

# 100% Pass Quiz Authoritative Palo Alto Networks - SSE-Engineer Certificate Exam

BTW, DOWNLOAD part of FreePdfDump SSE-Engineer dumps from Cloud Storage: <https://drive.google.com/open?id=1wWpWz8n-dTa4APz7oWoPsoPnjXBQJGwC>

The third and last format is the Palo Alto Networks SSE-Engineer desktop practice exam software form that can be used without an active internet connection. This software works offline on the Windows operating system. The practice exams benefit your preparation because you can attempt them multiple times to improve yourself for the Palo Alto Networks SSE-Engineer Certification test. Our Palo Alto Networks Security Service Edge Engineer (SSE-Engineer) exam dumps are customizable, so you can set the time and questions according to your needs.

## Palo Alto Networks SSE-Engineer Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Prisma Access Administration and Operation: This section of the exam measures the skills of IT Operations Managers and focuses on managing Prisma Access using Panorama and Strata Cloud Manager. It tests knowledge of multitenancy, access control, configuration, and version management, and log reporting. Candidates should be familiar with releasing upgrades and leveraging SCM tools like Copilot. The section also evaluates the deployment of the Strata Logging Service and its integration with Panorama and SCM, log forwarding configurations, and best practice assessments to maintain security posture and compliance.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Prisma Access Troubleshooting: This section of the exam measures the skills of Technical Support Engineers and covers the monitoring and troubleshooting of Prisma Access environments. It includes the use of Prisma Access Activity Insights, real-time alerting, and a Command Center for visibility. Candidates are expected to troubleshoot connectivity issues for mobile users, remote networks, service connections, and ZTNA connectors. It also focuses on resolving traffic enforcement problems including security policies, HIP enforcement, User-ID mismatches, and split tunneling performance issues.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Prisma Access Services: This section of the exam measures the skills of Cloud Security Architects and covers advanced features within Prisma Access. Candidates are assessed on how to configure and implement enhancements like App Acceleration, traffic replication, IoT security, and privileged remote access. It also includes implementing SaaS security and setting up effective policies related to security, decryption, and QoS. The section further evaluates how to create and manage user-based policies using tools like the Cloud Identity Engine and User ID for proper identity mapping and authentication.</li> </ul>

Topic 4	<ul style="list-style-type: none"> <li>• <b>Prisma Access Planning and Deployment:</b> This section of the exam measures the skills of Network Security Engineers and covers foundational knowledge and deployment skills related to Prisma Access architecture. Candidates must understand key components such as security processing nodes, IP addressing, DNS, and compute locations. It evaluates routing mechanisms including routing preferences, backbone routing, and traffic steering. The section also focuses on deploying Prisma Access service infrastructure for mobile users using VPN clients or explicit proxy and configuring remote networks. Additional topics include enabling private application access using service connections, Colo-Connect, and ZTNA connectors, implementing identity authentication methods like SAML, Kerberos, and LDAP, and deploying Prisma Access Browser for secure user access.</li> </ul>

## Palo Alto Networks SSE-Engineer Valid Test Simulator - New Soft SSE-Engineer Simulations

Are you still staying up for the SSE-Engineer exam day and night? If your answer is yes, then you may wish to try our SSE-Engineer exam materials. We are professional not only on the content that contains the most accurate and useful information, but also on the after-sales services that provide the quickest and most efficient assistants. With our SSE-Engineer practice torrent for 20 to 30 hours, we can claim that you are ready to take part in your SSE-Engineer exam and will achieve your expected scores.

## Palo Alto Networks Security Service Edge Engineer Sample Questions (Q53-Q58):

### NEW QUESTION # 53

How can a senior engineer use Strata Cloud Manager (SCM) to ensure that junior engineers are able to create compliant policies while preventing the creation of policies that may result in security gaps?

