You can trust the L5M1 practice test and start this journey with complete peace of mind and satisfaction. The L5M1 exam PDF questions will not assist you in Managing Teams and Individuals (L5M1) exam preparation but also provide you with in-depth knowledge about the Managing Teams and Individuals (L5M1) exam topics. This knowledge will be helpful to you in your professional life. So Managing Teams and Individuals (L5M1) exam questions are the ideal study material for quick CIPS L5M1 exam preparation.

CIPS L5M1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Assess the Application of Management Concepts and Principles in a Procurement and Supply Function: This section of the exam measures skills of Procurement Managers and focuses on applying management principles within procurement and supply operations. Candidates are tested on aligning team knowledge, skills, and behaviours with organisational strategy, defining the scope of operations, and developing teams. The syllabus also includes managing stakeholder relationships, building trust, promoting collaboration, fostering a culture of learning, sharing procurement knowledge, professional development, and the importance of personal behaviours such as unbiased decision-making, communication, creativity, and reflective practice to enhance procurement and supply effectiveness.
Topic 2	<ul style="list-style-type: none"> Understand and Apply Approaches to Planning and Managing Work Groups or Teams: This section of the exam measures skills of Team Leaders and covers the dynamics and effectiveness of work groups or teams. Candidates are tested on understanding group vision, values, norms, and alignment, as well as formal and informal group structures. The syllabus includes strategies for developing effective teams, team roles, self-managed teams, virtual team management, diversity benefits, and conflict management. It also assesses knowledge of team development, learning integration, role congruence, and approaches for merging, disbanding, or changing teams.

Topic 3	<ul style="list-style-type: none"> • Understand, Analyse, and Apply Management and Organisational Approaches: This section of the exam measures skills of Operations Managers and covers the understanding and evaluation of organisational behaviour and management approaches. It assesses knowledge of individual and team behaviour, organisational structures, and the psychological contract, as well as factors like STEEPLD influences. Candidates are tested on traditional and contemporary management approaches, including administrative, scientific, and human relations methods, as well as postmodernism, socio-technical systems, and distributed leadership. The role of individuals, teams, and organisational culture in shaping behaviour is also evaluated.
Topic 4	<ul style="list-style-type: none"> • Understand and Apply Approaches to Managing Individuals: This section of the exam measures skills of HR Managers and focuses on managing individual behaviour effectively. It examines how differences in behavioural characteristics affect management style and approach, highlighting diversity, emotional intelligence, and assessment techniques for development. The section also covers the creation and management of knowledge, formal and informal learning processes, cognitive and behavioural learning theories, motivation theories including intrinsic and extrinsic factors, and factors influencing job satisfaction such as job design, collaboration, and flexible working arrangements.

CIPS Managing Teams and Individuals Sample Questions (Q33-Q38):

NEW QUESTION # 33

Caleb is the newly appointed CEO of Star Fish Limited, a company that manufactures and installs gym equipment. The company employs 100 people and has dedicated teams for Finance, Product Development and Procurement. Some staff work from the office and some staff work remotely from home. Contrast and provide an example of a formal and informal group that may form at this organisation. What factors should Caleb be aware of that can contribute to group formations? (25 points)

Answer:

Explanation:

See the Explanation for Detailed Answer

Explanation:

Formal vs Informal Groups (10-12 marks):

Formal groups are those deliberately created by management to achieve organisational objectives. They have defined structures, roles, and reporting lines. In Star Fish Ltd, examples include the Procurement Team, responsible for sourcing suppliers and managing contracts. This group has clear goals, formal leadership, and measurable outputs.

By contrast, informal groups arise naturally among employees based on social interactions, common interests, or personal relationships. They are not officially sanctioned but strongly influence behaviour. At Star Fish Ltd, an example could be a fitness club of employees who exercise together during breaks or a WhatsApp group among remote workers who support each other socially. These groups provide belonging and morale but may also resist management decisions if excluded.

Factors Influencing Group Formation (12-15 marks):

Common goals and tasks - People working on shared objectives, such as the Product Development Team working on new gym equipment, naturally form groups.

Geography and work arrangements - Staff working remotely may form virtual support groups, while office-based staff bond more through daily interactions.

Shared interests and values - Employees passionate about fitness or sustainability may form informal networks within the company.

Friendship and social needs - Based on Maslow's hierarchy, people seek belonging. Friendships often develop into informal groups.

Leadership and influence - Charismatic or respected individuals may attract followers, leading to informal group formation around their personality.

Organisational culture - A collaborative culture encourages group formation for teamwork, while a competitive culture may create

cliques or rival groups.

