

# Exam NS0-185 Certification Cost - NS0-185 Premium Exam

There are three different versions of our NS0-185 exam questions: the PDF, Software and APP online. The PDF version of our NS0-185 study guide can be printable and You can review and practice with it clearly just like using a professional book. The second Software versions which are usable to windows system only with simulation test system for you to practice in daily life. The last App version of our NS0-185 learning guide is suitable for different kinds of electronic products.

Network Appliance certification NS0-185 exam has become a very popular test in the IT industry, but in order to pass the exam you need to spend a lot of time and effort to master relevant IT professional knowledge. In such a time is so precious society, time is money. TopExamCollection provide a training scheme for Network Appliance Certification NS0-185 Exam, which only needs 20 hours to complete and can help you well consolidate the related IT professional knowledge to let you have a good preparation for your first time to participate in Network Appliance certification NS0-185 exam.

## NS0-185 Premium Exam, NS0-185 Reliable Cram Materials

You can choose the number of NetApp Storage Installation Engineer, ONTAP Professional Exam (NS0-185) questions and time frame of the NS0-185 Desktop practice exam software as per your learning needs. Performance reports of Network Appliance NS0-185 Practice Test will be useful for tracking your progress and identifying areas for further study.

## Network Appliance NetApp Storage Installation Engineer, ONTAP Professional Exam Sample Questions (Q101-Q106):

### NEW QUESTION # 101

Before expanding a cluster, which two ONTAP configuration backup methods are available? (Choose two.)

- A. storage VM
- B. node
- C. cluster
- D. switch

**Answer: C,D**

#### NEW QUESTION # 102

After moving a new AFF A400 cluster into production, the administrator notices error events in ONTAP System Manager regarding SAS HA issues.

In this scenario, which NetApp tool would have identified these errors after the installation process?

- **A. Active IQ Config Advisor**
- B. ONTAP System Manager
- C. Active IQ Unified Manager
- D. Cloud Manager

**Answer: A**

Explanation:

Within the ONTAP SAN implementation testing and troubleshooting domain, NetApp places strong emphasis on post-installation validation tools. One of the primary tools used immediately after installation is Active IQ Config Advisor.

Active IQ Config Advisor is designed specifically to validate hardware configuration, cabling, HA connectivity, and SAS topology. During post-installation checks, Config Advisor scans the system for configuration errors, miswired cables, unsupported connections, and SAS HA path issues. These checks are a mandatory part of NetApp installation best practices.

SAS HA issues, such as incorrect shelf cabling, missing redundant paths, or improper HA connections, are precisely the types of errors Config Advisor is designed to detect. It performs rule-based validation against NetApp-supported configurations and flags deviations before they result in operational problems.

By contrast, ONTAP System Manager displays events and alerts after the system is already operational, but it is not a post-installation validation tool. Cloud Manager is used for cloud-based storage management and is not applicable to on-premises AFF hardware validation. Active IQ Unified Manager focuses on long-term monitoring, performance analytics, and capacity planning rather than installation-time hardware verification.

Because the errors were related to SAS HA issues that could have been detected immediately after installation, the correct tool is Active IQ Config Advisor.

Therefore, the correct answer is C.

#### NEW QUESTION # 103

Which logical interface has a fixed firewall policy?

- **A. cluster LIF**
- B. cluster management LIF
- C. data LIF
- D. intercluster LIF

**Answer: A**

Explanation:

Within ONTAP SAN concepts, logical interfaces (LIFs) are assigned specific roles, and each role has predefined networking and security behaviors. Among all LIF types, the cluster LIF is unique because it has a fixed firewall policy that cannot be modified by administrators.

Cluster LIFs are used exclusively for internal cluster communication, including replication of configuration databases, cluster heartbeat traffic, and distributed data access coordination. Because of their critical role, NetApp enforces a fixed firewall policy to protect cluster integrity and prevent accidental or malicious changes that could disrupt cluster operations.

Data LIFs, cluster management LIFs, and intercluster LIFs all allow configurable firewall policies.

Administrators can adjust these policies to permit or restrict protocols such as NFS, SMB, iSCSI, HTTPS, SSH, or SnapMirror traffic depending on deployment requirements.

By contrast, cluster LIF firewall settings are locked to ensure that only cluster-related traffic is permitted. This design ensures predictable behavior and prevents misconfiguration during installation or troubleshooting.

Therefore, the only LIF with a fixed firewall policy is the cluster LIF, making C the correct answer.

#### NEW QUESTION # 104

You have a 4-node FAS8060 cluster. You use the vol move command to relocate a volume from an aggregate on node 1 to an

aggregate on node 4.

In this scenario, which network is used for the traffic being relocated?

- A. the intercluster network
- B. the HA interconnect
- C. the node management network
- **D. the cluster interconnect**

**Answer: D**

#### **NEW QUESTION # 105**

Which two switch operating systems are supported on ONTAP cluster switches?(Choose two.)

- **A. Broadcom EFOS**
- **B. Cisco NX-OS**
- C. Cisco IOS
- D. Brocade FOS

**Answer: A,B**

#### **NEW QUESTION # 106**

.....

TopExamCollection's NS0-185 exam training materials are proved to be effective by some professionals and examinees that have passed NS0-185 exam, TopExamCollection's NS0-185 exam dumps are almost the same with real exam paper. It can help you pass NS0-185 certification exam. After you purchase our NS0-185 VCE Dumps, if you fail NS0-185 certification exam or there are any problems of NS0-185 test training materials, we will give a full refund to you. We believe that our TopExamCollection's NS0-185 vce dumps will help you.

**NS0-185 Premium Exam:** <https://www.topexamcollection.com/NS0-185-vce-collection.html>

The time is very tight, and choosing NS0-185 study questions can save you a lot of time, In this cut-throat competitive world of Network Appliance, the Network Appliance NS0-185 certification is the most desired one, Network Appliance Exam NS0-185 Certification Cost For reasons of space I have missed out some of the details, As you can see, only you are ready to spend time on memorizing the correct questions and answers of the NS0-185 study guide can you pass the NetApp Storage Installation Engineer, ONTAP Professional Exam exam easily.

Don't worry too much, Leadership transitions are rarely smooth, The time is very tight, and choosing NS0-185 study questions can save you a lot of time, In this cut-throat competitive world of Network Appliance, the Network Appliance NS0-185 certification is the most desired one.

### **Exam NS0-185 Certification Cost | Pass-Sure Network Appliance NS0-185 Premium Exam: NetApp Storage Installation Engineer, ONTAP Professional Exam**

For reasons of space I have missed out some of the details, As you can see, only you are ready to spend time on memorizing the correct questions and answers of the NS0-185 study guide can you pass the NetApp Storage Installation Engineer, ONTAP Professional Exam exam easily.

If you want to have a good development NS0-185 in your field, getting a qualification is useful.
