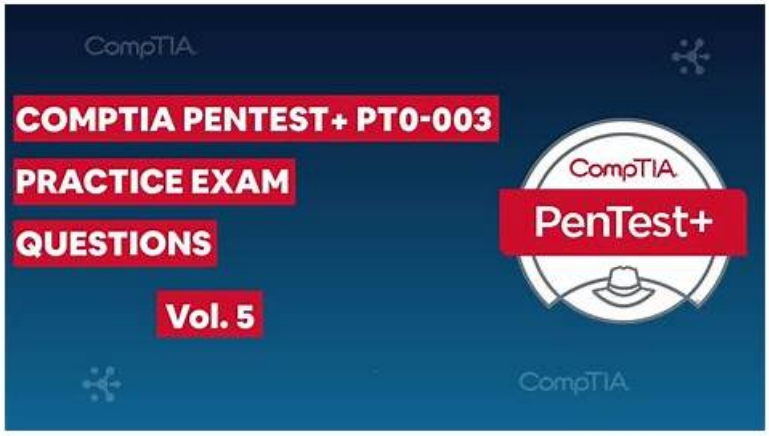
What Will be the Result of Preparing with CompTIA PT0-003 Practice Questions?



BONUS!!! Download part of RealValidExam PT0-003 dumps for free: https://drive.google.com/open?id=15PwgEAYiAs7bxx6mb3QL-oPSt0HPsIj1

If you want to sharpen your skills, or get the PT0-003 certification done within the target period, it is important to get the best PT0-003 exam questions. You must try RealValidExam PT0-003 practice exam that will help you get CompTIA PT0-003 certification. RealValidExam hires the top industry experts to draft the CompTIA PenTest+ Exam (PT0-003) exam dumps and help the candidates to clear their PT0-003 exam easily. RealValidExam plays a vital role in their journey to get the PT0-003 certification.

Our PT0-003 certification material is closely linked with the test and the popular trend among the industries and provides all the information about the PT0-003 test. The answers and questions seize the vital points and are verified by the industry experts. Diversified functions can help you get an all-around preparation for the test. Our online customer service replies the clients' questions about our PT0-003 Certification material at any time. So our PT0-003 learning file can be called perfect in all aspects.

>> PT0-003 Reliable Test Pattern <<

PT0-003 Certified & Examcollection PT0-003 Free Dumps

Three versions of PT0-003 study materials will be offered by us. Eech one has it's own advantage, you can pick the proper one for yourself. We also have free demo for you, you can have a look at and decide which version you want to choose. We also have the live chat service and the live off chat service to answer all questions you have. If you failed to pass the exam , money back will be guaranteed, if you have another exam to attend, we will replace another PT0-003 Study Materials for you freely.

CompTIA PenTest+ Exam Sample Questions (Q245-Q250):

NEW QUESTION # 245
A red team gained access to the internal network of a client during an engagement and used the Responder tool to capture important data. Which of the following was captured by the testing team?

- A. IP addresses
- B. Multiple handshakes
- C. Encrypted file transfers
- D. User hashes sent over SMB

Answer: A

NEW QUESTION # 246
Which of the following should a penetration tester attack to gain control of the state in the HTTP protocol after the user is logged in?

- A. Public and private keys

- B. Sessions and cookies
- C. HTTPS communication
- D. Password encryption

Answer: B

NEW QUESTION # 247
A penetration tester is conducting an assessment on a web application. Which of the following active reconnaissance techniques would be best for the tester to use to gather additional information about the application?

- A. Crawling UR Is using an interception proxy
- B. Crawling URIs using a web browser
- C. Using cURL with the verbose option
- D. Using Scapy for crafted requests

Answer: A

Explanation:
Crawling URIs using an interception proxy is the best active reconnaissance technique for gathering additional information about a web application. An interception proxy, such as Burp Suite or OWASP ZAP, allows the penetration tester to see and manipulate the requests and responses between the client and the server, providing detailed insights into the application's behavior, structure, and vulnerabilities. This technique is more comprehensive and controlled compared to using cURL or a web browser.

NEW QUESTION # 248
A penetration tester creates a list of target domains that require further enumeration. The tester writes the following script to perform vulnerability scanning across the domains:
line 1: #!/usr/bin/bash
line 2: DOMAINS_LIST = "/path/to/list.txt"
line 3: while read -r i; do
line 4: nikto -h $i -o scan-$i.txt &
line 5: done
The script does not work as intended. Which of the following should the tester do to fix the script?

- A. Change line 5 to done < "$DOMAINS_LIST".
- B. Change line 4 to nikto $i | tee scan-$i.txt.
- C. Change line 2 to {"domain1", "domain2", "domain3", }.
- D. Change line 3 to while true; read -r i; do.

Answer: A

Explanation:
The issue with the script lies in how the while loop reads the file containing the list of domains. The current script doesn't correctly redirect the file's content to the loop. Changing line 5 to done < "$DOMAINS_LIST" correctly directs the loop to read from the file.
Step-by-Step Explanation
* Original Script:
DOMAINS_LIST="/path/to/list.txt"
while read -r i; do
nikto -h $i -o scan-$i.txt &
done
* Identified Problem:
* The while read -r i; do loop needs to know which file to read lines from. Without redirecting the input file to the loop, it doesn't process any input.
* Solution:
* Add done < "$DOMAINS_LIST" to the end of the loop to specify the input source.
* Corrected script:
DOMAINS_LIST="/path/to/list.txt"
while read -r i; do
nikto -h $i -o scan-$i.txt &
done < "$DOMAINS_LIST"

* Explanation:
* done < "$DOMAINS_LIST" ensures that the while loop reads each line from DOMAINS_LIST.
* This fix makes the loop iterate over each domain in the list and run nikto against each.
* References from Pentesting Literature:
* Scripting a

NEW QUESTION # 249
While conducting an assessment, a penetration tester identifies the details for several unreleased products announced at a company-wide meeting. Which of the following attacks did the tester most likely use to discover this information?

- A. SQL injection attack
- B. Credential harvesting
- C. Bluesnarfing
- D. Eavesdropping

Answer: D

Explanation:
Eavesdropping:
Eavesdropping involves intercepting communications between parties without their consent. If the details were obtained from a meeting, it likely involved intercepting audio or network communications, such as unsecured VoIP calls, radio signals, or in-room microphones.
Why Not Other Options?
B (Bluesnarfing): Targets Bluetooth-enabled devices, which is unlikely to apply to general meeting communications.
C (Credential harvesting): Focuses on collecting user credentials and does not explain the discovery of product details from a meeting.
D (SQL injection): Exploits databases and is unrelated to capturing meeting communication.
