

# 2026 Accurate Fortinet Reliable FCP\_FMG\_AD-7.6 Exam Question

BTW, DOWNLOAD part of BraindumpsVCE FCP\_FMG\_AD-7.6 dumps from Cloud Storage: [https://drive.google.com/open?id=1CAqv6H\\_trMJAeKjsgdnSt53SLefMwPJA](https://drive.google.com/open?id=1CAqv6H_trMJAeKjsgdnSt53SLefMwPJA)

We will be happy to assist you with any questions regarding our products. Our FCP\_FMG\_AD-7.6 practice exam BraindumpsVCE helps to prepare applicants to practice time management, problem-solving, and all other tasks on the standardized FCP\_FMG\_AD-7.6 Exam and lets them check their scores. The FCP\_FMG\_AD-7.6 results help students to evaluate their performance and determine their readiness without difficulty.

## Fortinet FCP\_FMG\_AD-7.6 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Policy and Objects: This section of the exam measures the skills of System Administrators and evaluates their ability to manage policies and objects within FortiManager. It involves ADOM revisions, workspace mode, and policy imports and installations, emphasizing consistent policy control across networks.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Troubleshooting</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>This section of the exam measures the skills of System Administrators and focuses on resolving problems at different levels of FortiManager. Candidates must troubleshoot deployment scenarios, imports, installations, and both device-level and ADOM-level issues, as well as identify and resolve system problems effectively.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Advanced Configuration: This section of the exam measures the skills of Network Security Engineers and includes knowledge of high availability (HA), FortiGuard service configuration, and global database ADOM settings. These advanced functions help strengthen system reliability and streamline management at a larger scale.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Administration: This section of the exam measures the skills of System Administrators and covers the essential features of FortiManager. It includes the initial configuration process and the setup of administrative domains (ADOMs), ensuring smooth system management.</li> </ul>

# Valid FCP\_FMG\_AD-7.6 Exam Answers, FCP\_FMG\_AD-7.6 Free Braindumps

Are you looking to pass FCP - FortiManager 7.6 Administrator with high marks? You can check out our detailed FCP\_FMG\_AD-7.6 PDF questions dumps to secure desired marks in the exam. We constantly update our FCP - FortiManager 7.6 Administrator test products with the inclusion of new FCP\_FMG\_AD-7.6 brain dump questions based on expert's research. If you spend a lot of time on the computer, then you can go through our FCP\_FMG\_AD-7.6 dumps PDF for the FCP\_FMG\_AD-7.6 to prepare in less time.

## Fortinet FCP - FortiManager 7.6 Administrator Sample Questions (Q49-Q54):

### NEW QUESTION # 49

What are two outcomes of ADOM revisions? (Choose two.)

- A. ADOM revisions do not increase the size of configuration backups.
- B. ADOM revisions appear in the Install Policy & Package Settings section of the install wizard.
- C. ADOM revisions can save the current state of all policy packages and objects for an ADOM.
- D. ADOM revisions can save the current state of the entire ADOM.

Answer: A,C

Explanation:

Note that an ADOM revision is a snapshot of the entire ADOM and not the changes specific to this policy package.

Warning: Keep in mind that ADOM revisions can significantly increase the size of the configuration backup.

### NEW QUESTION # 50

Refer to the exhibits. An administrator needed to recover all the configurations related to the user, Support. The configurations were saved in configuration revision ID 9.

