Test SAP C-BCFIN-2502 Dumps.zip & C-BCFIN-2502 Latest Exam Dumps

In order to provide a convenient study method for all people, our company has designed the online engine of the C-BCFIN-2502 study materials. The online engine is very convenient and suitable for all people to study, and you do not need to download and install any APP. We believe that the C-BCFIN-2502 study materials from our company will help all customers save a lot of installation troubles. You just need to have a browser on your device you can use our study materials. We can promise that the C-BCFIN-2502 Study Materials from our company will help you prepare for your exam well.

SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions Sample Questions (Q59-Q64):

NEW QUESTION # 59

Which of the following is a key feature of SAP Business Suite?

- A. Limited integration
- B. Batch-based reporting
- C. Manual data entry
- D. Real-time data sharing

Answer: D

NEW QUESTION # 60

What are the primary advantages of the Invoice-to-Pay (I2P) process within SAP S/4HANA Finance?

- A. It enhances procurement through standalone systems, independent of accounts payable operation.
- B. It aims to enhance working capital management through managing outgoing invoicing and customer.
- C. It automates manual tasks related to accounts receivable and financial reconciliation.
- **D. It works across Accounts Payable, Payment Management, and Supplier Management to streamline operation.**

Answer: D

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

The Invoice-to-Pay (I2P) process in SAP S/4HANA Finance is a critical component of the "Expenditure Management" lifecycle. Its primary advantage is its holistic integration; it works across Accounts Payable, Payment Management, and Supplier Management to create a seamless, end-to-end workflow. Unlike legacy environments where these functions are disconnected, SAP provides a unified platform where an invoice is automatically matched against purchase orders and receipts (3-way match), verified for compliance, and scheduled for payment based on optimized cash flow strategies.

By streamlining these operations, I2P reduces the "cost per invoice" and ensures that the company can take advantage of early-payment discounts, which directly impacts the bottom line. Furthermore, it incorporates Supplier Management to ensure that vendor data is accurate and that payments are sent to validated accounts, reducing the risk of payment fraud. This integrated approach provides the CFO with complete visibility into upcoming liabilities and cash requirements. Option B describes the "Invoice-to-Cash" (Accounts Receivable) process, and Option A describes a siloed approach which is the opposite of SAP's value proposition of an "Integrated Digital Core." Therefore, the strength of the SAP I2P process lies in its ability to harmonize all aspects of the outgoing payment cycle into a single, automated, and secure operation.

NEW QUESTION # 61

Which processes does SAP Global Trade Services most closely support?

Note: There are 2 correct answers to this question.

- A. Marketing
- **B. Sales**
- **C. Purchasing**
- D. Production

Answer: B,C

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

SAP Global Trade Services (GTS) is an essential component of the finance and risk landscape, specifically designed to manage the complexities of international trade. It is most closely integrated with the Sales and Purchasing processes. In the Purchasing (Procurement) process, GTS ensures that goods being imported meet all regulatory requirements, checks for sanctioned suppliers, and calculates the appropriate customs duties to be included in the landed cost.

In the Sales (Order-to-Cash) process, GTS performs critical "Sanctioned Party Screening" to ensure that the company is not selling to prohibited individuals or entities. It also manages export licenses and ensures that the goods being shipped comply with the export laws of the origin country and the import laws of the destination. If a violation is detected during either the Sales or Purchasing cycle, GTS can automatically place a "block" on the transaction in the SAP S/4HANA core, preventing further processing until the issue is resolved. This tight integration ensures that trade compliance is not a bottleneck but a real-time safeguard embedded into the supply chain and financial workflows. Marketing and Production, while related to the business, do not typically trigger the cross-border legal and financial compliance checks that define the core function of SAP GTS.

NEW QUESTION # 62

What SAP solution is tailored to use machine learning for automating and optimizing payment processing in the invoice-to-Cash cycle?

- A. SAP Digital Payments add-on
- B. SAP Multi-Bank Connectivity
- C. Taulia Receivables
- **D. SAP Cash Application**

Answer: D

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

One of the most labor-intensive tasks in the finance department is the manual matching of incoming bank payments with open invoices, especially when remittance information is missing or incorrect. SAP Cash Application is the specific solution designed to solve this problem by leveraging machine learning (ML).

Unlike traditional rule-based algorithms that require constant manual updating, SAP Cash Application learns from the historical actions of your accounting team.

The solution analyzes previous payment behaviors and clearing patterns to automatically propose matches for incoming payments.

As the system "sees" more data, its accuracy improves, allowing it to handle complex scenarios like partial payments or consolidated payments for multiple invoices. This significantly reduces the

"Days Sales Outstanding" (DSO) and frees up the accounts receivable team to focus on exception handling rather than repetitive data entry. For a CFO, this translates to improved working capital management and lower operational costs. While SAP Multi-Bank Connectivity handles the secure transfer of data and the Digital Payments add-on manages credit card/e-wallet integrations, it is SAP Cash Application that provides the intelligent automation required to optimize the Invoice-to-Cash cycle through AI.

NEW QUESTION # 63

What is the purpose of SAP Business Data Cloud?

- A. To optimize supply chain operations
- B. To automate payroll processing
- C. To unify data from various sources
- D. To manage employee benefits

Answer: C

NEW QUESTION # 64

.....

The whole payment process on our C-BCFIN-2502 exam braindumps only lasts a few seconds as long as there has money in your credit card. Then our system will soon deal with your orders according to the sequence of payment. Usually, you will receive the C-BCFIN-2502 Study Materials no more than five minutes. Then you can begin your new learning journey of our C-BCFIN-2502 preparation questions. All in all, our payment system and delivery system are highly efficient.
