

AAISM New APP Simulations, AAISM Latest Test Preparation

What's more, part of that DumpExam AAISM dumps now are free: <https://drive.google.com/open?id=1ZWTEP72iUT-uElpDGEzjDd8KSIFNSHYC>

Purchasing our AAISM training test is not complicated, there are mainly four steps: first, you can choose corresponding version according to the needs you like. Next, you need to fill in the correct email address. And if the user changes the email during the subsequent release, you need to update the email. Then, the user needs to enter the payment page of the AAISM Learning Materials to buy it. Finally, within ten minutes of payment, the system automatically sends the AAISM study materials to the user's email address. And then you can quickly study and pass the AAISM exam.

It is human nature to pursue wealth and success. No one wants to be a common person. In order to become a successful person, you must sharpen your horizons and deepen your thoughts. Our AAISM study materials can help you update yourself in the shortest time. You just need to make use of your spare time to finish learning our AAISM Study Materials. So your normal life will not be disturbed. Please witness your growth after the professional guidance of our AAISM study materials.

AAISM Latest Test Preparation, AAISM Study Tool

Do not waste further time and money, get real ISACA AAISM pdf questions and practice test software, and start ISACA AAISM test preparation today. DumpExam will also provide you with up to 365 days of free ISACA Advanced in AI Security Management (AAISM) Exam exam questions updates, It will just need to take one or two days to practice ISACA AAISM Test Questions and remember answers. You will free access to our test engine for review after payment.

ISACA AAISM Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">AI Technologies and Controls: This section of the exam measures the expertise of AI Security Architects and assesses knowledge in designing secure AI architecture and controls. It addresses privacy, ethical, and trust concerns, data management controls, monitoring mechanisms, and security control implementation tailored to AI systems.
Topic 2	<ul style="list-style-type: none">AI Risk Management: This section of the exam measures the skills of AI Risk Managers and covers assessing enterprise threats, vulnerabilities, and supply chain risk associated with AI adoption, including risk treatment plans and vendor oversight.
Topic 3	<ul style="list-style-type: none">AI Governance and Program Management: This section of the exam measures the abilities of AI Security Governance Professionals and focuses on advising stakeholders in implementing AI security through governance frameworks, policy creation, data lifecycle management, program development, and incident response protocols.

ISACA Advanced in AI Security Management (AAISM) Exam Sample Questions (Q158-Q163):

NEW QUESTION # 158

Which of the following is the MOST effective way to mitigate the risk of deepfake attacks?

- A. Using a general-purpose large language model (LLM) to detect fraud
- B. Limiting employee access to AI tools
- C. Validating the provenance of the data source
- D. Relying on human judgment for oversight

Answer: C

Explanation:

AAISM study content identifies validating the provenance of data sources as the most effective way to counter deepfake risks. Provenance validation ensures that content is authentic, verifiable, and traceable, preventing malicious synthetic media from being trusted as legitimate. Human oversight helps but cannot reliably detect sophisticated fakes. Limiting tool access reduces exposure but does not prevent external attacks. General-purpose LLMs are not optimized for fraud detection. The strongest control is verifying the origin and authenticity of data before acceptance.

References:

AAISM Study Guide - AI Risk Management (Deepfake and Content Integrity Risks) ISACA AI Security Management - Provenance Validation as a Defense

NEW QUESTION # 159

A post-incident investigation finds that an AI-powered anti-money laundering system inadvertently allowed suspicious transactions because certain risk signals were disabled to reduce false positives. Which of the following governance failures does this BEST demonstrate?

- A. Lack of sufficient computing resources for the AI system
- B. Insufficient model validation and change control processes
- C. Excessive reliance on external consultants for model design
- D. Absence of metrics and dashboard for analysts

Answer: B

Explanation:

AAISM requires formal model change governance: documented justification, risk assessment, validation/verification (V&V), approvals, and post-deployment monitoring when altering features, thresholds, or signals. Disabling risk indicators to reduce false positives without rigorous validation and controlled rollout reflects a failure in model validation and change control, which AAISM treats as a core safeguard against unintended harms and regulatory breaches.

References: AI Security Management™ (AAISM) Body of Knowledge - Model Risk Governance; Change Management & Approvals; Validation/Verification Requirements. AAISM Study Guide - Control Gates for Feature/Threshold Changes; Post-Change Monitoring and Backout Criteria.

NEW QUESTION # 160

Which of the following should be the PRIMARY objective of implementing differential privacy techniques in AI models used for fraud detection systems?

- A. Increasing model training speed
- B. Enhancing the accuracy of predictions
- C. Reducing computational resources
- D. Protecting individual data contributions while allowing statistical analysis

Answer: D

Explanation:

AAISM defines differential privacy as a technique that ensures individual data points cannot be reverse-engineered or identified,

even when used to train high-risk AI models such as fraud detection systems. Its primary purpose is to protect individual privacy while maintaining aggregate utility.

Accuracy improvements (B) or performance optimizations (A, D) are not core objectives of differential privacy.

References: AAISM Study Guide - Privacy-Preserving Machine Learning; Differential Privacy Fundamentals.

NEW QUESTION # 161

An organization is adopting an agentic AI solution from an external vendor to support its internal IT operations. To evaluate the security posture of this system, which of the following provides the MOST reliable and independently verifiable evidence of implemented security controls?

- A. Internal red team testing reports
- B. General AI security whitepapers
- C. Third-party audit reports
- D. Industry benchmarking peer review

Answer: C

Explanation:

Third-party audit reports provide independent assurance that the vendor's stated controls are designed and operating effectively against recognized criteria. Such attestations (e.g., audit/assurance frameworks) are traceable, repeatable, and verifiable, and they support supply-chain risk reviews and contractual assurance.

Internal red-team reports are not independent, industry "peer reviews" are not control attestations, and whitepapers are marketing/educational materials without evidence of control operation.

References: AI Security Management™ (AAISM) Body of Knowledge: Third-Party & Supply-Chain Assurance; Independent Assessment and Audit Evidence; Vendor Risk Management. AAISM Study Guide:

Assurance Artifacts for AI Services; Evaluating External AI Providers.

NEW QUESTION # 162

A CISO must provide KPIs for the organization's newly deployed AI chatbot. Which metrics are BEST?

- A. Customer effort score and user retention
- B. Response time and throughput
- C. Explainability and F1 score
- D. Error rate and bias detection

Answer: D

Explanation:

AAISM recommends that AI KPIs should emphasize:

* Error rates - measure correctness and reliability

* Bias detection metrics - assess fairness and harm risk

These are the core governance KPIs for AI systems interacting with end users.

Response time (A) is a performance metric but not an AI governance KPI. Customer retention (C) is business- focused. F1 score (D) is useful but not as critical as bias monitoring.

References: AAISM Study Guide - AI Performance, Fairness & Governance Metrics.

NEW QUESTION # 163

.....

We aim to provide the best service for our customers, and we demand of ourselves and our after sale service staffs to the highest ethical standard, and our AAISM study guide and compiling processes will be of the highest quality. We play an active role in making every country and community in which we selling our AAISM Practice Test a better place to live and work. That is to say, if you have any problem after AAISM exam materials purchasing, you can contact our after sale service staffs anywhere at any time on our AAISM study guide. And our staffs are only waiting for you online.
