## Three Easy-to-Use ValidTorrent SAP C-TS470-2412 Exam Questions Formats

There are some prominent features that are making the C-TS470-2412 exam dumps the first choice of C-TS470-2412 certification

exam candidates. The prominent features are real and verified SAP Certified Associate - SAP S/4HANA Cloud Private Edition Service exam questions, availability of C-TS470-2412 exam dumps in three different formats, affordable price, 1 year free updated C-TS470-2412 Exam Questions download facility, and 100 percent SAP C-TS470-2412 exam passing money back guarantee. We are quite confident that all these C-TS470-2412 exam dumps feature you will not find anywhere. Just download the SAP C-TS470-2412 Certification Exams and start this journey right now.

## **SAP Certified Associate - SAP S/4HANA Cloud Private Edition Service Sample Questions (Q58-Q63):**

### **NEW QUESTION # 58**

When extending a functional location hierarchy, how is a new functional location initially assigned to it?

- A. Automatically based on the structure indicator
- B. Manually by using the list editing transaction
- C. Manually by using the install function
- D. Automatically based on the functional location category

### **Answer: A**

Explanation:

In SAP S/4HANA Cloud Private Edition, Service, a functional location hierarchy organizes technical objects in a structured manner. When adding a new functional location, it is automatically assigned based on the structure indicator (Option B).

The structure indicator defines the naming convention and hierarchy levels (e.g., A-B-C for a three-level structure). When a new functional location is created, the system uses this indicator to place it in the hierarchy automatically, based on its ID (e.g., A-B becomes a child of A).

\* A: The category defines properties, not the hierarchy position.

\* C: List editing is for mass changes, not initial assignment.

\* D: The install function is for equipment, not functional locations.

"A new functional location is automatically assigned to the hierarchy based on the structure indicator, which governs the hierarchical naming and positioning."

### **NEW QUESTION # 59**

On item level in a service contract, which service transactions are visible in a list?

- A. Completed service confirmations
- B. Released maintenance orders
- C. Released service orders
- D. Released customer service orders

### **Answer: C**

Explanation:

In a service contract (scope item 3MO), the item-level transaction list shows:

\* Released service orders: Service orders (e.g., transaction type SRVO) linked to the contract item are visible once released, tracking service execution.

\* Completed service confirmations: Confirmations are linked to orders, not directly listed at the contract item level.

\* Released maintenance orders: Only relevant in advanced execution, not standard contract visibility.

\* Released customer service orders: Not a distinct transaction type in S/4HANA Service. This is part of the contract monitoring functionality. "Released service orders are visible in the transaction list at the service contract item level." (SAP Help Portal, Service Contract Monitoring).

### **NEW QUESTION # 60**

What are characteristics of recurring services when using Service with Advanced Execution? Note: There are 3 correct answers to this question.

- A. Billable maintenance orders are generated
- B. The maintenance confirmation describes the actual effort and spare parts used
- C. An invoice is generated for each call object as soon as it is set to completed

- D. Customer Service orders are generated
- E. Both resource-related and fixed-price billing are available

**Answer: A,B,E**

Explanation:

Service with Advanced Executionenhances recurring service processes with detailed execution and billing.

The correct answers are A, B, D. Let's unpack this.

- \* Both resource-related and fixed-price billing are available (A):This scenario supports flexible billing-resource-related (based on actual effort/materials) or fixed-price (predefined rates), configured via the dynamic item processor profile.
- \* The maintenance confirmation describes the actual effort and spare parts used (B):Confirmations (e.g., via IW41) detail hours worked and parts consumed, feeding into billing and cost tracking.
- \* Billable maintenance orders are generated (D):Recurring services generate maintenance orders (mapped to service order types) that are billable, unlike simpler Customer Service orders.

Why Not the Others?

\* C."Customer Service orders" is a legacy term; advanced execution uses maintenance orders.

\* EInvoices are created via billing runs, not automatically per call object completion.

Example:

A maintenance plan generates a billable order, confirmed with 5 hours and parts, billed resource-related.

"Recurring services in Advanced Execution feature resource-related and fixed-price billing, maintenance confirmations for effort/parts, and billable maintenance orders."

