Real Apple DEP-2025 Dumps - DEP-2025 Valid Test Discount

Our approach to Apple DEP-2025 Exam Preparation is focused on quality over quantity, which means our Apple DEP-2025 practice tests help you identify the most important concepts and skills you need to master to pass the exam. We also provide ongoing 24/7 support to help you stay on track while using our product.

Apple Deployment and Management Exam Sample Questions (Q164-Q169):

NEW QUESTION # 164

What do you use to manually add a Mac to Apple Business Manager or Apple School Manager?

- A. System Settings
- B. Xcode
- C. Apple Configurator for Mac
- **D. Apple Configurator for iPhone**

Answer: D

Explanation:

Apple requires the use of Apple Configurator for iPhone to manually add Macs into Apple Business Manager or Apple School Manager. The workflow involves placing the target Mac into Device Enrollment mode and then scanning an on-screen image with the Configurator app running on an iPhone. Once completed, the Mac is added to the organization's ABM account with a 30-day provisional period. Apple Configurator for Mac, while useful for restoring and preparing iOS/iPadOS devices, does not support manually adding Macs to ABM. System Settings and Xcode are unrelated to device enrollment workflows. This method is Apple's prescribed approach for organizations acquiring Macs outside normal reseller channels.

References: Apple Configurator User Guide for iPhone - "Add a Mac to Apple Business Manager or Apple School Manager."

NEW QUESTION # 165

What's the benefit of using supervision?

- A. Allows personalization
- **B. Enables advanced management**
- C. Improves network performance
- D. Separates personal and managed data

Answer: B

Explanation:

Supervision, applied via Apple Configurator or ADE, enables advanced management by unlocking additional MDM capabilities, such as blocking app removal, enforcing single-app mode, or managing Activation Lock.

This provides greater control for organizations. Personalization (option A) is often restricted under supervision. Network performance (option C) is unrelated, and data separation (option D) is a User Enrollment feature. The Apple Platform Deployment Guide highlights advanced management as supervision's key benefit.

Reference: Apple Platform Deployment Guide (Chapter: Supervision).

NEW QUESTION # 166

Which enrollment type can supervise an iPad?

- A. Profile-driven Enrollment
- B. Account-driven User Enrollment
- C. Account-driven Device Enrollment
- **D. Automated Device Enrollment**

Answer: D

Explanation:

ADE enables supervision. The Apple Platform Deployment Guide states, "Automated Device Enrollment automatically supervises devices during setup when linked to Apple Business Manager." References:

Apple Platform Deployment Guide, "Automated Device Enrollment" section.

iOS Deployment Reference, "Supervision" section.

NEW QUESTION # 167

What's the benefit of using Lost Mode?

- A. Allows device tracking
- B. Improves network performance
- C. Separates personal and managed data
- D. Enables additional restrictions

Answer: A

Explanation:

Lost Mode, an MDM feature for supervised devices, allows device tracking by locking the device, displaying a custom message, and reporting its location (if Location Services are enabled). It's a security tool for recovering lost or stolen devices. Additional restrictions (option B) are a supervision feature, not Lost Mode's benefit. Network performance (option C) and data separation (option D) are unrelated. The MDM Protocol Reference highlights tracking as Lost Mode's primary benefit.

NEW QUESTION # 168

What must you download from Apple Business Manager and then upload to MDM to configure Managed Distribution of apps?

- A. A device token
- B. A public key certificate
- C. A content token
- D. A private key certificate

Answer: C

Explanation:

A content token links app licenses to MDM for distribution. The Apple Business Manager User Guide states, "To configure Managed Distribution, download the content token from Apple Business Manager and upload it to your MDM server. This token authorizes the MDM to manage and distribute apps to enrolled devices." Options B, C, and D are unrelated to app distribution.

Reference:

Apple Business Manager User Guide, "Apps and Books" section.

Mobile Device Management Protocol Reference, "App Management" section.

NEW QUESTION # 169

.....

For candidates who will buy DEP-2025 learning materials online, they may care more about the quality of the exam dumps.
