

Test NIS-2-Directive-Lead-Implementer Guide - Examcollection NIS-2-Directive-Lead-Implementer Vce

What's more, part of that Pass4sures NIS-2-Directive-Lead-Implementer dumps now are free: <https://drive.google.com/open?id=1G8ZgU3GuMpjScTnBs8PkukriKODSxmYd>

As our PECB Certified NIS 2 Directive Lead Implementer study questions can bring more professional quality service for the user. Our NIS-2-Directive-Lead-Implementer study materials can give the user confidence and strongly rely on feeling, lets the user in the reference appendix not alone on the road, because we are to accompany the examinee on NIS-2-Directive-Lead-Implementer Exam, candidates need to not only learning content of teaching, but also share his arduous difficult helper, so believe us, we are so professional company. Now, you can free download the demo of our NIS-2-Directive-Lead-Implementer test guide to understand in more details.

The software version is one of the three versions of our NIS-2-Directive-Lead-Implementer exam prep. The software version has many functions which are different with other versions'. On the one hand, the software version of NIS-2-Directive-Lead-Implementer test questions can simulate the real examination for all users. By actually simulating the test environment, you will have the opportunity to learn and correct self-shortcoming in study course. On the other hand, although you can just apply the software version of NIS-2-Directive-Lead-Implementer training guide in the windows operation system.

Examcollection PECB NIS-2-Directive-Lead-Implementer Vce, Exam NIS-2-Directive-Lead-Implementer Topics

NIS-2-Directive-Lead-Implementer practice questions and pass it with confidence. As far as the top features of NIS-2-Directive-Lead-Implementer exam dumps are concerned, these PECB NIS-2-Directive-Lead-Implementer latest questions are real and verified by PECB NIS-2-Directive-Lead-Implementer certification exam experts. With the PECB NIS-2-Directive-Lead-Implementer Practice Test questions you will get everything that you need to learn, prepare and get success in the final PECB Certified NIS 2 Directive Lead Implementer certification exam.

PECB Certified NIS 2 Directive Lead Implementer Sample Questions (Q75-Q80):

NEW QUESTION # 75

Which reporting method is best suited for presenting raw data in an easy-to-read format, including features like nested grouping, rolling summaries, and dynamic drill-through or linking?

- A. Tactical and operational dashboards
- **B. Reports**
- C. Scorecards or strategic dashboards

Answer: B

NEW QUESTION # 76

Which of the following disaster recovery phases places significant emphasis on training employees to effectively respond and recover from a disaster?

- **A. Preparedness**
- B. Mitigation
- C. Response

Answer: A

NEW QUESTION # 77

Which of the following entities are included on the scope of the NIS 2 Directive?

- A. Diplomatic and consular missions of Member States in third countries
- B. Public administration entities whose activities are predominantly carried out in national security
- **C. Entities engaged in nuclear power plant electricity production**

Answer: C

NEW QUESTION # 78

Scenario 8: FoodSafe Corporation is a well-known food manufacturing company in Vienna, Austria, which specializes in producing diverse products, from savory snacks to artisanal desserts. As the company operates in regulatory environment subject to this NIS 2 Directive, FoodSafe Corporation has employed a variety of techniques for cybersecurity testing to safeguard the integrity and security of its food production processes.

To conduct an effective vulnerability assessment process, FoodSafe Corporation utilizes a vulnerability assessment tool to discover vulnerabilities on network hosts such as servers and workstations. Additionally, FoodSafe Corporation has made a deliberate effort to define clear testing objectives and obtain top management approval during the discovery phase. This structured approach ensures that vulnerability assessments are conducted with clear objectives and that the management team is actively engaged and supports the assessment process, reinforcing the company's commitment to cybersecurity excellence.

In alignment with the NIS 2 Directive, FoodSafe Corporation has incorporated audits into its core activities, starting with an internal assessment followed by an additional audit conducted by its partners. To ensure the effectiveness of these audits, the company

meticulously identified operational sectors, procedures, and policies. However, FoodSafe Corporation did not utilize an organized audit timetable as part of its internal compliance audit process. While FoodSafe's Corporation organizational chart does not clearly indicate the audit team's position, the internal audit process is well-structured. Auditors familiarize themselves with established policies and procedures to gain a comprehensive understanding of their workflow. They engage in discussions with employees further to enhance their insights, ensuring no critical details are overlooked.

Subsequently, FoodSafe Corporation's auditors generate a comprehensive report of findings, serving as the foundation for necessary changes and improvements within the company. Auditors also follow up on action plans in response to nonconformities and improvement opportunities.

The company recently expanded its offerings by adding new products and services, which had an impact on its cybersecurity program. This required the cybersecurity team to adapt and ensure that these additions were integrated securely into their existing framework. FoodSafe Corporation commitment to enhancing its monitoring and measurement processes to ensure product quality and operational efficiency. In doing so, the company carefully considers its target audience and selects suitable methods for reporting monitoring and measurement results. This includes incorporating additional graphical elements and labeling of endpoints in their reports to provide a clearer and more intuitive representation of data, ultimately facilitating better decision-making within the organization.

Based on scenario 8, what method did FoodSafe Corporation employ to communicate the monitoring and measurement results?

- A. Reports
- B. Scorecards
- C. Gages

Answer: A

NEW QUESTION # 79

Scenario 3: Founded in 2001, SafePost is a prominent postal and courier company headquartered in Brussels, Belgium. Over the years, it has become a key player in the logistics and courier in the region. With more than 500 employees, the company prides itself on its efficient and reliable services, catering to individual and corporate clients. SafePost has recognized the importance of cybersecurity in an increasingly digital world and has taken significant steps to align its operations with regulatory directives, such as the NIS 2 Directive.

SafePost recognized the importance of thoroughly analyzing market forces and opportunities to inform its cybersecurity strategy. Hence, it selected an approach that enabled the analysis of market forces and opportunities in the four following areas: political, economic, social, and technological. The results of the analysis helped SafePost in anticipating emerging threats and aligning its security measures with the evolving landscape of the postal and courier industry.

To comply with the NIS 2 Directive requirements, SafePost has implemented comprehensive cybersecurity measures and procedures, which have been documented and communicated in training sessions. However, these procedures are used only on individual initiatives and have still not been implemented throughout the company. Furthermore, SafePost's risk management team has developed and approved several cybersecurity risk management measures to help the company minimize potential risks, protect customer data, and ensure business continuity.

Additionally, SafePost has developed a cybersecurity policy that contains guidelines and procedures for safeguarding digital assets, protecting sensitive data, and defining the roles and responsibilities of employees in maintaining security. This policy will help the company by providing a structured framework for identifying and mitigating cybersecurity risks, ensuring compliance with regulations, and fostering a culture of security awareness among employees, ultimately enhancing overall cybersecurity posture and reducing the likelihood of cyber incidents.

As SafePost continues to navigate the dynamic market forces and opportunities, it remains committed to upholding the highest standards of cybersecurity to safeguard the interests of its customers and maintain its position as a trusted leader in the postal and courier industry.

SafePost's risk management team has developed and approved several cybersecurity risk management measures intended to help the company in minimizing potential risks, protecting customer data, and ensuring business continuity. Is this in compliance with Article 20 of the NIS 2 Directive?

Refer to scenario 3.

- A. Yes, the risk management team is responsible for developing and approving cybersecurity risk management measures
- B. No, the company's management body is responsible for approving cybersecurity risk management measures
- C. No, the IT Department is solely responsible for developing and approving cybersecurity risk management measures

Answer: B

NEW QUESTION # 80

.....