## NEW QUESTION # 61

Which of the following is a prerequisite to install a piece of equipment in a functional location?

- A. Allow the equipment category to be installed in a functional location
- B. Set the installation flag for a piece of equipment
- C. Allow the combination of equipment category and object type to be installed in a functional location
- D. Set the installation flag for a functional location category

**Answer: A**

Explanation:

To install equipment in a functional location in SAP S/4HANA:

- \* Allow the equipment category to be installed in a functional location: The equipment category (e.g., M for machines) must be configured to permit installation (set in transaction OIEQ), ensuring compatibility with functional locations.
- \* Combination of equipment category and object type: Object types are for classification, not installation prerequisites.
- \* Installation flag for equipment/functional location: No such flags exist; installation is controlled by category settings. This is part of equipment management setup."The equipment category must allow installation in a functional location as a prerequisite." (SAP Help Portal, Equipment Installation).

## NEW QUESTION # 62

In the advanced execution scenario, which order types can you map to a service order type?

- A. Sales order types
- B. Customer service order types
- C. Maintenance order types
- D. Purchase order types

**Answer: C**

Explanation:

TheService with Advanced Executionscenario in SAP S/4HANA Cloud Private Edition, introduced fully in release 2023, integrates service orders with detailed operational planning via maintenance orders. In this scenario:

- \* Maintenance order types: These can be mapped to a service order type to enable advanced execution capabilities, such as detailed planning of operations, spare parts, and task lists. This mapping is configured in Customizing under "Plant Maintenance Integration # Map Order Types," allowing a service order item to generate a corresponding maintenance order.
- \* Purchase order types: These are used for procurement, not directly mapped to service orders in this context.
- \* Customer service order types: This is not a distinct order type category in SAP S/4HANA Service; service orders themselves are

the focus.

\* Sales order types: These are unrelated to the advanced execution scenario, which focuses on service and maintenance integration. This integration enhances planning and execution for complex or long- running services. "Map the transaction type and item category used in a maintenance service to a maintenance order type to enable creation of a maintenance order in the Service with Advanced Execution scenario." (SAP Help Portal, Configuring Service with Advanced Execution).

## NEW QUESTION # 63

.....

In the process of using the C-TS470-2412 study training materials, once users have any questions about our study materials, the user can directly by E-mail us, our products have a dedicated customer service staff to answer for the user, they are 24 hours service for you, we are very welcome to contact us by E-mail and put forward valuable opinion for us. Our C-TS470-2412 Latest Questions already have three different kinds of learning materials, what is the most suitable C-TS470-2412 test guide for you? You can just follow the instructions for C-TS470-2412 study guide on the web or ask our services about it.

**C-TS470-2412 Test Certification Cost:** <https://www.validtorrent.com/C-TS470-2412-valid-exam-torrent.html>

After buying our C-TS470-2412 Latest Real Test Questions latest material, the chance of gaining success will be over 98 percent, ValidTorrent C-TS470-2412 Test Certification Cost offer a cost savings over purchasing the products individually, So our company has successfully developed the three versions of C-TS470-2412 study guide materials for you to purchase, Choose C-TS470-2412 exam dumps right now, we won't let you down.

With this type of toxic sociology, it is surprising that healthcare.gov works C-TS470-2412 as well it does, You can download latest SAP Certified Associate - SAP S/4HANA Cloud Private Edition Service dumps exam training resources from ValidTorrent and pass the SAP Certified Associate - SAP S/4HANA Cloud Private Edition Service exam in the first attempt.

## 2026 C-TS470-2412 Actual Test - SAP SAP Certified Associate - SAP S/4HANA Cloud Private Edition Service - High-quality C-TS470-2412 Test Certification Cost

After buying our C-TS470-2412 Latest Real Test Questions latest material, the chance of gaining success will be over 98 percent, ValidTorrent offer a cost savings over purchasing the products individually.

So our company has successfully developed the three versions of C-TS470-2412 study guide materials for you to purchase, Choose C-TS470-2412 exam dumps right now, we won't let you down.

The current industry needs a reliable source of C-TS470-2412 updated study material, and C-TS470-2412 latest study material is a good choice.
