We have three different versions for you to choose: PDF, Soft and APP versions. The second step: fill in with your email and make sure it is correct, because we send our C_S4CPB_2508 learn tool to you through the email. Later, if there is an update, our system will automatically send you the latest C_S4CPB_2508 version.

SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition Sample Questions (Q29-Q34):

NEW QUESTION # 29

Through which component do you access your assigned process tasks from the SAP Activate Roadmap of SAP S/4HANA Cloud Public Edition (3-system landscape)?

- A. SAP Cloud ALM for Implementation
- B. SAP Cloud ALM for Service
- C. SAP Cloud ALM for Operations
- D. SAP Central Business Configuration

Answer: A

Explanation:

SAP Cloud ALM for Implementation is the component that provides access to the SAP Activate Roadmap of SAP S/4HANA Cloud Public Edition (3-system landscape). The SAP Activate Roadmap is a tool that guides the implementation project team through the phases, deliverables, tasks, and accelerators related to the SAP Activate methodology. The SAP Activate Roadmap is updated frequently to reflect the latest scope, processes, and best practices for SAP S/4HANA Cloud Public Edition. The SAP Cloud ALM for Implementation component also enables the project team to monitor the progress, status, and quality of the implementation project. References = SAP S/4HANA Cloud, Public Edition, 3-System Landscape - Upgrade & Maintenance Schedule, SAP Activate Content Updates for SAP S/4HANA Cloud, public edition (3-system landscape), News from SAP Activate - SAP S/4HANA Cloud, public edition 2308, SAP Activate Release Notes for SAP S/4HANA Cloud Public Edition

NEW QUESTION # 30

An SAP Fiori app isn't displaying on the SAP Fiori Launchpad even though the business role granting permission to the app is correctly assigned to the user.

How would you troubleshoot? Note: There are 3 correct answers to this question

- A. Check the space and page(s) assigned to the role.
- B. Check the Role Maintenance app.
- C. Check the restrictions for the role.
- D. Check the business catalogues assigned to the role.
- E. Check the business role template.

Answer: A,C,D

Explanation:

When an SAP Fiori app isn't displaying on the SAP Fiori Launchpad despite the user having the correct business role, several aspects need to be checked to troubleshoot the issue effectively:

* Check the restrictions for the role: It's essential to verify if there are any restrictions applied to the role that might prevent the app from being displayed. Restrictions can be based on various factors such as geographic location, department, or specific user attributes.

* Check the business catalogues assigned to the role: Business catalogues in SAP Fiori contain groups of apps related to specific business functions. If the necessary business catalogue is not assigned to the role, the app will not appear on the SAP Fiori Launchpad. Ensuring the correct assignment of catalogues is crucial for app visibility.

* Check the space and page(s) assigned to the role: With the introduction of spaces and pages in the SAP Fiori Launchpad, it's vital to ensure that the relevant space and page that should display the app are correctly assigned to the user's role. Spaces are higher-level groupings, while pages within those spaces contain the actual apps.

NEW QUESTION # 31

What are some characteristics of the SAP S/4HANA Migration Cockpit? Note: There are 2 correct answers to this question.

- A. Guidance and simulation of the migration process
- B. Mapping source values to SAP S/4HANA target values
- C. Combining the local and remote schema approaches into one migration project
- D. Extensibility using the Legacy System Migration Workbench

Answer: A,B

Explanation:

The SAP S/4HANA Migration Cockpit is a tool that facilitates the transfer of business data from a source system to SAP S/4HANA. It uses migration objects to identify and transfer the relevant data for a specific business object. The SAP S/4HANA Migration Cockpit has the following characteristics1:

* It allows mapping source values to SAP S/4HANA target values, as well as converting values that are migrated from source fields to target fields. This ensures data consistency and quality in the target system.

* It provides guidance and simulation of the migration process, as well as error handling and monitoring.

This helps to reduce the complexity and risk of data migration, and to ensure a smooth and successful data transfer.

* It does not support extensibility using the Legacy System Migration Workbench (LSMW), which is a tool for data migration from legacy systems to SAP systems. The SAP S/4HANA Migration Cockpit has its own extensibility framework, the SAP S/4HANA Migration Object Modeler, which allows creating and enhancing migration objects2.

* It does not combine the local and remote schema approaches into one migration project. The SAP S/4HANA Migration Cockpit offers three options for transferring data to SAP S/4HANA: using files, using staging tables, or using direct transfer from an SAP system1. Each option requires a separate migration project and has its own advantages and limitations3.

References = 1: SAP S/4HANA Migration Cockpit | SAP Help Portal 2: [SAP S/4HANA Migration Object Modeler | SAP Help Portal] 3: [Options for Transferring Data | SAP Help Portal]

NEW QUESTION # 32

In which deployment models is application management the responsibility of the customer? Note: There are 3 correct answers to this question.

- A. On premise
- B. Private Cloud
- C. Platform as a Service
- D. Infrastructure as a Service
- E. Software as a Service

Answer: A,B,D

NEW QUESTION # 33

How does an implementation consultant support customer experts during Fit-to-Standard workshops? Note: There are 2 correct answers to this question.

- A. Determine set up instructions for customer-driven integrations.
- B. Highlight areas that require configuration or customization decisions.
- C. Demonstrate SAP Best Practice business processes in the starter system.
- D. Conduct end-user training on active scope items.

Answer: B,C

NEW QUESTION # 34
