Most CV0-004 Reliable Questions | CV0-004 Accurate Test

You can enjoy 365 days free update after purchase of our CV0-004 exam torrent. About the updated CompTIA study material, our system will send the latest one to your payment email automatically as soon as the CV0-004 updated. So you can study with the latest CV0-004 Study Material. In addition, DumpsReview offer you the best valid CV0-004 training pdf, which can ensure you 100% pass. Try our CV0-004 free demo before you buy, you will be surprised by our high quality CV0-004 pdf vce.

CompTIA Cloud+ (2025) Sample Questions (Q171-Q176):

NEW QUESTION # 171
A cloud engineer is exploring options to reduce the management overhead of the servers and network. Which of the following cloud service models should the engineer implement?

- A. PaaS
- B. IaaS
- C. XaaS
- D. SaaS

Answer: A

Explanation:
Platform as a Service (PaaS) provides a platform allowing customers to develop, run, and manage applications without the complexity of building and maintaining the infrastructure typically associated with developing and launching an app. Adopting PaaS can significantly reduce the management overhead of servers and networks. References: CompTIA Cloud Essentials+ Certification Study Guide (Exam CLO-002) by Scott Wilson.

NEW QUESTION # 172
A company is developing a new web application that requires a relational database management system with minimal operational overhead. Which of the following should the company choose?

- A. A database migration service
- B. A hybrid database setup
- C. A database installed on a virtual machine
- D. A managed SQL database on the cloud

Answer: D

Explanation:
For a new web application that requires a relational database management system with minimal operational overhead, the company should choose a managed SQL database on the cloud. Managed databases provide automated backups, patching, and other management tasks, reducing the administrative burden.
Reference: The use of managed services, like managed databases, to minimize operational overhead is a strategic decision in cloud computing covered in CompTIA Cloud+.

NEW QUESTION # 173
A cloud networking engineer is troubleshooting the corporate office's network configuration. Employees in the IT and operations departments are unable to resolve IP addresses on all devices, and the IT department cannot establish a connection to other departments' subnets. The engineer identifies the following configuration currently in place to support the office network:

Subnet	Department	Employees
10.1.20.1/24	Finance	50
10.1.30.1/24	IT	90
10.1.40.1/24	Legal	30
10.1.50.1/24	Operations	100

Each employee needs to connect to the network with a maximum of three hosts. Each subnet must be segregated, but the IT department must have the ability to communicate with all subnets. Which of the following meet the IP addressing and routing requirements? (Select two).

- A. Modifying the BYOD policy to reduce the volume of devices that are allowed to connect to the corporate network
- B. Modifying the subnet mask to 255.255.255.128 for the IT and operations departments
- C. Modifying the subnet mask to 255 255 254.0 for IT and operations departments
- D. Configuring static routing to allow access from each subnet to 10.1.40.1
- E. Combining the subnets and increasing the allocation of IP addresses available to support three hosts for each employee
- F. Configuring static routing to allow access from 10.1.30.1 to each subnet

Answer: B,F

Explanation:
To meet the requirements of allowing the IT department to communicate with all subnets while keeping each department segregated and ensuring a maximum of three hosts per employee, two actions are required. First, configuring static routing from the IT subnet

(10.1.30.1) to each of the other subnets would establish the necessary connectivity. Second, modifying the subnet mask to 255.255.255.128 for the IT and operations departments would provide the needed number of host addresses while maintaining subnet segregation.References: This solution is based on networking and subnetting principles, which are part of the foundational knowledge for cloud networking within the CompTIA Cloud+ framework.

NEW QUESTION # 174

Which of the following is used to deliver code quickly and efficiently across the development, test, and production environments?

- A. Snapshot
- B. Container image
- C. VM template
- D. Serverless function

Answer: B

Explanation:
A container image is used to deliver code quickly and efficiently across the development, test, and production environments. Container images are lightweight, standalone, executable software packages that include everything needed to run a piece of software, including the code, runtime, system tools, libraries, and settings. Reference: CompTIA Cloud+ Study Guide (Exam CV0-004) - Chapter on Cloud Deployment Methods

NEW QUESTION # 175

Which of the following situations would require a project manager to revise the communication plan during a project's execution?

- A. A change is approved that impacts the project schedule and budget
- B. The test results are not as expected
- C. A stakeholder requests some changes to the scope
- D. The team is unclear which meetings they should attend

Answer: D

Explanation:
If team members are confused about which meetings to attend, this indicates a flaw in the communication plan. Revising the plan ensures clear expectations on who participates in which communication events. Scope or schedule changes don't automatically require altering the communication plan.
Reference: CompTIA Project+ PK0-005 - Communication Planning & Updates; CompTIA Cloud+ CV0-004 Governance, Risk & Compliance domain.

NEW QUESTION # 176

......

DumpsReview insists on providing you with the best and high quality exam dumps, aiming to ensure you 100% pass in the actual test. Being qualified with CompTIA certification will bring you benefits beyond your expectation. Our CompTIA CV0-004 practice training material will help you to enhance your specialized knowledge and pass your actual test with ease. CV0-004 Questions are all checked and verified by our professional experts. Besides, the CV0-004 answers are all accurate which ensure the high hit rate.
