

Valid Oracle 1z0-1104-25 Exam Cost | 1z0-1104-25 Valid Test Sims

BONUS!!! Download part of VCE4Dumps 1z0-1104-25 dumps for free: <https://drive.google.com/open?id=1OWWeomO31RCk8sFeT0HtxQtIEfTPm5IE>

For this task, you need to update Oracle 1z0-1104-25 preparation material to get success. If applicants fail to find reliable material, they fail the Oracle 1z0-1104-25 examination. Failure leads to loss of money and time. You just need to rely on VCE4Dumps to avoid these losses. VCE4Dumps has launched three formats of real Oracle 1z0-1104-25 Exam Dumps.

Oracle 1z0-1104-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Implementing OS and Workload Protection: This section of the exam measures the skills of OCI Administrators and looks at securing workloads and operating systems. It includes the use of OCI Bastion for time-limited access, vulnerability scanning of hosts and containers, and the use of OS management for automated updates. The goal is to ensure that workloads remain resilient and well-protected.
Topic 2	<ul style="list-style-type: none">Protecting Infrastructure - Network and Applications: This section of the exam measures the skills of Cloud Security Professionals and covers methods for securing networks and applications on OCI. Topics include network security groups, firewalls, and security lists, while also focusing on the use of load balancers for availability. The section further addresses the configuration of OCI certificates and web application firewalls to strengthen infrastructure security.
Topic 3	<ul style="list-style-type: none">Protecting Data: This section of the exam measures the skills of Cloud Security Professionals and highlights data security practices in OCI. It tests knowledge of using the Key Management Service for encryption keys, managing secrets in the OCI Vault, and applying features of OCI Data Safe to ensure sensitive data remains protected.

Topic 4	<ul style="list-style-type: none"> OCI Security Introduction: This section of the exam measures the skills of Cloud Security Professionals and covers the basics of security in Oracle Cloud Infrastructure. It introduces the shared security responsibility model, the core principles of security design, and the use of foundational security services to secure deployments on OCI.

1z0-1104-25 Valid Test Sims & Latest 1z0-1104-25 Braindumps Sheet

Our PDF version of 1z0-1104-25 training materials is legible to read and remember, and support printing request. Software version of 1z0-1104-25 practice materials supports simulation test system, and give times of setup has no restriction. Remember this version support Windows system users only. App online version of 1z0-1104-25 Exam Questions is suitable to all kinds of equipment or digital devices and supportive to offline exercise on the condition that you practice it without mobile data.

Oracle Cloud Infrastructure 2025 Security Professional Sample Questions (Q33-Q38):

NEW QUESTION # 33

Based on the provided diagram, you have a group of critical compute instances in a private subnet that require vulnerability using the Oracle Cloud Infrastructure(OCI) Vulnerability Scanning Service (VSS).

"What additional configuration is required to enable VSS to scan instances in the private subnet

- A. Configure a service gateway in the VCN and a route rule to direct traffic for the VSS service through the gateway.
- B. Use an OCI Bastion session to establish connectivity and forward scan results from the private instances."
- C. VSS cannot scan private instances. You need to move them to a public subnet for vulnerability scanning.
- D. No additional configuration is needed. VSS can access private instances by default.

Answer: A

NEW QUESTION # 34

Task 7: Verify the OCI Certificate with Load Balancer

Verify HTTPS connection to the load balancer by running the following command in Cloud Shell `curl -k https://<Public IP of PBT-CERT-LB-01>` Enter the following URL in the web browser:

`https://<Public IP of PBT-CERT-LB-01>`

If prompted with a certificate error, accept the risk and continue.

Verify web page content by ensuring the text, "You are visiting Web Server 1" from the index.html file is displayed in the browser
See the solution below in Explanation.

Answer:

Explanation:

Task 7: Verify the OCI Certificate with Load Balancer

Step 1: Obtain the Public IP of the Load Balancer

- * Log in to the OCI Console.
- * Navigate to **Networking > Load Balancers**.
- * Click on **PBT-CERT-LB-01**.
- * Note the **Public IP Address** from the load balancer details page.

Step 2: Verify HTTPS Connection Using Cloud Shell

- * Open the OCI Cloud Shell from the top-right corner of the OCI Console.
- * Run the following command, replacing `<Public IP of PBT-CERT-LB-01>` with the public IP you noted:
`curl -k https://<Public IP of PBT-CERT-LB-01>`

* Expected output: You should see the text "You are visiting Web Server 1" if the connection is successful. The `-k` flag ignores certificate validation errors (common during initial testing with self-signed or newly issued certificates).

* If you encounter an error, ensure the load balancer is active, the listener is configured correctly, and the backend server (PBT-CERT-VM-01) is reachable.

Step 3: Verify in a Web Browser

- * Open a web browser.
- * Enter the following URL, replacing `<Public IP of PBT-CERT-LB-01>` with the public IP you noted:
`https://<Public IP of PBT-CERT-LB-01>`
- * If prompted with a certificate warning (e.g., due to a self-signed certificate or untrusted CA), accept the risk and proceed (click "Advanced" and "Proceed" or similar, depending on your browser).
- * Verify that the web page displays the text "You are visiting Web Server 1" from the index.html file created on PBT-CERT-VM-01.

Step 4: Troubleshoot (if needed)

- * If the text is not displayed:
- * Check the load balancer health status under **Backend Sets > Health** in the OCI Console.
- * Ensure the security list **PBT-CERT-LB-SL-01** allows port 443 and the compute instance security list allows port 80.
- * Verify the Apache service is running on PBT-CERT-VM-01 by SSHing in and running `sudo systemctl status httpd`.

NEW QUESTION # 35

You are the first responder of a security incident for ABC Org. You have identified several IP addresses and URLs in the logs that you suspect may be related to the incident. However, you need more information to confidently determine whether they are indeed malicious or not.

Which OCI service can you use to obtain a more refined information and confidence score for these identified indicators?

- A. OCI Security Zones
- B. OCI Incidence Responder
- C. OCI Web Application Firewall
- D. OCI Threat Intelligence

Answer: D

NEW QUESTION # 36

Which are the essential components to create a rule for the Oracle Cloud Infrastructure (OCI) Events Service?

- A. Install Key and Actions
- B. Install Key and Service Connector
- C. Rule Conditions and Management Agent Cloud Service
- **D. Rule Conditions and Actions**

Answer: D

NEW QUESTION # 37

You're managing an Oracle Cloud Infrastructure (OCI) environment where a public website hosts downloadable assets stored in Object Storage buckets. These buckets need to be publicly accessible for website visitors, but Cloud Guard keeps flagging them as security risks.

How can Cloud Guard be configured to ignore problems specific to public buckets while still ensuring security checks are applied to other resources that require them?

- A. Dismiss problems associated with those resources.
- **B. Fix the baseline by configuring the Conditional groups for the detector.**
- C. A public bucket is a security risk, so Cloud Guard will keep detecting it.
- D. Resolve or remediate the problems by making the buckets private.

Answer: B

NEW QUESTION # 38

.....

For added reassurance, we also provide you with up to 1 year of free Oracle Dumps updates and a free demo version of the actual product so that you can verify its validity before purchasing. The key to passing the Oracle 1z0-1104-25 exam on the first try is vigorous 1z0-1104-25 practice. And that's exactly what you'll get when you prepare from our Oracle Cloud Infrastructure 2025 Security Professional (1z0-1104-25) practice material. Each format of our 1z0-1104-25 study material excels in its own way and serves to improve your skills and gives you an inside-out understanding of each exam topic.
