Microsoft PL-400, also known as the Microsoft Power Platform Developer Exam, is designed to validate a candidate's expertise in building and implementing solutions using the Microsoft Power Platform. PL-400 exam measures various skills and knowledge required for developing complex business solutions, including creating custom user interfaces, integrating data, automating processes, and extending the functionality of applications.

Microsoft Power Platform is a suite of tools that allows organizations to build and deploy custom business applications. It includes Power Apps for building custom apps, Power Automate for creating workflows, and Power BI for data analytics and reporting. The PL-400 Exam is intended for developers who have experience with these tools and want to take their skills to the next level. It is also suitable for professionals who want to demonstrate their expertise in building solutions with Microsoft Power Platform.
