- A. Platform Events
- B. Custom Objects and Fields
- C. Store Configuration Component
- D. Site.com (from Experience Builder)
- E. Process Builder Flows

**Answer: B,C,E**

Explanation:

When moving a store from Sandbox to Production, the three components an Administrator needs to consider as part of the Change Sets include B. Store Configuration Component, which contains the store's setup and configuration settings; C. Custom Objects and Fields, which are used to extend the functionality and store custom data; and E. Process Builder Flows, which automate business

processes within the store. These components are crucial for ensuring the store's functionality and customizations are retained when moving to the production environment.

#### NEW QUESTION # 117

Which three configuration aspects must be set up outside the Commerce App in order to deploy and activate the full B2B Commerce experience both for internal and external users?

- A. Custom attributes
- B. Experience Sites
- C. Profiles and Permission Sets
- D. Salesforce CMS
- E. Multi-Factor Authentication

**Answer: B,C,E**

Explanation:

To deploy and activate the full B2B Commerce experience for internal and external users, the three configuration aspects that must be set up outside the Commerce App include B. Experience Sites, which involves configuring the digital experience platforms for users; C. Multi-Factor Authentication, which is a security measure to verify user identities; and D. Profiles and Permission Sets, which are essential for defining access controls and permissions for different types of users within the system.

#### NEW QUESTION # 118

An Administrator has completed setting up CMS workspace with images for one of their B2B Commerce sites. However, when trying to add an image to the Product record, the Administrator noticed there are no images available to select. What could be causing this to happen?

- A. The CMS workspace is still in draft status.
- B. The Administrator was not added as a contributor in the Store Administration page.
- C. The Content admin permission set was not assigned to the Administrator in Setup.
- D. CMS channel was never configured to connect the CMS workspace to the store.

**Answer: D**

Explanation:

If an Administrator is unable to select images for a Product record despite having set up a CMS workspace, it could be because D. CMS channel was never configured to connect the CMS workspace to the store. Without this connection, content from the CMS workspace, including images, is not available for use within the store.

#### NEW QUESTION # 119

What is the limit on the category hierarchy in terms of child records in B2B Commerce?

Choose 7 option.

Send a comment about this question

- A. 4.0
- B. 2.0
- C. 5.0
- D. 3.0

**Answer: C**

Explanation:

The limit on the category hierarchy in terms of child records in B2B Commerce is C. 5.0. This means that within the category structure, a parent category can have up to five levels of child categories beneath it. This hierarchical structure allows for organizing products into categories and subcategories, providing a clear and navigable structure for users.

#### NEW QUESTION # 120

An Administrator is analyzing requirements around a customer's category hierarchy for a multi-language site. They have a set of 110 categories which contain many child categories.

Which consideration should the Administrator keep in mind prior to implementation?

- A. Only 50 categories can be localized per language
- B. There is a limit of 100 categories total across all languages
- **C. There is a depth limit for the number of child categories**
- D. There is a limit of 50 categories total across all languages

**Answer: C**

Explanation:

When implementing a category hierarchy for a multi-language site with many child categories, an important consideration is C. There is a depth limit for the number of child categories. Salesforce B2B Commerce imposes limits on the depth of the category hierarchy, affecting how deeply nested child categories can be structured within the overall category architecture.
