EC-COUNCIL EC-Council Certified CISO (CCISO) Sample Questions (Q501-Q506):

NEW QUESTION # 501
A security officer wants to implement a vulnerability scanning program. The officer is uncertain of the state of vulnerability resiliency within the organization's large IT infrastructure. What would be the BEST approach to minimize scan data output while retaining a realistic view of system vulnerability?

- A. Perform the scans only during off-business hours
- B. Decrease the vulnerabilities within the scan tool settings

- C. Filter the scan output so only pertinent data is analyzed
- D. Scan a representative sample of systems

Answer: D

Explanation:
Scanning Strategy:
* Scanning a representative sample of systems minimizes the output data while providing a realistic overview of the organization's vulnerability landscape.
Practical Benefits:
* This approach reduces operational impact and data noise while ensuring that insights are actionable and reflective of the larger environment.
Supporting Reference:
* EC-Council CCISO guidance recommends representative sampling as a best practice for organizations with large infrastructures to balance thoroughness and efficiency.

NEW QUESTION # 502
What are the three stages of an identity and access management system?

- A. Administration, Validation, Protect
- B. Provision, Administration, Enforcement
- C. Provision, Administration, Authentication
- D. Authentication, Authorize, Validation

Answer: D

Explanation:

NEW QUESTION # 503
An organization has a stated requirement to block certain traffic on networks. The
implementation of controls will disrupt a manufacturing process and cause unacceptable delays, resulting in sever revenue disruptions. Which of the following is MOST likely to be responsible for accepting the risk until mitigating controls can be implemented?

- A. Audit and Compliance
- B. The CFO
- C. The CISO
- D. The business owner

Answer: D

NEW QUESTION # 504
Which of the following is NOT an approach for ethical decision making?

- A. Common good
- B. Risk based
- C. Fairness
- D. Utilitarian

Answer: B

NEW QUESTION # 505
With a focus on the review and approval aspects of board responsibilities, the Data Governance Council recommends that the boards provide strategic oversight regarding information and information security, include these four things:

- A. Metrics tracking security milestones, understanding criticality of information and information security, visibility into the types of information and how it is used, endorsement by the board of directors
- B. Annual security training for all employees, continual budget reviews, endorsement of the development and implementation of a security program, metrics to track the program
- C. Understanding criticality of information and information security, review investment in information security, endorse development and implementation of a security program, and require regular reports on adequacy and effectiveness
- D. Endorsement by the board of directors for security program, metrics of security program milestones, annual budget review, report on integration and acceptance of program

Answer: C

Explanation:
The Data Governance Council emphasizes that boards should provide strategic oversight by:
* Understanding the criticality of information and its security to ensure that information is treated as a strategic asset.
* Reviewing investments in information security to align with organizational objectives and mitigate risks effectively.
* Endorsing the development and implementation of a robust security program, providing authority and credibility.
* Requiring regular reporting on the adequacy and effectiveness of the security program to maintain accountability and visibility.
This approach aligns with best practices in information security governance for board responsibilities.