Technology and communication platforms - With remote work, online groups (Teams, Slack, WhatsApp) facilitate informal interaction and knowledge sharing.

Conclusion:

At Star Fish Ltd, formal groups like the Procurement Department are designed to deliver organisational objectives, while informal groups such as fitness clubs or virtual chat groups form naturally. Caleb must recognise that both types of groups are powerful. Formal groups deliver results, but informal groups influence morale, motivation, and resistance to change. By understanding the factors driving group formation, Caleb can harness both to build cohesion, encourage collaboration, and support the organisation's success.

NEW QUESTION # 34

Describe what is meant by a group 'norm', giving examples. (10 points). In what way can group norms affect performance? (15 points).

Answer:

Explanation:

See the Explanation for Detailed Answer

Explanation:

Definition of Group Norms (10 marks):

A group 'norm' refers to the shared standards of behaviour, values, and expectations that develop within a group. Norms guide how members act and interact, creating predictability and cohesion. They can be formal (set by rules and policies) or informal (emerging naturally over time).

Examples include:

A procurement team having a norm of punctuality for meetings.

A social norm where colleagues share supplier insights openly.

A negative norm, such as tolerating late submission of purchase orders, which may undermine performance.

Norms act as unwritten rules that shape group behaviour and influence the culture of the organisation.

Impact of Group Norms on Performance (15 marks):

Positive norms can enhance performance. For example, a norm of collaboration and knowledge sharing improves innovation and decision-making in procurement projects.

Negative norms can reduce performance. If the team develops a culture of cutting corners in supplier evaluation, this may damage compliance and reputation.

Norms create consistency and cohesion. Members know what is expected of them, reducing conflict and ensuring smoother teamwork.

Peer pressure reinforces norms. High-performing norms, such as meeting deadlines, encourage all members to contribute fully, while low-performing norms, like tolerating absenteeism, can lower standards across the team.

Norms influence motivation and morale. Supportive norms (e.g., recognising achievements) motivate employees, whereas destructive norms (e.g., ignoring contributions) lead to alienation and disengagement.

In procurement specifically, if the norm is strong ethical conduct, the team will collectively avoid corruption risks. If the norm is to focus only on cost savings, the team may neglect sustainability or supplier relationships.

Conclusion:

Group norms are the unwritten rules that shape behaviour within teams. They can have a powerful effect on performance, either enhancing collaboration and accountability or reducing standards and morale. Managers must actively shape positive norms through leadership, communication, and role-modelling to ensure that group behaviour supports organisational goals.

NEW QUESTION # 35

(Explain 5 different metaphors that can be used to describe an organisation)

Answer:

Explanation:

See the Explanation for Detailed Answer

Explanation:

Organisations can be understood in many different ways through metaphors, which help managers and leaders interpret behaviour, culture and performance. Morgan's metaphors are widely used to explain these perspectives. Five key metaphors are explained below.

The first metaphor is the organisation as a machine. Here the business is seen like a well-oiled mechanism with standardised

processes, clear rules, hierarchy and repeatable outputs. This works well for efficiency and control, for example in a procurement shared services function, but can be rigid and demotivating if flexibility and creativity are required.

The second is the organisation as an organism. This views the business as a living system that must adapt to its environment. Structures, processes and leadership styles must "fit" the context, whether technological, market-driven or human needs. In procurement, this could be seen when category teams adapt to sudden supply market changes, showing flexibility to survive in a dynamic environment.

The third is the organisation as a brain. This emphasises learning, feedback loops, and knowledge-sharing, where continuous improvement and innovation are central. Leaders encourage collaboration, reflection and data-driven decision-making. For procurement, this might be using spend analytics, lessons learned from supplier negotiations, and knowledge sharing across teams to improve sourcing strategies.

The fourth metaphor is the organisation as a culture. This highlights the shared values, beliefs and rituals that shape "how things are done." Leadership here involves role-modelling behaviours, building ethical cultures, and maintaining consistency between words and actions. In procurement, culture may show through an organisation's commitment to ethical sourcing, sustainability, and supplier diversity.

Finally, the organisation as a political system sees it as an arena of power and influence where decisions are made through negotiation, persuasion and coalition-building. Managers must understand power bases and stakeholder interests. In procurement, for instance, winning senior approval for a sourcing strategy may require influencing finance, operations, and CSR teams with different agendas.

In summary, each metaphor offers insights into how organisations function. The machine focuses on control, the organism on adaptability, the brain on learning, the culture on shared values, and the political system on power and influence. Good leaders in procurement should recognise that all these metaphors may apply in different situations, and use them to manage individuals and teams more effectively.

