## Practice UiPath UiAAAv1 Exam - Pass4sure UiAAAv1 Study Materials

UiPath Certification UiAAAv1 Exam is very popular among the IT people to enroll in the exam. Passing UiPath certification UiAAAv1 exam can not only change your work and life can bring, but also consolidate your position in the IT field. But the fact is that the passing rate is very low.

## UiPath Agentic Automation Associate Sample Questions (Q59-Q64):

### NEW QUESTION # 59

Scenario: A Citrix Administrator maintains a Citrix Virtual Apps and Desktops Site with local storage that contains several logical disk space locations. The administrator would like to reduce the total number of writes on the storage.

What can the administrator implement with minimal administrative effort to address these needs?

- A. Citrix Provisioning
- B. Machine Creation Services input/output optimization
- C. Personal vDisk
- D. Storage Area Network (SAN)

**Answer: A**

### NEW QUESTION # 60

A Citrix Administrator is concerned about the way that web pages and video render on the backend Virtual Delivery Agent (VDA) workloads. The administrator wants to find a way to for the web pages to render on the client device instead of on the VDA. What feature should the administrator use to accomplish this?

- A. Citrix Optimizer
- B. Enlightened Data Transport
- C. Microsoft Teams Optimization
- **D. Browser Content Redirection**

**Answer: D**

Explanation:

Browser Content Redirection offloads the rendering of web pages and multimedia from the VDA to the client device. This reduces CPU and memory load on the VDA while improving performance and user experience on the endpoint.

### NEW QUESTION # 61

Scenario: A Citrix Administrator needs to configure StoreFront to allow external users access to internal resources. The external users will authenticate on StoreFront. Which StoreFront authentication method can the administrator configure?

- A. Username and password
- **B. Pass-through from NetScaler Gateway**
- C. HTTP Basic
- D. Smart card

**Answer: B**

Explanation:

For external access, authentication is typically performed at Citrix NetScaler (now Citrix ADC).

StoreFront must then be configured with the "Pass-through from NetScaler Gateway" authentication method, allowing StoreFront to accept and trust the authentication performed externally.

### NEW QUESTION # 62

After creating a new machine catalog using the Machine Creation Services (MCS) wizard in Citrix Studio, a Citrix Administrator determines that Windows activation fails for all new machines in that catalog.

Which two conditions can cause this to happen? (Choose two.)

- **A. The version of Windows installed uses Multiple Activation Key (MAK) licensing.**
- **B. The base image rearm count has been exceeded.**
- C. The version of Windows installed is Windows Server 2012 R2.
- D. The Microsoft License Server is unreachable.

**Answer: A,B**

Explanation:

Rearm count exceeded: If the base image has been sysprepped too many times, the rearm count may be exhausted, preventing Windows activation on cloned machines.

MAK licensing: MCS-provisioned machines are treated as newly deployed instances. MAK licensing is not suitable for this scenario because each clone would require its own activation, leading to failures.

### NEW QUESTION # 63

What is the minimum permission a Citrix Administrator can grant to an IT manager to access Citrix Studio?

- A. Delivery Group Administrator
- **B. Read Only Administrator**
- C. Host Administrator
- D. Machine Catalog Administrator
