PECB ISO-14001-Lead-Auditor Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Conducting an ISO 14001 audit: This part tests the practical skills of EMS auditors in executing the audit, including conducting meetings, collecting audit evidence, interviewing personnel, and documenting findings in accordance with ISO 14001 standards.
Topic 2	<ul style="list-style-type: none">Closing an ISO 14001 audit: This domain focuses on the responsibilities of audit consultants during the audit closure process. It includes evaluating findings, preparing audit conclusions, holding closing meetings, and ensuring proper reporting and communication of results.
Topic 3	<ul style="list-style-type: none">Fundamental audit concepts and principles: This section of the exam assesses the grasp EMS auditors have on core audit principles such as integrity, fair presentation, due professional care, and evidence-based evaluation. It ensures auditors can apply these principles consistently in the audit process.

Topic 4	<ul style="list-style-type: none"> Fundamental principles and concepts of an environmental management system: This section of the exam measures the foundational knowledge of EMS auditors and covers key principles such as environmental sustainability, continual improvement, and the process approach. It assesses understanding of how environmental management systems contribute to overall business performance and regulatory compliance.
Topic 5	<ul style="list-style-type: none"> Environmental management system requirement: This section evaluates the ability of audit consultants to interpret and apply the specific requirements of ISO 14001. It focuses on understanding the structure of the standard, including context of the organization, leadership, planning, support, operations, and performance evaluation.
Topic 6	<ul style="list-style-type: none"> Managing an ISO 14001 audit program: This section of the exam evaluates the ability of EMS auditors to manage a complete audit program. It includes planning, implementing, monitoring, and continually improving the audit program to align with organizational and compliance goals.

Quiz 2026 PECB ISO-14001-Lead-Auditor: Unparalleled PECB Certified EMS ISO 14001 Lead Auditor Exam Pass4sure Pass Guide

With the rapid development of the world economy and frequent contacts between different countries, the talent competition is increasing day by day, and the employment pressure is also increasing day by day. If you want to get a better job and relieve your employment pressure, it is essential for you to get the ISO-14001-Lead-Auditor Certification. However, due to the severe employment situation, more and more people have been crazy for passing the ISO-14001-Lead-Auditor exam by taking examinations, the exam has also been more and more difficult to pass.

PECB Certified EMS ISO 14001 Lead Auditor Exam Sample Questions (Q36-Q41):

NEW QUESTION # 36

Whistlekleen is a national dry cleaning and laundry organisation with 50 shops. You are conducting an EMS surveillance audit of Head Office and are sampling environmental performance measurement. You find that 80 per cent of failures to meet performance criteria originate from five shops in the same region. Most of these failures relate to the release of volatile organic compounds (VOCs) that exceeded regulations. The Environmental Manager tells you that these are the oldest shops in the organisation. The cleaning equipment needs replacing but the organisation cannot afford it at the moment. On raising the matter with senior management, you are told that there are plans to replace the equipment in these shops over the next five years.

When reviewing the nonconformity report files, you find that the organisation is facing a legal dispute with the environmental authority over multiple breaches of environmental legislation.

Select the three best options for how this dispute should be handled by the organisation through its EMS.

- A. Advise the authority that the faulty equipment will be maintained more often.
- B. Offer to compensate employees for possible health implications.
- C. Ask to settle the court case by negotiation with the authority.
- D. Give an explanation to the authority of what went wrong.
- E. Monitor VOC emissions to ensure compliance with legal requirements.
- F. Advise the authority that timely corrective action will be taken.
- G. Conduct an internal enquiry to establish who is to blame.
- H. Investigate changing the cleaning process to use chemicals with lower VOC content.

Answer: E,F,H

NEW QUESTION # 37

You are conducting a Stage 2 certification audit of VitalSpark, a pharmaceutical organisation manufacturing vitamins and other healthcare medicines.

In a separate area in the centre of their large site, a supplier produces oxygen supplies piped directly into the manufacturing

processes of VitalSpark. They also deliver oxygen in bulk tankers to other customers. When you review the environmental aspects register, you find that the only environmental aspect recorded for this arrangement relates to the heavy goods vehicles of the supplier transiting the site.

You ask the EMS Manager about the environmental consequences to VitalSpark of this arrangement and are told that they are not significant since the supplier has its own services for water, sewage, waste and energy.

The EMS Manager tried unsuccessfully to communicate with the supplier who is located inside the VitalSpark site and outside the scope of the EMS.

