PRINCE2 P3O Foundation Project Office 2013 Exam Sample Questions (Q11-Q16):

NEW QUESTION # 11

Which is a section of the Blueprint?

- A. Processes (including operational costs and performance levels)
- **B. Vision Statement**
- C. Business process swimlanes
- D. Information portal

Answer: B

Explanation:

The P3O Foundation (2013) manual identifies the Vision Statement as a section of the Blueprint. Section 4.3.3 states, "The Blueprint includes a Vision Statement that outlines the desired future state of the P3O model, guiding its development and implementation." This differs from business process swimlanes (A), which are tools, information portals (B), which are delivery mechanisms, and processes (D), which are detailed operational elements. The 2013 edition emphasizes the Vision Statement's role in setting strategic direction within the Blueprint, a key implementation document. This ensures alignment with organizational goals throughout the P3O lifecycle.

NEW QUESTION # 12

Which is a purpose of measuring Key Performance Indicators for a P3O?

- **A. Demonstrate a P3O's successes to the organization**
- B. Identify the resources required within a P3O
- C. Determine project progress against its plan
- D. Identify areas of personal improvement for Project Managers

Answer: A

Explanation:

Measuring Key Performance Indicators (KPIs) for a P3O aims to demonstrate its successes to the organization, as per the P3O Foundation (2013) manual. Section 7.3.1 states, "KPIs are used to measure and demonstrate the P3O's contribution and success to the organization, providing evidence of value delivery." This differs from determining project progress (B), identifying resources (C), or personal improvement (D), which are specific to project or individual roles. The 2013 edition emphasizes KPIs as a strategic tool to justify the P3O's existence and effectiveness, focusing on outcomes like strategic alignment and benefit realization. This ensures organizational buy-in and continuous improvement.

Reference: P3O Foundation (2013) manual, Section 7.3.1, AXELOS.

NEW QUESTION # 13

Which is NOT a strategic planning or portfolio support function?

- **A. Providing a single flexible resource pool**
- B. Aligning programmes with strategic objectives
- C. Prioritizing programmes within the portfolio
- D. Providing oversight, scrutiny and challenge

Answer: A

Explanation:

The P3O Foundation (2013) manual lists prioritizing programmes, aligning with objectives, and providing oversight as strategic planning or portfolio support functions, but not providing a flexible resource pool.

Section 2.2.2 states, "Strategic planning and portfolio support functions include prioritizing programmes, aligning with strategic objectives, and providing oversight and challenge." A resource pool (B) is a delivery support function (Section 7.2), not a strategic one. The 2013 edition distinguishes these roles to clarify P3O's multifaceted support, ensuring strategic functions focus on direction and governance, not resource allocation.

Reference: P3O Foundation (2013) manual, Sections 2.2.2 and 7.2, AXELOS.

NEW QUESTION # 14

How does a P3O typically deliver an information portal to the PPM community?

- A. By appropriate capacity planning for resource management
- B. By documenting business process swimlanes
- C. Using programme and project management forums
- **D. Through an intranet site showing templates and guidance**

Answer: D

Explanation:

The P3O Foundation (2013) manual specifies that a P3O typically delivers an information portal via an intranet site with templates and guidance. Section 6.2.2 states, "The P3O delivers an information portal to the PPM community through an intranet site, providing access to templates, guidance, and best practices." This differs from process swimlanes (B), forums (C), or capacity planning (D), which serve other purposes. The

2013 edition emphasizes this centralized access to enhance collaboration and standardize PPM practices. This approach ensures efficient knowledge sharing across the organization.

Reference: P3O Foundation (2013) manual, Section 6.2.2, AXELOS.

NEW QUESTION # 15

Which is an underlying success factor for a Temporary Office model?

- A. Programmes or projects develop their own templates
- B. P3M3 maturity level of 3 or above
- C. Programme or project culture does not exist
- **D. Consistent PPM training through approved training providers**

Answer: D

Explanation:

The P3O Foundation (2013) manual identifies consistent PPM training through approved providers as a success factor for a Temporary Office model. Section 5.3.3 states, "A critical success factor for a Temporary Office is consistent PPM training delivered by approved training providers to ensure staff competence throughout the office's lifecycle." This differs from requiring a high P3M3 maturity (B), which is not mandatory, developing templates (C), which risks inconsistency, or lacking culture (D), which is undesirable.

The 2013 edition emphasizes training to maintain quality and alignment during the temporary office's operation. This ensures effective support for programmes or projects, enhancing delivery outcomes.
