ASIS Physical Security Professional Exam Sample Questions (Q27-Q32):

NEW QUESTION # 27

Which lamp type enhances CCTV systems by imitating natural daylight conditions, but is also the most expensive light to install and maintain?

- A. High-pressure sodium
- **B. Metal halide**
- C. Low-pressure sodium
- D. Mercury vapor

Answer: B

Explanation:

Metal halide lamps provide excellent color rendering that closely resembles natural daylight, making them ideal for enhancing image quality in CCTV systems. However, they are also more expensive to install and maintain compared to other types such as high-pressure sodium or mercury vapor.

A (Mercury vapor) and D (Low-pressure sodium) offer poor color rendering.

B (High-pressure sodium) is efficient but has a yellow hue that distorts colors.

NEW QUESTION # 28

Business continuity is a two-stage process, _____ is the first stage, _____ is the second.

- A. business recovery, business continuity
- B. business continuity, business resources
- **C. business recovery, business resumption**
- D. business continuity, business recovery

Answer: C

Explanation:

Business continuity involves two core stages:

Business Recovery - restoring critical business functions quickly after a disruption.

Business Resumption - full restoration of all business operations to normal levels over the long term.

This sequence ensures operational stability in the short term and complete restoration in the long term.

NEW QUESTION # 29

The long-term (more than 60 days) process of restoration activities after an emergency or disaster that returns the organization to its pre-event condition is called:

- A. Business healing
- B. Business recovery
- C. Business continuity
- **D. Business resumption**

Answer: D

Explanation:

Business resumption refers to the long-term process (typically more than 60 days) of returning the organization to full, normal operations after a disruption. It follows the earlier stages of emergency response and business recovery and focuses on rebuilding systems and restoring service levels.

Business continuity (A) is a broader concept that includes all planning efforts.

Business recovery (B) focuses on short-term, interim operations.

Business healing (D) is not a formal term in continuity planning.

NEW QUESTION # 30

The common practices in recruiting a jihadist are:

- A. indoctrination
- B. training and preparation for the terrorist act
- C. All of the above
- D. identifying individuals with appropriate ideology

Answer: C

NEW QUESTION # 31

A security supervisor should do which of the following to reinforce training and understanding of the post orders with security officers?

- A. Check the training records
- B. Let the officer read the order and then write a report on it
- C. Ask one or more specific questions about the order
- D. Review the log book entries

Answer: C

Explanation:

Asking targeted questions about post orders helps supervisors verify that security officers understand their duties. It encourages engagement, promotes accountability, and reinforces learning through direct interaction.

A (Checking training records) shows completion but not understanding.

B (Logbook review) focuses on past actions, not comprehension.

D (Written report) may test literacy more than actual understanding.
