Salesforce Certified Advanced Administrator Sample Questions (Q191-

Q196):

NEW QUESTION # 191
Which features are available only in Collaborative forecast ? Choose 2

- A. You can use Territory Management
- B. Custom Fiscal Years
- C. You can Rename Forecast Category
- D. Default Forecast Currency Setting

Answer: C,D

NEW QUESTION # 192
James, a recruiting manager, needs a picklistfield implemented on the Position object by the end of the week. Matt, the system administrator, is too busy to fulfill the requirement.
What should Matt do to prevent this from happening again?* (1 Point)

- A. Make James a delegated administrator for the Position object
- B. Make James a delegated administrator for the Recruiting app
- C. Change the organization-wide defaults for the Position Object to Public Read/Write
- D. Assign James the "Modify All Data" permission set

Answer: A

NEW QUESTION # 193
An administrator has been tasked with sending an email notification to all project team members when project status is changed to Allocated. Project teams contain users from different departments and different roles.
How should an administrator ensure the proper users will receive the email?

- A. Configure a queue for the project team and have members view the queue's list view.
- B. Move the project users to the same role and send the email alert to everyone in the role.
- C. Create public groups for each project team and send the email alert to the project group.
- D. Use sharing rules to automatically share with the individual users in the project team.

Answer: C

Explanation:
Public groups let you share records with a set of users defined by criteria such as role, profile, or individual users. You can use public groups as recipients for email alerts in workflow rules or process builder.

NEW QUESTION # 194
An auto-response rule sends en email using Template when the field Case Source Is 'email' and Template when Case Source is blank. A Process Builder updates Case Source to 'email' when a case is created using Email-to-Case and to web' when a case Is created using Web-to-Case. Otherwise, Case Source Is blank.
What will occur when a case is created from an Incoming email?

- A. An email la sent out using Template and then Case Source updates to 'email'.
- B. Case Source updates to email and an email Is sent out using Template1.
- C. An email is sent out using Template and then Case Source updates to email'.
- D. Case Source updates to 'email' and an email is sent out using Template2.

Answer: D

Explanation:
Case Source updates to 'email' before the record is saved because the Process Builder runs before the auto-response rule. Then, an

email is sent out using Template2 because the auto-response rule evaluates the Case Source value after it is updated by the Process Builder and matches the criteria for Template2

NEW QUESTION # 195

Universal Containers wants to implement a new entitlement process for premier support accounts. This support includes phone contact with the customer every 24 hours from the time the case is created for as long as it remains open.
How should an administrator configure this requirement?

- A. Enable milestone tracker
- B. Configure an escalation rule
- C. Build a sequential milestone
- D. Create an independent milestone

Answer: A