NEW QUESTION # 36

ABC Ltd is a software development company and employs around 100 people. It's executive Board of Directors is considering investing more resources in employee development. Briefly describe what is meant by employee development and explain the positive impacts of lifelong learning (25 points).

Answer:

Explanation:

See the Explanation for Detailed Answer

Explanation:

Part A - Employee Development (5-8 marks):

Employee development refers to the ongoing process of improving staff knowledge, skills, and behaviours to enhance their performance and career progression. It includes both formal methods such as training courses, mentoring, and professional qualifications, and informal methods such as on-the-job learning, self-directed study, and peer collaboration. For ABC Ltd, employee development could mean providing software engineers with technical training, leadership coaching, or professional certifications to improve capability and engagement.

Part B - Positive Impacts of Lifelong Learning (15-18 marks):

Improved performance and productivity: Continuous learning ensures employees remain skilled in the latest technologies, enabling ABC Ltd to deliver innovative software solutions and maintain competitiveness.

Employee motivation and morale: When staff see the company investing in their development, they feel valued, which increases engagement and reduces alienation.

Retention and loyalty: Lifelong learning encourages employees to stay with the organisation as they see opportunities for growth, reducing turnover costs.

Adaptability and resilience: In fast-moving sectors such as software, continuous learning helps staff adapt to new tools, coding languages, and market changes, ensuring the business remains agile.

Innovation and creativity: Learning stimulates new ideas and problem-solving approaches, leading to more effective solutions in product development and project delivery.

Career progression and leadership pipeline: Lifelong learning develops not only technical skills but also soft skills such as communication, negotiation, and leadership, building the next generation of managers.

Conclusion:

Employee development is about building skills, knowledge, and behaviours to improve individual and organisational performance. Lifelong learning delivers multiple benefits, including productivity, innovation, motivation, and retention. For ABC Ltd, investing in continuous development will strengthen competitiveness, employee satisfaction, and long-term organisational success.

NEW QUESTION # 37

Describe the key principles of the Taylorism school of thought on Management (20 points)

Answer:

Explanation:

See the Explanation for Detailed Answer

Explanation:

The Taylorism school of thought, also known as Scientific Management, was developed by Frederick Winslow Taylor in the early 20th century. It aimed to improve efficiency and productivity by applying systematic, scientific methods to the management of work. Its key principles can be summarised as follows.

The first principle is the scientific study of work. Taylor rejected traditional "rule of thumb" methods, instead advocating time-and-motion studies to identify the most efficient way of completing tasks. This broke jobs into smaller, measurable steps.

Secondly, Taylor emphasised the division of labour and specialisation. Workers should focus on narrowly defined tasks, allowing them to become faster and more efficient, similar to parts in a machine.

Thirdly, he argued for scientific selection and training of workers. Instead of leaving workers to train themselves, managers should select the right person for the job and provide formal training in the "one best way" to complete tasks.

Fourthly, Taylor stressed managerial control and supervision. He believed management should plan, organise and set methods, while workers should focus on carrying them out. This created a strong separation between planning and execution.

Finally, Taylor promoted financial incentives as motivators. He assumed that workers are primarily motivated by pay, so piece-rate systems and performance-based rewards were used to encourage higher output.

Taylorism brought many benefits, such as increased productivity, efficiency, and predictability in mass production industries.

However, it also attracted criticism for treating workers like machines, reducing autonomy, and ignoring social and psychological needs. From a modern procurement perspective, its ideas are still visible in standardised processes such as purchase-to-pay systems, KPIs, and efficiency-driven shared services. However, organisations today often balance these principles with more human-centred approaches to motivation and teamwork.

In conclusion, the key principles of Taylorism were scientific analysis of work, specialisation, scientific selection and training, strict managerial control, and financial incentives. While its focus on efficiency shaped early management thinking, modern leaders must also consider motivation, empowerment, and adaptability to achieve sustainable success.

NEW QUESTION # 38

.....

As for CIPS L5M1 exam, it is the most difficult to pass. But, as long as you believe in ExamcollectionPass, everything is ok.

ExamcollectionPass CIPS L5M1 exam simulations contain the most accurate questions and answers. If you don't believe our CIPS L5M1 certification training, you can go to our ExamcollectionPass. You can find pdf real questions and answers and download it.

And the purchase rate is unbelievably high every day. By choosing it, pass rate is 100%. Hurry up! Don't hesitate to add our CIPS L5M1 Dumps Torrent to your shopping cart.
