It is a software application which can be installed and it stimulates the real exam's environment and atmosphere. It builds the users' confidence and the users can practice and learn our CIS-EM learning guide at any time.

What skills are measured by the ServiceNow CIS-EM Exam?

The CIS-EM certification is for anyone who plans, designs, develops, deploys, implements, or administers Event Management. This certification requires you to have hands-on experience with the functionality of the product. You will have to know how to create and manage events, event templates, and event categories; how to set up event subscriptions; and how to use event reports to analyze event data. The CIS-EM certification also covers configuring the Zendesk integration and the Salesforce integration.

The ServiceNow Certified Implementation Specialist Event Management exam measures the following skills:

- Implement automation using a workflow trigger or a web service callout action to send an email notification to a user. (This objective may be new.)
- Understand the ServiceNow event management process, including event types and the workflow that processes event data.
- Create integration between ServiceNow and an external application using web services. (This objective may be new.)
- Create, update, and test event-based automation.

ServiceNow CIS-EM Certification is an excellent choice for IT professionals who want to enhance their skills and demonstrate their expertise in the ServiceNow platform. Certified Implementation Specialist-Event Management Exam certification exam covers critical topics related to Event Management, and the benefits of obtaining it are numerous. With the increasing demand for ServiceNow professionals, obtaining the CIS-EM certification can help individuals stand out and advance their careers.
