works properly, the sandbox needs to have at least half a gigabyte of data. The sandbox will need to be refreshed after each three-day sprint.

What type of sandbox should the App Builder provision to the developer?

- **A. Partial Data**
- B. Developer
- C. Full Copy
- D. Developer Pro

Answer: A

Explanation:

The app builder should provision a Partial Data sandbox to the developer. A Partial Data sandbox can have up to 5 GB of data, which meets the requirement of having at least half a gigabyte of data. A Partial Data sandbox can also be refreshed every 5 days, which meets the requirement of refreshing after each three-day sprint. Option A is incorrect because a Developer sandbox can only have up to 200 MB of data, which does not meet the requirement. Option B is incorrect because a Full Copy sandbox can only be refreshed every 29 days, which does not meet the requirement. Option C is incorrect because a Developer Pro sandbox can only have up to 1 GB of data, which may not be enough for the requirement.

NEW QUESTION # 185

Cloud Kicks (CK) is finding sales reps are inconsistent in data entry when deals are won. CK requires that custom shoes are shipped within two weeks after the close date. A custom field called Scheduled Ship Date on the opportunity records the ship date. How should the app builder ensure this field is properly filled out before setting the opportunity to closed won?

- A. `OR(ISPICKVAL(StageName ="Closed Won") && (Scheduled_Ship_Date__c- CloseDate) > 14,ISBLANK(Scheduled_Ship_Date__c))`
- B. `OR(ISPICKVAL(StageName ,"Closed Won") && (Scheduled_Ship_Date__cCloseDate)>14,ISBLANK(Scheduled_Ship_Date__c))`
- C. `ISPICKVAL(StageName ,"Closed Won") && (Scheduled_Ship_Date__c-CloseDate) > 14`
- D. `ISPICKVAL(StageName= CloseDate) > 14,losed Won") && (CloseDateScheduled_Ship_Date__c) > 14`

Answer: B

Explanation:

The correct validation rule formula to ensure that the Scheduled Ship Date field is properly filled out before setting the Opportunity to Closed Won is:

`OR(ISPICKVAL(StageName ,"Closed Won") && (Scheduled_Ship_Date__cCloseDate)>14,ISBLANK(Scheduled_Ship_Date__c))` This formula checks two conditions: if the StageName is Closed Won and the Scheduled Ship Date is more than 14 days after the Close Date, or if the Scheduled Ship Date is blank. If either condition is true, the validation rule will fire and prevent saving the record. The other formulas are incorrect because they either use incorrect syntax (such as "=" instead of ",") or missing parentheses) or incorrect logic (such as checking if the Scheduled Ship Date is less than 14 days after the Close Date)

NEW QUESTION # 186

Cloud Kicks wants to start tracking how many shoe subscriptions have been sold for each shoe catalog. A master-detail relationship exists between the Subscription__c and the Shoe__c objects.

Which type of field should an app builder create?

- A. Roll-up summary field
- B. Master-detail relationship field
- C. Lookup field
- D. Number field

Answer: A

Explanation:

To start tracking how many shoe subscriptions have been sold for each shoe catalog, a roll-up summary field should be created. A roll-up summary field calculates values from related records on a master-detail relationship. It can count, sum, min, or max numeric values from child records on a parent record.

NEW QUESTION # 187

The VP of Sales at Universal Containers has asked the app builder to let sales reps create opportunity records directly from the account, with a number of fields pre-populated.

Which feature should the app builder use to allow users to create the opportunity?

- A. A custom button
- B. A quick action

- C. A default action
- D. A custom link

Answer: B

Explanation:

The feature that the app builder should use to allow users to create the opportunity is a quick action. A quick action is a type of custom button or link that can create or update records, log calls, send emails, or launch flows from a record page or a global menu. The app builder can create a quick action on the account object that creates an opportunity record with pre-populated fields. Option B is incorrect because a default action is not a valid term, but rather a standard action that appears on every record page by default, such as Edit or Delete. Option C is incorrect because a custom button is not suitable for this requirement, as custom buttons can only display a URL or execute JavaScript when clicked. Option D is incorrect because a custom link is not suitable for this requirement, as custom links can only display a URL or execute JavaScript when clicked.

NEW QUESTION # 188

.....

As is known to us, the Plat-Admn-202 Certification has been increasingly important for a lot of modern people in the rapid development world. Why is the Plat-Admn-202 certification so significant for many people? Because having the certification can help people make their dreams come true, including have a better job, gain more wealth, have a higher social position and so on. We believe that you will be fond of our products.
