IAPP Certified Information Privacy Professional/Europe (CIPP/E) Sample Questions (Q82-Q87):

NEW QUESTION # 82

According to the E-Commerce Directive 2000/31/EC, where is the place of "establishment" for a company providing services via an Internet website confirmed by the GDPR?

- A. Where the technology supporting the website is located
- B. Where the website is accessed
- C. Where the decisions about processing are made
- **D. Where the customer's Internet service provider is located**

Answer: D

Explanation:

Explanation/Reference: <https://www.ohioabar.org/member-tools-benefits/publications/Ohio-Lawyer/the-european-general-data-protection-regulation-gdpr/>

NEW QUESTION # 83

Which failing of Privacy Shield, cited by the CJEU as a reason for its invalidation, is the Trans-Atlantic Data Privacy Framework intended to address?

- **A. Necessity.**
- B. Right of Action.
- C. Consent.
- D. Data Subject Rights.

Answer: A

Explanation:

One of the main reasons why the CJEU invalidated the Privacy Shield was that it found that the US surveillance programs were not limited to what is strictly necessary and proportionate, as required by the EU law. The CJEU also criticized the lack of effective judicial remedies for EU data subjects whose data was accessed by US authorities. The Trans-Atlantic Data Privacy Framework is intended to address these issues by introducing new safeguards to ensure that signals intelligence activities are necessary and proportionate in the pursuit of defined national security objectives, and by creating a new mechanism for EU individuals to seek redress if they believe they are unlawfully targeted by signals intelligence activities. The Framework also enhances the oversight and transparency of US surveillance practices.

NEW QUESTION # 84

The European Parliament jointly exercises legislative and budgetary functions with which of the following?

- A. The European Data Protection Board.
- B. The European Commission.
- C. The Article 29 Working Party.
- **D. The Council of the European Union.**

Answer: D

NEW QUESTION # 85

MagicClean is a web-based service located in the United States that matches home cleaning services to customers. It offers its

services exclusively in the United States It uses a processor located in France to optimize its data. Is MagicClean subject to the GDPR?

- A. No, because MagicClean is located in the United States only.
- B. Yes, because MagicClean is processing data in the EU
- **C. No, because MagicClean is not offering services to EU data subjects.**
- D. Yes, because MagicClean's data processing agreement with the French processor is an establishment in the EU

Answer: C

Explanation:

According to Article 3 of the GDPR, the regulation applies to the processing of personal data in the context of the activities of an establishment of a controller or a processor in the EU, regardless of whether the processing takes place in the EU or not. The regulation also applies to the processing of personal data of data subjects who are in the EU by a controller or processor not established in the EU, where the processing activities are related to the offering of goods or services to such data subjects in the EU or the monitoring of their behaviour as far as their behaviour takes place within the EU. In this case, MagicClean is a controller not established in the EU, and it does not offer services to EU data subjects or monitor their behaviour. Therefore, MagicClean is not subject to the GDPR, even if it uses a processor located in France to optimize its data. The location of the processor does not determine the applicability of the GDPR, but the context of the activities of the controller or the processor and the relationship with the data subjects. NEW QUESTION # 86

SCENARIO

Please use the following to answer the next question:

Brady is a computer programmer based in New Zealand who has been running his own business for two years. Brady's business provides a low-cost suite of services to customers throughout the European Economic Area (EEA). The services are targeted towards new and aspiring small business owners. Brady's company, called Brady Box, provides web page design services, a Social Networking Service (SNS) and consulting services that help people manage their own online stores.

Unfortunately, Brady has been receiving some complaints. A customer named Anna recently uploaded her plans for a new product onto Brady Box's chat area, which is open to public viewing. Although she realized her mistake two weeks later and removed the document, Anna is holding Brady Box responsible for not noticing the error through regular monitoring of the website. Brady believes he should not be held liable.

Another customer, Felipe, was alarmed to discover that his personal information was transferred to a third-party contractor called Hermes Designs and worries that sensitive information regarding his business plans may be misused. Brady does not believe he violated European privacy rules. He provides a privacy notice to all of his customers explicitly stating that personal data may be transferred to specific third parties in fulfillment of a requested service. Felipe says he read the privacy notice but that it was long and complicated. Brady continues to insist that Felipe has no need to be concerned, as he can personally vouch for the integrity of Hermes Designs. In fact, Hermes Designs has taken the initiative to create sample customized banner advertisements for customers like Felipe. Brady is happy to provide a link to the example banner ads, now posted on the Hermes Designs webpage. Hermes Designs plans on following up with direct marketing to these customers.

Brady was surprised when another customer, Serge, expressed his dismay that a quotation by him is being used within a graphic collage on Brady Box's home webpage. The quotation is attributed to Serge by first and last name. Brady, however, was not worried about any sort of litigation. He wrote back to Serge to let him know that he found the quotation within Brady Box's Social Networking Service (SNS), as Serge himself had posted the quotation. In his response, Brady did offer to remove the quotation as a courtesy.

Despite some customer complaints, Brady's business is flourishing. He even supplements his income through online behavioral advertising (OBA) via a third-party ad network with whom he has set clearly defined roles. Brady is pleased that, although some customers are not explicitly aware of the OBA, the advertisements contain useful products and services.

Based on the scenario, what is the main reason that Brady should be concerned with Hermes Designs' handling of customer personal data?

- **A. The data is being used for a new purpose.**
- B. The data is sensitive.
- C. The data is uncategorized.
- D. The data is being processed via a new means.

Answer: A

Explanation:

According to the GDPR, personal data must be collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes¹. This means that data controllers must inform data subjects about the purposes of data processing and obtain their consent or rely on another lawful basis for processing. Data controllers must also respect the principle of data minimisation, which means that they should only collect and process personal data that is adequate, relevant and limited to what is necessary for the purposes for which they are processed².

In the scenario, Brady transfers his customers' personal data to Hermes Designs, a third-party contractor, for the purpose of providing web page design services. However, Hermes Designs uses the data for a new purpose, which is creating sample customized banner advertisements and conducting direct marketing to the customers. This new purpose is not compatible with the original purpose for which the data was collected and transferred, and it is not likely that the customers have consented to it or that there is another lawful basis for it. Moreover, Hermes Designs may be processing more personal data than what is necessary for the original purpose, such as the customers' business plans and preferences. Therefore, Brady should be concerned with Hermes Designs' handling of customer personal data, as it may violate the GDPR and expose him to legal risks and reputational damages.
