

## Questions (Q33-Q38):

### NEW QUESTION # 33

Which path below is available only when CoreXL is enabled?

- A. Firewall path
- B. Slow path
- C. Medium path
- D. Accelerated path

**Answer: C**

Explanation:

The path that is available only when CoreXL is enabled is the medium path. The medium path is used to handle packets that require deeper inspection by the Firewall and IPS blades, but do not need to go through the slow path. The slow path is used to handle packets that require stateful or out-of-state inspection by other blades, such as Application Control or VPN. The firewall path and the accelerated path are available regardless of CoreXL status. ### NEW QUESTION # 34

Customer's R80 management server needs to be upgraded to R80.10. What is the best upgrade method when the management server is not connected to the Internet?

- A. CPUSE online upgrade
- B. SmartUpdate upgrade
- C. CPUSE offline upgrade
- D. Export R80 configuration, clean install R80.10 and import the configuration

**Answer: C**

Explanation:

The best upgrade method when the management server is not connected to the Internet is CPUSE offline upgrade. This method allows you to download the upgrade package from another source and install it manually on the management server. The other methods require Internet connection or are not supported for R80.10. [R80.10 Upgrade Verification and FAQ], [Check Point CCSA - R81: Practice Test & Explanation]

### NEW QUESTION # 35

With URL Filtering, what portion of the traffic is sent to the Check Point Online Web Service for analysis?

- A. The complete communication is sent for inspection.
- B. The host portion of the URL.
- C. The IP address of the source machine.
- D. The end user credentials.

**Answer: B**

Explanation:

With URL Filtering, only the host portion of the URL is sent to the Check Point Online Web Service for analysis. The host portion is the part of the URL that identifies the web server, such as www.example.com. The Check Point Online Web Service uses this information to categorize the URL and return the appropriate action to the Security Gateway. The other options are not sent to the Check Point Online Web Service for analysis, as they may contain sensitive or irrelevant data.

### NEW QUESTION # 36

Which option, when applied to a rule, allows traffic to VPN gateways in specific VPN communities?

- A. Specific VPN Communities
- B. Accept all encrypted traffic

- C. All Connections (Clear or Encrypted)
- D. All Site-to-Site VPN Communities

**Answer: A**

Explanation:

The option that allows traffic to VPN gateways in specific VPN communities is Specific VPN Communities<sup>4</sup>. This option enables you to define which VPN communities are allowed in the rule. All Connections (Clear or Encrypted) allows traffic to any destination, regardless of whether it is encrypted or not. Accept all encrypted traffic allows traffic to any encrypted destination, regardless of the VPN community. All Site-to-Site VPN Communities allows traffic to any site-to-site VPN gateway, regardless of the VPN community<sup>4</sup>. Therefore, the correct answer is C. Specific VPN Communities.

### NEW QUESTION # 37

Name the authentication method that requires token authenticator.

- A. TACACS
- B. Radius
- C. DynamicID
- D. SecureID

**Answer: D**

Explanation:

SecureID is the authentication method that requires token authenticator<sup>2</sup>. SecureID is a two-factor authentication method that uses a hardware or software token to generate a one-time password. The user must enter the token code along with their username and password to authenticate. Check Point R81 Identity Awareness Administration Guide

### NEW QUESTION # 38

.....

These 156-215.82 certification exam's benefits assist the 156-215.82 exam dumps to achieve their career objectives. To do this you just need to pass the Check Point Certified Security Administrator - R82 (156-215.82) exam which is quite challenging and demands complete 156-215.82 exam questions preparation. For the quick and complete CheckPoint 156-215.82 PDF Questions preparation you can get help from ActualTestsQuiz. The ActualTestsQuiz is a leading platform that offers valid, updated, and real 156-215.82 Questions that are particularly designed for quick and complete 156-215.82 exam preparation.

**Reliable 156-215.82 Braindumps Ppt:** <https://www.actualtestsquiz.com/156-215.82-test-torrent.html>

CheckPoint Latest 156-215.82 Test Camp You will never have language barriers, and the learning process is very easy for you, The fact that CheckPoint 156-215.82 questions are available in three different formats enables users to prepare according to their styles, Software version of 156-215.82 guide dump - supporting simulation test system, with times of setup has no restriction, CheckPoint Latest 156-215.82 Test Camp Now, to pass the Exam is no more a dream for the students.

Make them effective, When not doing all this, Tris manages the marketing 156-215.82 and social media for Simply.ca, You will never have language barriers, and the learning process is very easy for you.
