# Best Nutanix NCP-EUC Exam Score Help You Pass Your Nutanix Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam Exam From The First Try

TestkingPass Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam (NCP-EUC) practice test material covers all the key topics and areas of knowledge necessary to master the Nutanix Certification Exam. Experienced industry professionals design the NCP-EUC exam questions and are regularly updated to reflect the latest changes in the Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam (NCP-EUC) exam. In addition, TestkingPass offers three different formats of practice material which are discussed below.

TestkingPass is a dumps pdf provider that ensures you pass the Nutanix braindumps exam with high rate. You may wonder how we can guarantee the high pass rate. You can rest assured that the NCP-EUC braindumps questions and learning materials are created by our IT teammates who have rich experience in the NCP-EUC Top Questions. And we constantly keep the updating of vce dumps to ensure the accuracy of questions and answers.

Nutanix Excellent NCP-EUC Exam Score – Pass NCP-EUC First Attempt

The NCP-EUC training materials provide you with free demo, and you can have a try in our website. If you are satisfied with the free demo, you just need to add them to your shopping cart, and pay for it, please check the email address carefully, due to we will send the NCP-EUC Exam Dumps to you by email. Besides, we support online payment with credit card, and the payment tools will change the currency of your country, and there is no necessary for you to exchange by yourself.

Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam Sample Questions (Q77-Q82):

NEW QUESTION # 77
A company has started planning for migration to Windows 11. An administrator is looking over the requirements for boot and security settings at the VM level to prepare to build new base images.
Which option can the administrator exclude from the requirements list for running Windows 11 VMs on AHV?

- A. UEFI
- B. Credential Guard
- C. Secure Boot
- D. vTPM

Answer: B

Explanation:
According to Nutanix AHV support documentation for Windows 11, the operating system enforces strict hardware requirements for installation and booting. These mandatory requirements include:
* UEFI firmware (Legacy BIOS is not supported).
* Secure Boot enabled.
* vTPM (Virtual Trusted Platform Module) version 2.0.
Credential Guard is a security feature (Virtualization-Based Security) available in Windows 11 that protects credentials, but it is not a mandatory requirement to successfully install or boot the operating system. While Nutanix AHV supports Credential Guard, an administrator can validly exclude it from the minimum requirements list needed just to get the VMs running, whereas excluding vTPM, UEFI, or Secure Boot would cause the OS installation or boot process to fail.

NEW QUESTION # 78
An administrator needs to add two new nodes to an existing Nutanix cluster. In addition to the default virtual switch vs0, the cluster also has two additional vSwitches defined: vs1 and vs2.
What step does the administrator need to take prior to expanding the cluster?

- A. Ensure the physical NICs in the existing and new nodes are operating at the same speed.
- B. Configure bridge br1 and br2 on the new nodes.
- C. Disable the virtual-switch feature on the cluster.
- D. Ensure AOS and AHV on the new nodes match the cluster versions.

Answer: B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of Nutanix End User Computing documents:
According to the Nutanix AHV Administration Guide and Cluster Expansion prerequisites for environments with non-default virtual switches:
* Manual Bridge Configuration: When a cluster has multiple virtual switches (e.g., vs1, vs2) configured, these correspond to specific OVS bridges (e.g., br1, br2) on the AHV hosts. Before adding new nodes to such a cluster, the administrator must manually configure these additional bridges on the new nodes to match the existing cluster configuration.
* Consistency Requirement: The documentation states that virtual bridges used for a virtual switch (VS) on all nodes must have the same specification (name, MTU, uplink bond type). If vs1 is mapped to br1 on existing nodes, it must be mapped to br1 on the new nodes before they are added to the cluster.
* Expansion Failure/Warning: Failure to configure these bridges prior to expansion can result in the new nodes being unable to join the configured networks properly or the expansion process failing checks related to network uniformity.

NEW QUESTION # 79
An administrator has finished setting up a Frame environment and has to finish preparing the Sandbox image.
During the publishing and testing phase, the administrator notices issue with the Sysprep process.
Which tool can the administrator use to prepare the Sysprep of the sandbox with error parsing?

- A. Frame Guest Agent 8
- B. Frame Sysprep Helper Tool
- C. Windows Sysprep Built in tool
- D. Frame Guest Agent 7

Answer: B

Explanation:
Sysprep is a Microsoft tool that prepares a Windows installation for cloning, auditing, and customer delivery2
3. The Frame Sysprep Helper Tool is designed to simplify the Microsoft Sysprep process by parsing errors reported by sysprep and immediately repairing them when possible1. Therefore, the tool that the administrator can use to prepare the Sysprep of the sandbox with error parsing is A (Frame Sysprep Helper Tool).

NEW QUESTION # 80

An EUC environment is being deployed with multi-session server OS workloads. An administrator has a requirement for configuring RDS licensing for redundancy across Nutanix clusters.

Which action should the administrator take when configuring the group policy settings needed for this requirement?

- A. Prevent remote desktop license server upgrade.
- B. Set the remote desktop licensing mode.
- C. Use the specified remote desktop license servers.
- D. Specify the remote desktop license server security group.

Answer: C

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of Nutanix End User Computing documents:
According to Microsoft RDS and Nutanix Best Practices:
* GPO Configuration: The specific Group Policy Object (GPO) setting used to define which license servers an RD Session Host should contact is titled "Use the specified remote desktop license servers
".
* Redundancy: In this policy setting, the administrator can input a list of multiple license servers (IP addresses or FQDNs). If the first server in the list is unreachable (due to a cluster failure or maintenance), the host automatically attempts to contact the subsequent servers, thereby achieving the required redundancy.

NEW QUESTION # 81
An administrator is tasked with providing dedicated VDIs to developers.
Which deployment method type requires the least amount of effort to achieve this task?

- A. Static-built Remote PC pool
- B. Dedicated VDI provisioned from PVS
- C. Non-persistent pool
- D. Dedicated VDI provisioned from MCS

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of Nutanix End User Computing documents:
According to Citrix on Nutanix Reference Architectures:
* Simplicity of MCS: Machine Creation Services (MCS) is integrated directly into the Citrix Studio console and communicates natively with the Nutanix AHV APIs. It creates clones (Linked or Full) effortlessly without requiring extra infrastructure.
* Comparison with PVS: PVS (Provisioning Services) (Option D) requires a separate PVS infrastructure (Provisioning Servers, SQL database, TFTP/DHCP configuration, Network Streaming Setup).
* Conclusion: For a "Dedicated VDI" requirement, using MCS to provision full or fast clones requires significantly less administrative effort and infrastructure setup than implementing a PVS environment.

NEW QUESTION # 82
......

Our NCP-EUC guide materials are constantly updated. In order to ensure that you can use the latest version as quickly as possible, our professional experts check the NCP-EUC exam questions every day for updates. If there is an update system, it will be automatically sent to you. The NCP-EUC learning prep you use is definitely the latest information on the market without doubt. And you can enjoy free updates for one year after purchase.

Valid Study NCP-EUC Questions: https://www.testkingpass.com/NCP-EUC-testking-dumps.html

Nutanix NCP-EUC Exam Score The average passing rate of our candidates has already reached to 99%, which is first-class in this industry, Nutanix NCP-EUC Exam Score Just like the saying goes, it is good to learn at another man's cost, Make sure that you are going through the detailed NCP-EUC questions answer so you can easily prepare for the real exam, Nutanix NCP-EUC Exam Score There are a lot of excellent experts and professors in our company.

Gatekeepers with CallManager, We can hardly overstate the importance NCP-EUC Accurate Prep Material of direct customer interaction in shaping product design, marketing, selling, and driving leads into sales.
