The clients can consult our online customer service before and after they buy our Mule-Dev-301 study materials. We provide considerate customer service to the clients. Before the clients buy our Mule-Dev-301 study materials they can consult our online customer service personnel about the products' version and price and then decide whether to buy them or not. After the clients buy the Mule-Dev-301 study materials they can consult our online customer service about how to use them and the problems which occur during the process of using. If the clients fail in the test and require the refund our online customer service will reply their requests quickly and deal with the refund procedures promptly. In short, our online customer service will reply all of the clients' questions about the Mule-Dev-301 Study Materials timely and efficiently.

You can absolutely assure about the high quality of our products, because the contents of Mule-Dev-301 training materials have not only been recognized by hundreds of industry experts, but also provides you with high-quality after-sales service. Before purchasing Mule-Dev-301 exam torrent, you can log in to our website for free download. During your installation, Mule-Dev-301 exam questions hired dedicated experts to provide you with free remote online guidance. During your studies, Mule-Dev-301 Exam Torrent also provides you with free online services for 24 hours, regardless of where and when you are, as long as an email, we will solve all the problems for you. At the same time, if you fail to pass the exam after you have purchased Mule-Dev-301 training materials, you just need to submit your transcript to our customer service staff and you will receive a full refund.

Updated Mule-Dev-301 Reliable Cram Materials Provide Prefect Assistance in Mule-Dev-301 Preparation

Differ as a result the Mule-Dev-301 questions torrent geared to the needs of the user level, cultural level is uneven, have a plenty of college students in school, have a plenty of work for workers, and even some low education level of people laid off, so in order to adapt to different level differences in users, the Mule-Dev-301 Exam Questions at the time of writing teaching materials with a special focus on the text information expression, so you can understand the content of the Mule-Dev-301 learning guide and pass the Mule-Dev-301 exam easily.

Salesforce Certified MuleSoft Developer II Sample Questions (Q23-Q28):

NEW QUESTION # 23

A Mule application contain two policies Policy A and Policy A has order1, and Policy B has order 2. Policy A Policy B, and a flow are defined by he configuration below.

```
<http-policy:proxy name="policy-A">
  <http-policy:source>
    <A1/>
    <http-policy:execute-next/>
    <A2/>
  </http-policy:source>
</http-policy:proxy>

<http-policy:proxy name="policy-B">
  <http-policy:source>
    <B1/>
    <http-policy:execute-next/>
    <B2/>
  </http-policy:source>
</http-policy:proxy>

<flow name="flow">
  <http:listener/>
  <F1/>
</flow>
```

When a HTTP request arrives at the Mule application's endpoint, what will be the execution order?

- A. A1, B1, F1, B2, A2
- B. F1, B1, A1, A2, B2
- C. F1, A1, B1, B2, A2
- D. B1, A1, F1, A2, B2

Answer: A

Explanation:

Based on the configuration below, when a HTTP request arrives at the Mule application's endpoint, the execution order will be A1, B1, F1, B2, A2. This is because policies are executed before and after the API implementation flow according to their order attribute. Policy A has order 1, which means it is executed first before Policy B, which has order 2. The flow is executed after both policies are executed before the flow. Then, Policy B is executed after the flow before Policy A is executed after the flow.

Reference: <https://docs.mulesoft.com/api-manager/2.x/policies-policy-order>

NEW QUESTION # 24

Refer to the exhibits.

Bioinfo System API is implemented and published to Anypoint Exchange. A developer wants to invoke this API using its REST Connector.

What should be added to the POM?

```
<plugin>
  <groupId>XXXXX-XXXXXXX-XXXX-XXXXX-XXXXX-X</groupId>
  <artifactId>mule-plugin-bio-info</artifactId>
  <version>1.0.0</version>
  <classifier>mule-plugin</classifier>
</plugin>
```

- A.
- B.

```
<dependency>
  <groupId>XXXXX-XXXX-XXXX-XXXX-XXXX-XXXX-X</groupId>
  <artifactId>mule-plugin-bio-info</artifactId>
  <version>1.0.0</version>
  <classifier>mule-plugin</classifier>
  <artifactId>mule-plugin-bio-info</artifactId>
  <version>1.0.0</version>
  <classifier>mule-plugin</classifier>
</rest-connect>
```

```
<repository>
  <groupId>XXXXX-XXXXXXX-XXXX-XXXXX-XXXXX-X</groupId>
  <artifactId>mule-plugin-bio-info</artifactId>
  <version>1.0.0</version>
  <classifier>mule-plugin</classifier>
</repository>
```

- C.
- D.

```
<rest-connect>
  <groupId>XXXXX-XXXXXXX-XXXX-XXXXX-XXXXX-X</groupId>
  <artifactId>mule-plugin-bio-info</artifactId>
  <version>1.0.0</version>
  <classifier>mule-plugin</classifier>
</rest-connect>
```

- E.

```
<dependency>
  <groupId>XXXXX-XXXXXXX-XXXX-XXXXX-XXXXX-X</groupId>
  <artifactId>mule-plugin-bio-info</artifactId>
  <version>1.0.0</version>
  <classifier>mule-plugin</classifier>
</dependency>
```

Answer: A

Explanation:

To invoke Bioinfo System API using its REST Connector, option E should be added to the pom.xml file. This option adds a dependency for Bioinfo System API REST Connector with its group ID, artifact ID, version, classifier, and type. The classifier specifies that it is a REST Connector (raml-client), and the type specifies that it is a Mule plugin (mule-plugin). Reference: <https://docs.mulesoft.com/apikit/4.x/apikit-4-generate-from-rest-api-task#add-the-api-dependency-to-the-pom-file>

A company with MuleSoft Titanium develops a Salesforce System API using MuleSoft out-of-the-box Salesforce Connector and deploys the API to CloudHub.

