## **GIAC Strategic Planning, Policy, and Leadership (GSTRT) Sample Questions (Q111-Q116):**

### **NEW QUESTION # 111**

Your organization is preparing to launch a new product that involves processing sensitive customer data. While the product development team is focused on speed to market, you have identified significant data protection risks that need to be addressed in

the cybersecurity strategy. How would you align the security strategy with the business objective of launching the product quickly?  
Response:

- A. Eliminate all data protection measures to speed up the product launch
- **B. Work with the product team to implement essential security measures that protect sensitive data, prioritize critical controls for the launch, and plan for additional security enhancements post-launch**
- C. Ignore the security concerns to meet the launch deadline
- D. Delay the product launch until all security concerns are addressed

**Answer: B**

#### **NEW QUESTION # 112**

Which of the following describes a zero-day exploit?

Response:

- **A. An exploit for which there is no available patch or fix from the software vendor at the time of the attack**
- B. An attack that occurs on the first day of a new vulnerability report
- C. An exploit targeting obsolete systems
- D. A vulnerability that is discovered after the vendor has issued a patch

**Answer: A**

#### **NEW QUESTION # 113**

What is the primary purpose of managing cybersecurity policies within an organization?

Response:

- **A. To ensure policies are regularly updated, enforced, and aligned with organizational goals**
- B. To establish policies and leave them unchanged for several years
- C. To make policies flexible enough for employees to interpret them as they wish
- D. To create complex policies that are difficult to understand

**Answer: A**

#### **NEW QUESTION # 114**

What is the main goal of a threat intelligence program?

Response:

- A. To perform routine maintenance on security systems
- **B. To collect and analyze information about emerging threats and threat actors to improve an organization's security posture**
- C. To create more security policies
- D. To delay the implementation of new security controls

**Answer: B**

#### **NEW QUESTION # 115**

Your organization is facing a growing number of cyber threats, and you have been tasked with assessing the current security program to identify gaps and areas for improvement. After conducting a risk assessment, you find that the security program does not address recent developments in ransomware protection. What steps should you take to address this issue while aligning the program with the organization's values and risk tolerance?

Response:

- **A. Update the security program by implementing ransomware-specific defenses such as frequent data backups, network segmentation, and employee training on phishing attacks**
- B. Allocate the ransomware protection budget to other areas of security
- C. Ignore ransomware protection since it has not caused any recent incidents
- D. Delay any updates to the program until a ransomware attack occurs

**Answer: A**

## NEW QUESTION # 116

.....
