Oracle CPQ 2025 Implementation Professional Sample Questions (Q34-Q39):

NEW QUESTION # 34

Your customer wants to bulk download information about Parts, Serial Numbers, and Data Tables and save it to their workstation. What is the correct procedure to accomplish this task?

- A. Click Download on the Admin home page, click the Parts radio button, click the Next button, choose Download Format, choose any Search criteria, and click the Download button. This process should then be repeated for both Serial Numbers and Data Tables.
- B. Click Download on the Admin home page, select the Parts, Serial Numbers, and Data Tables options, click the Next button, choose Download Format, choose any Search criteria, and click the Download button. After the download is complete, your customer can click the File link on the Download Status page to save the downloaded data to their workstation.
- C. Click Download on the Admin home page, click the Parts radio button, and click the Download button. After the download is complete, your customer can click the Part link on the Download Status page to save the downloaded data to their workstation. This process should then be repeated for both Serial Numbers and Data Tables.
- D. Click Download on the Admin home page, click the Parts radio button, click the Next button, choose Download Format, choose any Search criteria, and click the Download button. After the download is complete, your customer can click the Part link on the Download Status page to save the downloaded data to their workstation. This process should then be repeated for both Serial Numbers and Data Tables.

Answer: B

NEW QUESTION # 35

Your sales users want to print a proposal document from a transaction in their preferred languages.

What are the Oracle-recommended steps necessary to address this use case using Document Designer where the template structure differs for each language?

- A. Create a multi-language template, provide translations for each language, and link this template to the Print action by using the printer-friendly XSL view.
- B. Create language-specific templates with different names, provide translations for each of these templates, and link these templates to a single print action, each by using printer-friendly XSL views.
- C. Create language-specific templates with different names, provide translations and designs for each of these templates, and link these templates to a single print action by using a printer-friendly XSL view.
- D. Create language-specific templates with the same name, provide translations and designs for each of these templates, and link these templates to a print action by using the printer-friendly XSL view.

Answer: C

NEW QUESTION # 36

Your customer wants to create a user that has complete access to the site and has the ability to add and edit new users.

Which procedure should you follow to accomplish this?