- A. Configure an auto tagging rule in SCM to trigger a Security policy review workflow based on a security rule tag, then instruct junior engineers to use this tag for all new Security policies.
- B. Configure role-based access controls (RBACs) for all junior engineers to limit them to creating policies in a disabled state, manually review the policies, and enable them using a senior engineer role.
- C. Run a Best Practice Assessment (BPA) at regular intervals and manually revert any policies not meeting company compliance standards.
- **D. Use security checks under posture settings and set the action to "deny" for all checks that do not meet the compliance standards.**

**Answer: D**

Explanation:

By using security checks under posture settings in Strata Cloud Manager (SCM), the senior engineer can enforce policy compliance standards by automatically denying any security policy that does not align with best practices. This ensures that junior engineers can create policies while preventing configurations that might introduce security gaps. This proactive approach eliminates manual oversight and enforces compliance at the time of policy creation, reducing risk and ensuring consistent security enforcement.

### NEW QUESTION # 54

What is the purpose of embargo rules in Prisma Access?

- A. Rate-limiting connections originating from specific countries
- B. Blocking traffic from Russia, China, and North Korea only
- C. Allowing traffic only from specific countries
- **D. Blocking connections from specific countries**

**Answer: D**

Explanation:

Embargo rules in Prisma Access are designed to block traffic from specific countries that are subject to regulatory or policy-based restrictions. These rules help organizations enforce compliance by preventing inbound and outbound connections to or from regions that may pose security risks or are restricted due to legal or geopolitical reasons. They are commonly used to align with government sanctions and corporate security policies.

#### NEW QUESTION # 55

What is the flow impact of updating the Cloud Services plugin on existing traffic flows in Prisma Access?

- A. They will be unaffected because the plugin upgrade is transparent to users.
- B. They will automatically terminate when the upgrade begins.
- C. They will be unaffected only if Panorama is deployed in high availability (HA) mode.
- D. They will experience latency during the plugin upgrade process.

**Answer: A**

Explanation:

Updating the Cloud Services plugin in Prisma Access does not disrupt existing traffic flows because the upgrade process is designed to be seamless and transparent. Prisma Access ensures high availability by maintaining active sessions and policies while applying the update in the background. This allows ongoing connections to continue without interruptions, minimizing impact on user experience.

#### NEW QUESTION # 56

A malicious user is attempting to connect to a blocked website by crafting a packet using a fake SNI and the correct website in the HTTP host header.

Which option will prevent this form of attack?

- A. Advanced URL Filtering and block the "Malicious Behavior" category
- B. Advanced Threat Prevention option to block "Domain Fronting"
- C. Advanced URL Filtering and block "SNI mismatch with Server Certificate (SAN/CN)"
- D. SSL Decryption to "Block sessions on SNI mismatch with Server Certificate (SAN/CN)"

**Answer: D**

Explanation:

This option ensures that SSL Decryption checks for mismatches between the Server Name Indication (SNI) field in the TLS handshake and the Common Name (CN) or Subject Alternative Name (SAN) in the server certificate. If a malicious user tries to bypass content filtering by spoofing the SNI while using the real blocked website in the HTTP host header, this setting will detect the discrepancy and block the session, preventing unauthorized access.

#### NEW QUESTION # 57

An engineer configures a Security policy for traffic originating at branch locations in the Remote Networks configuration scope. After committing the configuration and reviewing the logs, the branch traffic is not matching the Security policy.

Which statement explains the branch traffic behavior?

- A. The Security policy did not meet best practice standards and was automatically removed.
- B. The traffic is matching a Security policy in the Prisma Access configuration scope.
- C. The source zone was configured as "Trust."
- D. The source address was configured with an address object including the branch location prefixes.

**Answer: B**

Explanation:

In Prisma Access, security policies are evaluated based on their configuration scope. If the engineer configured a Security policy under the Remote Networks scope, but traffic from the branch locations is instead matching a Security policy under the Prisma Access configuration scope, the intended policy will not take effect. This happens because Prisma Access evaluates security rules based on the highest-level applicable configuration first, which can override more specific Remote Networks policies.

## NEW QUESTION # 58

.....

Our SSE-Engineer actual exam can also broaden your horizon; activate your potential to deal with difficulties. You will not only get desirable goal with our SSE-Engineer exam practice but with superior outcomes that others who dare not imagine. The scarcity of efficient resource impaired many customers' chance of winning. So choosing materials blindly is dangerous to your exam and you must choose reliable and qualities like our SSE-Engineer simulating questions.
