## Fortinet FCP\_FAZ\_AN-7.6 Free Practice | Practice FCP\_FAZ\_AN-7.6 Test Online

Probably you've never imagined that preparing for your upcoming FCP\_FAZ\_AN-7.6 Exam could be easy. The good news is that our FCP\_FAZ\_AN-7.6 exam braindumps can help you pass the exam and achieve the certification with the least time and efforts. The excellent FCP\_FAZ\_AN-7.6 learning questions are the product created by those professionals who have extensive experience of designing exam study material. Just remind you that we have engaged in the career for over ten years and we have become the leader in this field.

## Fortinet FCP - FortiAnalyzer 7.6 Analyst Sample Questions (Q21-Q26):

### NEW QUESTION # 21

Which statement about exporting items in Report Definitions is true?

- A. Chart exports contain associated datasets.
- B. Datasets can be exported.
- C. Template exports contain associated charts and datasets.
- D. Templates can be exported.

**Answer: A**

### NEW QUESTION # 22

(Refer to the exhibit.)

<input type="checkbox"/>	Event ↕	Event Status ↕	Event Type ↕	Severity ↕
<input type="checkbox"/>	bujyqttatbsd.findhere.org (1)	Mitigated	Web Filter	Low
<input type="checkbox"/>	Web request to suspicious destination from 10.0.3.20 blocked	Mitigated	Web Filter	Low

Which statement about the displayed event is correct? (Choose one answer))

- A. The security risk was dropped.
- B. The risk source is isolated.
- C. The security event risk is from an application control log
- D. The security risk was blocked.

**Answer: D**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of knowledge of FortiAnalyzer 7.6 Study guide documents:

The exhibit shows the event Event Status = Mitigated and Event Type = Web Filter, with the event message indicating the web request was blocked.

The study guide defines Mitigated events as follows: "Mitigated: The security risk is mitigated by being blocked or dropped." This means a mitigated status corresponds to enforcement that prevented the risk (block/drop), not a condition where the source is isolated.

It also distinguishes Contained events from mitigated ones: "Contained: The risk source is isolated." Since the exhibit clearly shows Mitigated (not Contained), option B is incorrect.

Additionally, the study guide notes: "Generally, you can acknowledge mitigated events because the related traffic was blocked by the firewall." This aligns directly with the exhibit's "blocked" wording and supports that the correct interpretation is that the security risk was blocked.

Finally, the event type displayed is Web Filter, not application control, so option D is incorrect.

Therefore, the correct statement is C. The security risk was blocked.

### NEW QUESTION # 23

When you move a FortiGate device from one ADOM to a new ADOM, what is the purpose of rebuilding the new ADOM database?

- A. To reset the disk quota enforcement to default
- B. To run reports on the device's analytics logs in the new ADOM
- C. To migrate the archive logs to the new ADOM
- D. To remove the device's analytics logs from the old ADOM

**Answer: B**

### NEW QUESTION # 24

Which two statements about playbook execution are true? (Choose two)

- A. Even if the playbook status is Failed, individual tasks may have succeeded.
- B. FortiAnalyzer will not commit changes made by a Failed playbook
- C. You can run the default debugging playbook to investigate playbook errors.
- D. The Playbook Monitor provides troubleshooting logs

**Answer: B,D**

#### NEW QUESTION # 25

Which two statement regarding the outbreak detection service are true? (Choose two.)

- A. It automatically downloads new event handlers and reports.
- B. Outbreak alerts are available on the root ADOM only.
- C. New alerts are received by email.
- D. An additional license is required.

**Answer: A,B**

#### NEW QUESTION # 26

.....
