

# Most Effective Way to Get ATlassian ACP-620 Certification

2026 Latest DumpsFree ACP-620 PDF Dumps and ACP-620 Exam Engine Free Share: [https://drive.google.com/open?id=1BFtJ-\\_0NaTce5QE3NkxDZdyC2NX0J2bQ](https://drive.google.com/open?id=1BFtJ-_0NaTce5QE3NkxDZdyC2NX0J2bQ)

For ATlassian ACP-620 exam applicants who don't always have access to the internet, desktop-based practice exam software is appropriate. This ATlassian ACP-620 practice test software is compatible with Windows computers. Much like the web-based practice exam, our desktop practice test simulates the actual test. This Managing Jira Cloud Projects (ACP-620) exam simulation software has the same features as our web-based practice exam, including most probable real exam questions, customizable practice test sessions, and quick result on how you did. To eliminate mistakes and exam anxiety, we advise using this ATlassian ACP-620 practice test software.

The Managing Jira Cloud Projects certification is suitable for individuals who work in software development, IT, project management, or any other field where project management is a critical aspect of their work. Candidates who pass the ATlassian ACP-620 Exam can demonstrate to their employers and peers that they have the knowledge and skills necessary to manage Jira Cloud projects effectively. Managing Jira Cloud Projects certification can help professionals advance their careers and improve their job prospects in the highly competitive IT job market.

ATlassian ACP-620 Managing Jira Cloud Projects exam is a certification program designed for project managers, team leads, and other professionals who are interested in managing Jira cloud projects. ACP-620 exam is specifically designed to test your knowledge and skills in managing Jira cloud projects and ensuring successful project delivery.

## 100% ACP-620 Exam Coverage, ACP-620 Reliable Test Testking

These ACP-620 exam question formats contain real, valid, and updated ATlassian ACP-620 exam questions that will assist you in ATlassian Managing Jira Cloud Projects exam preparation and enable you to pass the challenging ATlassian ACP-620 Exam with good scores. The ATlassian ACP-620 questions are prepared by highly experienced professionals and, thus, are kept to the point and concise.

ATlassian ACP-620 Managing Jira Cloud Projects exam is an essential certification program for project managers and other professionals who want to excel in managing Jira cloud projects. If you're looking to enhance your skills and expertise in Jira cloud project management, ACP-620 Exam is an excellent starting point that will help you achieve your career goals.

## ATlassian Managing Jira Cloud Projects Sample Questions (Q40-Q45):

### NEW QUESTION # 40

A team needs a board that meets these requirements:

# All issues can be moved across the entire workflow on a single view of the board.

# Issues can be worked in a continuous flow without start and stop dates.

Which board configuration meets the requirements?

- A. Scrum board with swimlanes
- B. Scrum board without parallel sprints
- C. Kanban board without backlog
- D. Kanban board with backlog

**Answer: C**

Explanation:

A Kanban board without backlog displays all issues on a single view and supports a continuous workflow without start and stop dates. This setup is ideal for teams using a continuous delivery process, allowing issues to move freely across the entire workflow.

#### NEW QUESTION # 41

According to the components below, who will be the assignee if a user created a ticket with Java and Database components?

Project lead: Razi

Project default assignee: Unassigned

□

- A. Nick
- B. Razi
- C. Nina
- D. Dom
- E. Unassigned

**Answer: C**

#### NEW QUESTION # 42

Which of the following statements is true?

- A. All answers are incorrect.
- B. Project administrators can create new roles and assign the role's team members.
- C. A project can have more than one project lead.
- D. Users can select either project lead or component lead to be the project's default assignee.
- E. A board can have more than one board administrator.

**Answer: E**

#### NEW QUESTION # 43

You shared a URL to the dashboard with Bobby but when he looks at it, the gadgets return errors that state, "The filter configured for this gadget could not be retrieved."

What is the most likely problem with the filters?

- A. They return issues with hidden fields.
- B. They contain corrupt JQL clauses.
- C. They return issues from team-managed projects.
- D. They are not shared with Bobby.

**Answer: D**

Explanation:

The error "The filter configured for this gadget could not be retrieved" typically means that the filters used in the dashboard gadgets are not shared with Bobby. Even if Bobby has access to the projects or issues, he cannot see the results unless the filters themselves are explicitly shared with him.

#### NEW QUESTION # 44

An automation rule used to run successfully in your project but now it returns some errors. You inspect the rule as shown.

□

Identify a possible cause of the errors.

- A. Atalie lost Assignable User permission.
- B. The rule was disabled.
- C. Atalie lost Assign Issues permissions.
- D. Default Assignee of the project was changed.
- E. Component leads assignments were added.

**Answer: C**

Explanation:

The rule is triggered when an issue is created, and likely includes an action to assign the issue. If the rule previously worked but now fails with errors, and the rule is still enabled, a common cause is that the user executing the rule (Atalie) lost the Assign Issues permission, preventing the assignment action from succeeding.
