Professional PDII-JPN Hot Questions - Easy and Guaranteed PDII-JPN Exam Success

This way you can get knowledge about the Salesforce PDII-JPN exam environment beforehand. Windows computers support the

Salesforce PDII-JPN desktop practice exam software. It works offline whereas the web-based PDII-JPN Practice Test requires an active internet connection. Major browsers and operating systems support the online PDII-JPN mock exam.

Salesforce Sample Questions (Q78-Q83):

NEW QUESTION # 78

テストクラスで Visualforce ページを
初期化するベストプラクティスは何ですか?

- A. コントローラーを使用します。現在のページ。setPage (MyTestPage);
- B. テストを使用します。currentPage .getParameters put (MyTestPage);
- C. テストを使用します。setCurrentPage MyTestPage;
- D. テストを使用します。setCurrentPage (Page.MyTestPage);

Answer: D

Explanation:

The best practice to initialize a Visualforce page in a test class is to use Test.setCurrentPage(Page.MyTestPage). This method sets the current page context for the test class and allows the developer to access the page parameters, controller variables, and standard controller methods. This way, the developer can test the functionality and behavior of the Visualforce page and its controller in different scenarios. The other options are either invalid syntax or do not set the current page context. Reference: [Test.setCurrentPage Method], [Testing Custom Controllers and Controller Extensions], [Testing Visualforce Controllers]

NEW QUESTION # 79

見積および注文プロセスの一環として、企業は OAuth 2.0 をサポートするドキュメントストレージシステムの REST エンドポイントに POF を送信する必要があります。PDF を送信するには、各 Salesforce ユーザーがドキュメントストレージシステムで個別に認証される必要があります。
開発者が REST エンドポイントに認証を実装する最適な方法は何ですか?

- A. OAuth トークン カスタム フィールドを使用した階層カスタム設定
- B. OAuth 認証プロバイダーを使用した名前付き資格情報
- C. パスワード認証を使用した名前付き資格証明
- D. 2 つのパスワードカスタムフィールドを使用した階層カスタム設定

Answer: B

Explanation:

Named Credentials with OAuth handle secure API calls. Individual authentication for each user with OAuth 2.0 is managed through Named Credentials. References: Named Credentials as Callout Endpoints

NEW QUESTION # 80

Universal Containers は、Lightning Web コンポーネントとその Apex コントローラを分析しています。コードスニペットに基づいて、Lightning Web コンポーネントで取引先責任者の郵送先住所を表示するには、どのような変更を加える必要がありますか?

Apex コントローラクラス:

ジャワ

共有クラス AccountContactsController を持つパブリック {

@AuraEnabled

パブリック静的リスト<連絡先> getAccountContacts(String accountId) {

[SELECT Id, Name, Email, Phone FROM Contact WHERE AccountId = :accountId] を返します。

}

}

- A. Apex コントローラ クラスに新しいメソッドを追加して、郵送先住所を個別に取得します。
- B. lightning-datatable コンポーネントを拡張して、MailingAddress フィールドの列を追加します。
- C. getAccountContacts メソッドの SOQL クエリを変更して、MailingAddress フィールドを含めます。
- D. getAccountContacts メソッドの SOQL クエリを変更して MailingAddress フィールドを含め、JavaScript ファイルの columns 属性を更新して郵送先住所フィールドを追加します。

Answer: D

Explanation:

To display new data in a lightning-datatable, changes are required at both the Data Retrieval (Apex) layer and the UI Definition (JavaScript) layer.

First, the SOQL query in the Apex controller must be updated to include the address fields. While MailingAddress is a compound field in Salesforce, in a SOQL query intended for a datatable, it is often best to retrieve the individual components (e.g., MailingStreet, MailingCity, MailingState).

Second, the JavaScript controller for the LWC must be updated. The columns array in the JS file defines which data properties the lightning-datatable looks for. Even if the Apex method returns the address data, the datatable will not render it unless there is a corresponding column definition with the correct fieldName property.

Option D correctly identifies this two-step process. Option B is incomplete because the UI wouldn't know to show the new data.

Option C is incorrect because you don't "extend" the component to add columns; you simply pass a configuration array. Option A is inefficient as it creates extra server round-trips for data that should be fetched in a single query. By aligning the SOQL fields with the datatable column definitions, the mailing address can be displayed seamlessly.

NEW QUESTION # 81

開発者は、外部 Web サービスへのコールアウトを行う必要があるコードを作成しています。コールアウトを非同期メソッドで行う必要があるのはどのシナリオですか？

- A. コールアウトが完了するまでに 60 秒以上かかる可能性があります。
- B. 1 回のトランザクションで 10 件を超えるコールアウトが行われます。
- C. コールアウトは REST API を使用して作成されます。
- D. コールアウトは Apex トリガで作成されます。

Answer: D

Explanation:

Callouts cannot be made from a synchronous context such as an Apex trigger because they might exceed the maximum execution time, leading to timeouts. Asynchronous methods, such as future or Queueable, are required to handle callouts from triggers.

References: Apex Developer Guide - Asynchronous Apex

NEW QUESTION # 82

Lightning Web コンポーネントを開発する場合、携帯電話などの小型デバイスでは lightning-layout-items を 1 列で表示し、タブレットサイズとデスクトップサイズの画面では 2 列で表示する設定はどれですか？

- A. size="6" mobile-device-size="12" を設定します。
- B. size="12" 媒体デバイスサイズ="6" を設定します。
- C. size="6" small-device-size="12" を設定します。
- D. size="12" タブレットデバイスサイズ="6" を設定します。

Answer: C

Explanation:

The correct setting to display lightning-layout-items in one column on small devices and in two columns on tablet-size and desktop-size screens is to set size="6" small-device-size="12". The size attribute specifies the relative width of the lightning-layout-item within the lightning-layout. The value can range from 1 to 12, where 12 takes the full width of the parent container. The small-device-size attribute specifies the relative width of the lightning-layout-item on small devices, such as mobile phones. The value can also range from 1 to 12. By setting size="6" small-device-size="12", the developer can make the lightning-layout-item take half of the width of the parent container on tablet-size and desktop-size screens, and the full width of the parent container on small devices. Reference: [lightning-layout-item Component], [lightning-layout Component]

NEW QUESTION # 83

.....

When you decide to pass PDII-JPN exam, you must want to find a good study materials to help you prepare for your exam. It is evident to all that the PDII-JPN test torrent from our company has a high quality all the time. A lot of people who have bought our products can agree that our PDII-JPN Test Questions are very useful for them to get the certification. There have been 99 percent

people used our PDII-JPN exam prep that have passed their exam and get the certification, more importantly, there are signs that this number is increasing slightly.
