Our professions endeavor to provide you with the newest information with dedication on a daily basis to ensure that you can catch up with the slight changes of the H11-861\_V4.0 test. Therefore, our customers are able to enjoy the high-productive and high-efficient users' experience. In this circumstance, as long as your propose and demand are rational, we have the duty to guarantee that you can enjoy the one-year updating system for free. After purchasing our H11-861\_V4.0 Test Prep, you have the right to enjoy the free updates for one year long after you buy our H11-861\_V4.0 exam questions.

## Huawei H11-861\_V4.0 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Cybersecurity and Risk Management: This section assesses the expertise of Security Engineers and Compliance Officers in securing IIoT environments by applying security frameworks, identity and access management, threat detection, and risk mitigation strategies.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>• <b>Implementation and Configuration:</b> This domain targets IIoT Solution Architects and System Integrators, focusing on configuring IoT devices, network connectivity, communication protocols, and edge computing components used in IIoT deployments.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Integration and Application:</b> This section targets Solution Developers and System Integrators involved in integrating IIoT systems with existing enterprise applications, cloud platforms, and analytics tools for data-driven decision making.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Technical Concepts:</b> This section measures skills of Industrial IoT Engineers and Network Engineers and covers fundamental technical principles relevant to Industrial Internet of Things (IIoT), including architectures, protocols, data management, and integration technologies.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Operations and Maintenance:</b> This domain measures skills of Operations Engineers and Network Administrators in monitoring IIoT systems, troubleshooting network and device issues, and maintaining overall system health and performance.</li> </ul>

## H11-861\_V4.0 Dumps Guide - How to Prepare for Huawei H11-861\_V4.0 Exam

The Huawei H11-861\_V4.0 exam material is getting updated on a daily basis according to the real Huawei H11-861\_V4.0 exam questions so that the students don't face any issues while preparing themselves for the HCIP-Collaboration V4.0 (H11-861\_V4.0) certification exam and pass it with ease. We guarantee our customers that they will pass H11-861\_V4.0 exam on the first try with our given H11-861\_V4.0 exam material.

### Huawei HCIP-Collaboration V4.0 Sample Questions (Q12-Q17):

#### NEW QUESTION # 12

Which of the following statements are true about the SC cluster reconstruction deployment scenario? (Choose all that apply.)

- A. If the number of SIP endpoints is far less than that of H.323 endpoints, you are advised not to deploy the SC cluster.
- B. If the number of SIP endpoints is much greater than that of H.323 endpoints, an SC cluster can be deployed for SIP endpoint access. The non-cluster registration SC is reserved for H.323 endpoint access.
- C. If the number of connected extranet soft clients is greater than 2000, you are advised to reconstruct a non-cluster proxy SC into a proxy SC cluster.
- D. If the number of SIP endpoints is much greater than that of H.323 endpoints, an SC cluster can be deployed for SIP and H.323 endpoint access.

**Answer: A,B,C**

Explanation:

When SIP endpoints greatly outnumber H.323 endpoints, you deploy an SC cluster to serve the SIP devices while leaving a standalone SC for the H.323 endpoints.

If SIP registrations are much fewer than H.323 registrations, clustering the SC for SIP isn't recommended, as the scale doesn't justify the added complexity.

A proxy SC supports up to 2,000 external soft-client registrations; if you exceed this, you should rebuild it as a proxy-SC cluster to handle the extra load.

#### NEW QUESTION # 13

Assume endpoints T1 and T2 are registered with the same SC node zone (signaling routing is enabled on the SC). After T1 calls the number of T2 using H.323, T1 communicates with T2. How many TCP connections are established in this process?

- A. 0
- B. 1

- C. 2
- D. 3

**Answer: D**

Explanation:

With signaling routing enabled on the SC, both the H.225 call signaling and the H.245 control channel are each split into two TCP legs (T1→SC and SC→T2), resulting in  $2 \times 2 = 4$  TCP connections.

#### NEW QUESTION # 14

An endpoint is disconnected from a conference due to a power failure. After the endpoint is powered on again, it is not called to the conference again, and the SMC does not detect that the endpoint is disconnected. The SMC O&M engineer finds that this fault is caused by the "Timeout for hang-up upon no code streams" parameter on the CloudMCU. Which of the following parameter values may cause this fault? (Choose all that apply.)

- A. 0
- B. 1
- C. 2
- D. 3

**Answer: B,C**

Explanation:

Setting the timeout to 0 or -1 disables the automatic hang-up when no media streams are received, so the MCU never tears down the call and SMC doesn't detect the endpoint has dropped.

#### NEW QUESTION # 15

In a SIP multipoint conference, if BFCP Trans Type is set to TCP on the MCU, the BFCP communication protocol must be set to TCP on the endpoint.

- A. TRUE
- B. FALSE

**Answer: A**

Explanation:

BFCP transport must match between the MCU and endpoints; if the MCU is configured for TCP, endpoints must also use TCP for BFCP.

#### NEW QUESTION # 16

The main functions of H.245 include capability negotiation, video encoding, and master-slave determination.

- A. TRUE
- B. FALSE

**Answer: B**

#### NEW QUESTION # 17

.....

Are you worried about insufficient time to prepare the exam? Do you have a scientific learning plan? Maybe you have set a series of to-do list, but it's hard to put into practice for there are always unexpected changes during the H11-861\_V4.0 exam. Here we recommend our H11-861\_V4.0 test prep to you. With innovative science and technology, our study materials have grown into a powerful and favorable product that brings great benefits to all customers. We are committed to designing a kind of scientific study material to balance your business and study schedule. With our H11-861\_V4.0 Exam Guide, all your learning process includes 20-30 hours.
