SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q39-Q44):

NEW QUESTION # 39

What is the correct release code for the second feature delivery in February 2025?

- A. 2502.2
- B. 0
- C. 2025.2.2
- D. 2025.2

Answer: A

Explanation:

The release code for SAP S/4HANA Cloud Public Edition follows the format YYYY.MM.X, where YYYY is the year, MM is the month, and X is the feature delivery number. The first feature delivery is always in February, and the second feature delivery is always in May. Therefore, the release code for the second feature delivery in February 2025 is 2502.2. References = Navigating Release Upgrades, SAP S/4HANA Cloud, Public Edition 2308 Release

NEW QUESTION # 40

Where do you find industry cloud solutions to address a customer's unique requirement?

- A. SAP Store
- B. SAP Business Technology Platform
- C. SAP Signavio Process Navigator
- D. SAP Discovery Center

Answer: A

Explanation:

Industry cloud solutions are cloud-based solutions that address specific industry needs and challenges. They are designed to complement and extend the capabilities of SAP S/4HANA Cloud Public Edition and other SAP solutions. You can find industry cloud solutions on the SAP Store, which is the online marketplace for SAP and partner offerings. On the SAP Store, you can browse, discover, try, buy, and deploy industry cloud solutions that suit your business needs. References = SAP S/4HANA Cloud Public Edition, SAP Learning, SAP Store

NEW QUESTION # 41

Which of the following are examples of indirect digital access? Note: There are 2 correct answers to this question.

- A. A Defect document created through an industry application
- B. A Production Order created through a non-SAP front-end
- C. A Time Sheet Record from a 3rd party application
- D. An unattended bot in SAP Build Process Automation

Answer: A,C

Explanation:

Indirect digital access occurs when humans, devices, or systems use the digital core indirectly through non-SAP intermediary software, such as a non-SAP front end, a custom-solution, or any other non-SAP application¹. Indirect digital access is measured by the number of documents created, updated, or deleted in the SAP system as a result of the indirect use². Examples of indirect digital access include:

- * A Defect document created through an industry application: This is an example of indirect digital access because the industry application is a non-SAP software that triggers the creation of a document in the SAP system.
- * A Time Sheet Record from a 3rd party application: This is also an example of indirect digital access because the 3rd party application is a non-SAP software that triggers the creation of a document in the SAP system.
- * An unattended bot in SAP Build Process Automation: This is not an example of indirect digital access because the bot is using SAP software to access the SAP system directly, not through a non-SAP intermediary software.
- * A Production Order created through a non-SAP front-end: This is not an example of indirect digital access because the production order is not a document type that is counted for indirect digital access. The document types that are counted are: Sales Order, Invoice, Purchase Order, Service and Maintenance Document, Manufacturing Document, Quality Management Document, Time Sheet, Financial Document, and Material Document². References = Digital Access | SAP Help Portal, SAP Digital Access / SAP Digital Access Adoption Program (DAAP) Extension through December 31, 2021

NEW QUESTION # 42
