

New JN0-253 Exam Format | Exam JN0-253 Quick Prep

P.S. Free & New JN0-253 dumps are available on Google Drive shared by Actual4Cert: <https://drive.google.com/open?id=1V3tLNBs30Irv79TduJa1ubbhZUUILT9>

Candidates who participate in the Juniper practice exam should first choose our latest braindumps pdf. It will help you pass test with 100% guaranteed. Besides, our JN0-253 exam prep can help you fit the atmosphere of actual test in advance, which enable you to improve your ability with minimum time spent on JN0-253 Dumps PDF and maximum knowledge gained.

Juniper JN0-253 Exam Syllabus Topics:

Topic	Details
Topic 1	Juniper Mist Network Operations and Management: This domain examines operational features across Wi-Fi, Wired, WAN, Routing, and Access Assurance, delivering specialized management capabilities for different network infrastructure layers.
Topic 2	Juniper Mist Cloud Operations: This domain covers three API types (RESTful, WebSocket, Webhook) for programmatic integration, plus support resources including ticketing systems and documentation.
Topic 3	Marvis Virtual Network Assistant AI: This domain introduces Marvis, an AI-powered assistant providing automated troubleshooting through intelligent actions, natural language queries, and specialized analytical tools for proactive issue resolution.
Topic 4	Juniper Mist Monitoring and Analytics: This domain focuses on monitoring tools including service-level expectations, packet captures, AI-driven insights, automated alerts, and audit logs for comprehensive network visibility.
Topic 5	Juniper Mist Configuration Basics: This domain addresses initial setup including user accounts, device onboarding, organizational structures, subscription licensing, certificate management, and automated provisioning with labels and policies.
Topic 6	Location-based Services: This domain presents virtual Bluetooth Low Energy capabilities for asset tracking, visibility, and location-aware experiences that extend networking into physical space management.

Exam JN0-253 Quick Prep, Valid JN0-253 Exam Labs

We have professional technicians to examine the website at times, so that we can offer you a clean and safe shopping environment for you if you choose the JN0-253 study materials of us. Besides, JN0-253 exam dumps contain both questions and answers, and you can have a quickly check after practicing, and so that you can have a better understanding of your training mastery. We have free update for one year, so that you can know the latest information about the JN0-253 Study Materials, and you can change your learning strategies in accordance with the new changes.

Juniper Mist AI, Associate (JNCIA-MistAI) Sample Questions (Q31-Q36):

NEW QUESTION # 31

Which statement is true about unsupervised AI learning?

- A. A human must label the dataset before the AI can be trained on it.
- **B. It is used to analyze and classify unlabeled datasets.**
- C. It is used to analyze and classify labeled datasets.
- D. A human labels the dataset after the AI trains on it.

Answer: B

NEW QUESTION # 32

You want to determine where you have coverage issues in your network using Marvis Actions. Which Marvis Action category should you use in this situation?

- A. Connectivity
- B. Application
- **C. AP**
- D. Clients

Answer: C

NEW QUESTION # 33

Where do reminders about subscription expiration appear in the Juniper Mist portal?

- A. In the device's insights section
- B. In Marvis Actions
- **C. In a banner message at the top of the Juniper Mist portal**
- D. In the dashboard alerts

Answer: C

Explanation:

Juniper Mist Cloud provides visual and automated notifications to alert administrators about subscription status and expiration for services such as Wireless Assurance, Wired Assurance, WAN Assurance, Premium Analytics, and Marvis AI.

According to the Juniper Mist Cloud Administration and Licensing Guide, the system:

"Displays subscription and license expiration warnings in a banner across the top of the Mist portal interface when licenses are within their renewal window." This banner typically appears in yellow or red, depending on urgency, and includes direct links to the Subscriptions page for renewal actions.

While subscription status information can also be viewed manually under Organization # Subscriptions, the real-time reminders and notifications appear as banner messages at the top of the Mist Portal.

Options B, C, and D are incorrect because:

- * Dashboard alerts focus on network events, not licensing.
- * Marvis Actions highlights operational or performance issues.
- * Device insights report performance metrics, not subscription data.

Therefore, the correct answer is A. In a banner message at the top of the Juniper Mist portal.

NEW QUESTION # 34

Which statement describes Juniper Mist Insights in the dashboard?

- A. It provides a high-level view of the network events that occurred over the last year.
- B. It provides AI-driven actions that are the most urgent and require priority attention.
- **C. It provides a high-level view of the network experience across an entire site or device types.**
- D. It provides a high-level view of the network events that occurred over the last month.

Answer: C

Explanation:

Juniper Mist Insights in the dashboard provides a high-level view of the network experience across an entire site or device types. According to the official Juniper Mist documentation: "The Mist Insights page provides a quick overview into your clients' network experience for anywhere in the stack, be it Wireless, Wired, or WAN networks. Insights gives an overview of network experience across the entire site, access points, or client devices." This feature enables administrators to analyze overall connection status, traffic patterns, latency, and trends at multiple context levels—for the whole site, for specific devices, or for client segments. This holistic overview helps identify patterns and assess the health of network operations, empowering proactive management and troubleshooting. Review periods can range from minutes to days, depending on the dashboard section and the organization's licensing.

NEW QUESTION # 35

Which statement is correct about the relationship between Juniper Mist organizations and sites?

- A. One Juniper Mist site can contain multiple organizations.
- B. A Juniper Mist superuser login grants access to all organizations.
- **C. One Juniper Mist organization can contain multiple sites.**
- D. You must have one Juniper Mist superuser login for each site.

Answer: C

Explanation:

In Juniper Mist, an organization is the top-level container that manages policies, subscriptions, and users. Each organization can include multiple sites, allowing centralized management of networks across different locations.

NEW QUESTION # 36