Which steps provide the average number of requests and average response time of the Salesforce Connector?

- A. Change the API Implementation to capture the information in the log. Retrieve the information from the log file.
- **B. Access Anypoint Monitoring's built-in dashboard. Select a resource. Locate the information under the Connectors tab.**
- C. Access Anypoint Monitoring built-in dashboard. Select a resource. Locate the information under Log Manager < Raw Data.
- D. Access Anypoint Monitoring's built-in dashboard. Select a resource. Create a custom dashboard to retrieve the information.

Answer: B

Explanation:

To get the average number of requests and average response time of the Salesforce Connector, the developer should access Anypoint Monitoring's built-in dashboard, select a resource (such as an application or an API), and locate the information under the Connectors tab. The Connectors tab shows metrics for each connector used by the resource, such as average requests per minute, average response time, and failures. Reference: <https://docs.mulesoft.com/monitoring/built-in-dashboard-reference>

NEW QUESTION # 26

A scatter-gather router is configured with four routes:Route A, B, C and D.
Route C false.

- A. Payload ['2']
- B. Payload failures['2']
- C. Error,errorMessage,payload.failures['2']
- **D. Error,errorMessage,payload.results ['2']**

Answer: D

Explanation:

The result of accessing route C failure is Error,errorMessage,payload.failures['2']. This is because a scatter-gather router returns an aggregated message that contains an array of results from each route and an array of failures from each route. The failures array contains error objects with information about each failed route execution. To access route C failure, which is the third route (index 2), the developer needs to use Error.errorMessage.payload.failures['2'] expression. Reference: <https://docs.mulesoft.com/mule-runtime/4.3/scatter-gather-reference#scatter-gather-output>

NEW QUESTION # 27

When a client and server are exchanging messages during the mTLS handshake, what is being agreed on during the cipher suite exchange?

- A. The TLS version
- B. A protocol
- C. The Public key format
- **D. An encryption algorithm**

Answer: D

Explanation:

A cipher suite is a set of cryptographic algorithms that are used to secure the communication between a client and a server. A cipher suite consists of four components: a key exchange algorithm, an authentication algorithm, an encryption algorithm, and a message authentication code (MAC) algorithm. During the cipher suite exchange, the client and the server agree on which encryption algorithm to use for encrypting and decrypting the data. Reference: <https://docs.mulesoft.com/mule-runtime/4.3/tls-configuration#cipher-suites>

NEW QUESTION # 28

.....

We provide all candidates with Mule-Dev-301 test torrent that is compiled by experts who have good knowledge of exam, and they are very experience in compile Mule-Dev-301 study materials. Once we have latest version, we will send it to your mailbox as soon as possible. our Mule-Dev-301 exam questions just need students to spend 20 to 30 hours practicing can let them have the confidence to pass the Mule-Dev-301 Exam, so little time great convenience for some workers. It must be your best tool to pass your Mule-Dev-301 exam and achieve your target.

Exam Mule-Dev-301 Passing Score: <https://www.suretorrent.com/Mule-Dev-301-exam-guide-torrent.html>

Our SureTorrent Exam Mule-Dev-301 Passing Score is the leading position in this line and offer high-quality software test engine which can help you go through your examination, Salesforce Mule-Dev-301 Reliable Cram Materials We have so many customers covering many countries around the world, Our professional experts always keep the updating of Mule-Dev-301 latest study guide to keep the high quality of questions and answers, Salesforce Mule-Dev-301 Reliable Cram Materials And this is the most important.

Technology professionals who are serious about seeing their Mule-Dev-301 career elevate beyond the level of bits and bytes will go above and beyond what their peers choose not to do.

It is very convenient for you to do your Salesforce Certified MuleSoft Developer II pdf vce by your spare time, Test Mule-Dev-301 Free Our SureTorrent is the leading position in this line and offer high-quality software test engine which can help you go through your examination.

2026 Mule-Dev-301 Reliable Cram Materials: Salesforce Certified MuleSoft Developer II – Realistic Exam Mule-Dev-301 Passing Score

We have so many customers covering many countries around the world, Our professional experts always keep the updating of Mule-Dev-301 Latest Study Guide to keep the high quality of questions and answers.

And this is the most important, The stylish and user-friendly Exam Mule-Dev-301 Passing Score interface works with all browsers, including Mozilla Firefox, Google Chrome, Opera, Safari, and Internet Explorer.