After gathering more evidence, you note down findings against several clauses of ISO 14001. Determine which three of the findings stated are non-conformities.

- A. The Environmental Manager did not visit the oxygen supplier. (Clause 7.4.3)
- B. The EMS Manager had some problems communicating with the supplier by mobile phone as an interested party. No other methods of communication were employed. (Clause 7.4.3)
- C. The internal audit programme does not include processes for control of subcontractor transport movements. The audit programme does not cover the full environmental management system. (Clause 9.2.2)
- D. The contractor's environmental policy is not consistent with the organisation's policy (Clause 5.2)
- E. The organisation has failed to include in the EMS scope the activities, products and services associated with suppliers and contractors performing their activities in its own site. (Clause 4.3)
- F. Documentation of environmental impacts was missing for the supplier of oxygen. (Clause 6.1.2)
- G. The aspects related to the use of heavy goods trucks was not identified. (Clause 6.1.2)
- H. Evidence was found to indicate that the needs of some interested parties had not been considered by the organisation. A neighbour's interests had not been identified. (Clause 4.2.b)

Answer: C,E,F

NEW QUESTION # 38

Sparkle is an organisation that provides mobile car cleaning services at customers' premises. It has been certified to ISO 14001 for some time and has appointed a new EMS Manager. The audit plan during a surveillance audit includes the improvement actions and the auditor asks to see the most recent management review meeting minutes.

Which six statements would represent output audit evidence for the management review?

- A. Decisions related to continual improvement opportunities
- B. Plan to prioritise environmental improvement as a business strategy
- C. Updated environmental signs in the production facility
- D. Minutes of previous management reviews
- E. Changes in the EMS documentation
- F. Allocation of a bigger budget for the EMS department
- G. Procurement of new spill kits for operators
- H. Changes to the significant environmental aspects
- I. Staff feedback of environmental risks
- J. Report of performance of EMS objectives in the last year

Answer: A,B,E,F,H,J

NEW QUESTION # 39

An organisation has ISO 14001 EMS certification from a third-party certification body. Which one of the following represents an advantage of having accredited certification?

- A. Clarity of the audit report.
- B. An increase in the number of clients.
- C. Recognition of the credibility of the certification process.
- D. An increase in the marketing price of the organisation's products.

Answer: C

Explanation:

Accredited certification under ISO 14001 refers to certification that has been issued by a certification body that is itself accredited by a national accreditation body. This provides formal recognition that the certification body is competent to perform audits and issue

certifications in accordance with ISO/IEC 17021 standards.

According to guidance in ISO 14001 Lead Auditor training materials and ISO/IEC 17021, one of the key benefits of accredited certification is:

"Recognition of the credibility, impartiality, and technical competence of the certification process and the certification body issuing the certificate." This recognition:

Increases stakeholder confidence (e.g., regulators, clients, the public), Supports market access and tender qualifications, Confirms that audits are performed in accordance with international best practices.

Option D correctly reflects the most strategic and system-level benefit of accredited certification.

The other options (A, B, and C) may result indirectly or are not directly linked to the purpose of accreditation.

Reference:

ISO/IEC 17021:2015 - Requirements for bodies providing audit and certification of management systems ISO 14001 Lead Auditor Course Guide - Module on Certification and Accreditation ISO 14001:2015 - Clause 3.1.1 & 3.1.2 (definition of EMS and system credibility)

NEW QUESTION # 40

Whistleklean is a national dry cleaning and laundry organisation with 50 shops. You are conducting an EMS surveillance audit of Head Office and are sampling environmental performance measurement. You find that

80 per cent of failures to meet performance criteria originate from five shops in the same region. Most of these failures relate to the release of volatile organic compounds (VOCs) that exceeds regulations. The Environmental Manager tells you that these are the oldest shops in the organisation. The cleaning equipment needs replacing but the organisation cannot afford it at the moment.

On raising the matter with senior management, you are told that there are plans to replace the equipment in these shops over the next five years.

Select two options that apply to how you should respond to the information given.

- A. Criticise the equipment replacement period as being too environmentally damaging for too long
- B. Extend the audit plan to include the five shops
- C. Determine if the local authority has been informed that the organisation is exceeding VOC emissions
- D. Raise an opportunity for improvement (OI) to reduce damaging emissions
- E. Evaluate whether the process for measuring environmental performance is effective
- F. Recommend that staff in the five shops should have medical check-ups due to air pollution

Answer: C,E
