ISACA CGEIT考古題 - CGEIT熱門考古題

有些網站在互聯網上為你提供高品質和最新的ISACA的CGEIT考試學習資料，但他們沒有任何相關的可靠保證，在這裏我要說明的是這KaoGuTi一個有核心價值的問題，所有ISACA的CGEIT考試都是非常重要的，但在個資訊化快速發展的時代，KaoGuTi只是其中一個，為什麼大多數人選擇KaoGuTi，是因為KaoGuTi所提供的考題資料一定能幫助你通過測試，為什麼呢，因為它提供的資料都是最新的，這也是大多數考生通過實踐證明了的。

最新的 Isaca Certificaton CGEIT 免費考試真題 (Q157-Q162):

問題 #157

Due to continually missed service level agreements (SLAs), an enterprise plans to terminate its contract with a vendor providing IT help desk services. The enterprise's IT department will assume the help desk-related responsibilities. Which of the following would BEST facilitate this transition?

- A. Requiring the enterprise architecture (EA) be updated
- **B. Ensuring a change management plan is in place**
- C. Validating that the balanced scorecard is still meaningful
- D. Ensuring IT will operate at a lower cost than the vendor

答案： B

解題說明：

Ensuring a change management plan is in place is the best way to facilitate the transition from a vendor providing IT help desk services to the enterprise's IT department, as it helps to define and implement the steps, activities, and resources needed to achieve the change objectives. A change management plan also helps to manage the risks, issues, and impacts of the change, and to communicate and coordinate with the stakeholders and staff involved in the change. = CGEIT Exam Content Outline, Domain 1, Subtopic C:

Technology Governance, Task 3: Ensure that IT processes are compliant with relevant laws, regulations and contractual requirements.

問題 #158

The CIO of a large enterprise has taken the necessary steps to align IT objectives with business objectives. What is the BEST way for the CIO to ensure these objectives are delivered effectively by IT staff?

- A. Include CIO sign-off of the objectives as part of the IT strategic plan.
- B. Enhance the budget for training based on the IT objectives.
- **C. Include the IT objectives in staff performance plans.**
- D. Map the IT objectives to an industry-accepted framework.

答案： C

解題說明：

The best way for the CIO to ensure that the IT objectives are delivered effectively by IT staff is to include the IT objectives in staff performance plans. Staff performance plans are documents that define the expectations, responsibilities, and goals for individual employees, as well as the criteria and methods for evaluating their performance¹. By including the IT objectives in staff performance plans, the CIO can align the IT staff's work with the business objectives, communicate the desired outcomes and behaviors, motivate and empower the IT staff, monitor and measure their progress and achievements, and provide feedback and recognition¹. This will help to create a culture of accountability, excellence, and continuous improvement among the IT staff, and ensure that they contribute to the value creation and delivery of IT². 問題 #159

Risk management strategies are PRIMARILY adopted to:

- A. avoid risks for business and IT assets.
- B. achieve compliance with legal requirements.
- C. take necessary precautions for claims and losses.
- **D. achieve acceptable residual risk levels.**

答案： D

解題說明：

Risk management strategies are primarily adopted to achieve acceptable residual risk levels, which are the levels of risk that remain after applying risk response measures. Risk management strategies are the approaches or methods that an organization uses to identify, assess, and treat its IT-related risks. Risk management strategies can vary depending on the organization's risk appetite, tolerance, and capacity, as well as the nature and impact of the risks. Some common risk management strategies are: avoid, reduce, transfer, share, or accept. The other options are not as primary, as they are more related to the outcomes or objectives of risk management strategies, rather than the purpose or intention of them. 問題 #160

While assessing the feasibility of introducing new IT practices and standards into the IT governance framework, it is CRITICAL to understand an organization's:

- A. maturity of IT processes.
- B. enterprise architecture (EA).
- **C. culture.**
- D. level of outsourcing.

答案： C

解題說明：

Culture is the most critical factor to understand while assessing the feasibility of introducing new IT practices and standards into the IT governance framework, because it influences the behavior, values, and beliefs of the organization and its stakeholders. Culture

affects how IT governance is perceived, implemented, and evaluated in the organization. A mismatch between the organizational culture and the IT governance framework can lead to resistance, conflict, and poor performance. Therefore, it is essential to assess the current culture of the organization and its readiness for change before introducing new IT practices and standards. Reference=

問題 #161

An enterprise is implementing a new IT governance program. Which of the following is the BEST way to increase the likelihood of its success?

- A. The IT steering committee approves the implementation efforts.
- B. The CIO issues a mandate for adherence to the program.
- C. The CIO communicates why IT governance is important to the enterprise.
- D. Implementation follows an IT audit recommendation.

答案： A

問題 #162