**Device Revision Diff wizard**

Revision ID: 11		Revision ID: 9	
Total	12696	Total	12704
Deleted	0	Added	8
Modified	0	Modified	0

```
8500 end
8501 config user group
8502 set service ALL
12155 set comments "test"
8500 end
8501 config user local
8502 edit "Support"
8503 set type password
8504 set two-factor email
8505 set email-to "support@mail.com"
8506 next
8507 end
8508 config user group
12161 set service "ALL"
12162 set users "Support"
12163 set comments "test"
```

Buttons: Save Diff as Script, Show Full Diff, Cancel

CLI output

```
FortiManager # diagnose dvm device list
--- There are currently 6 devices/vdoms managed ---
--- There are currently 6 devices/vdoms count for license ---

TYPE      OID  SN              HA  IP          NAME      ADOM  IPS          FIRMWARE  HW_GenX
fmgfaz-managed 188  FGVMO2TM24013504 - 100.65.1.111 BR1-FGT-1 My_ADOM 7.0 MR6 (3401) N/A
- STATUS: dev db: not modified; conf: in sync; cond: OK; dm: installed; conn: up; template:[installed]default
- vdom:[3]root flags:0 adom:My_ADOM pkg:[unknown]BR1-FGT-1
```

The administrator reverted the configuration using the Configuration Revision History window and received the CLI output shown in the exhibit.

What can you conclude from the CLI output?

- A. The administrator installed only the device-level configuration.
- **B. The administrator needs to retrieve the device to correctly detect the FortiGate firmware version.**
- C. The administrator set the flag to 0 to prevent configuration overrides.
- D. The administrator reinstalled the policy package.

**Answer: B**

Explanation:

The CLI output shows the status "dev-db: not modified; conf: in sync; cond: OK; dmr: installed," but the firmware version for the device is listed as "[unknown]." This indicates that FortiManager has not properly detected the FortiGate firmware version, likely because the device needs to be retrieved to update its information.

### NEW QUESTION # 51

Refer to the exhibits. What can you conclude, based on the configuration shown in the exhibit?

#### Managed FortiGate devices

<input type="checkbox"/>	Device Name ↕
<input type="checkbox"/>	Training
<input type="checkbox"/>	ISFW
<input type="checkbox"/>	root [NAT] (Management)
<input type="checkbox"/>	Student [NAT]
<input type="checkbox"/>	Trainer [NAT]
<input type="checkbox"/>	Local-FortiGate*

#### FortiManager policy package

<input type="checkbox"/>	Installation Target ↕
<input type="checkbox"/>	Local-FortiGate
<input type="checkbox"/>	ISFW
<input type="checkbox"/>	root [NAT] (Management)
<input type="checkbox"/>	Trainer [NAT]
<input type="checkbox"/>	Student [NAT]

## FortiManager policy package

#	Name	Install On	From	To
1	Ping_Access	ISFW (root) ISFW (Student)	port3	port1
2	Web	Local-FortiGate (root) ISFW (Student)	port3	port1
3	Source_Device	Installation Targets	port3	port1
Implicit (4/4 Total:1)				
4	Implicit Deny	Installation Targets	any	any

- A. Policy sequence #1 will be installed on the internal segmentation firewall (ISFW) device root [NAT] and Trainer [NAT] VDOMs.
- **B. The global policy package will be added to the top of the ISFW policy package.**
- C. The administrator needs to retrieve the Local-FortiGate configuration to sync with the Security Fabric group, Training.
- D. Policy sequence #3 must have devices or VDOMs listed in the Install On column; otherwise, it will cause errors.

**Answer: B**

Explanation:

In FortiManager, when a global policy package is assigned to a local ADOM policy package, it is typically inserted at the top of the local policy sequence. This allows global rules (such as compliance or baseline security policies) to be enforced before local rules. So, if the exhibit shows that a global policy is linked to the ISFW policy package, it will be added to the top of that package during installation.

## NEW QUESTION # 52

Refer to the exhibit.

```
FortiManager # config system global
(global)# set workspace-mode normal
(global)# end
FortiManager #
```

What are two results from the configuration shown in the exhibit? Choose two answers.

- **A. The same administrator can lock more than one ADOM at the same time.**
- B. All changes must be approved before they can be installed on a device.
- **C. Concurrent read-write access to an ADOM is disabled.**
- D. Multiple administrators can lock and work on separate ADOMs at the same time.

**Answer: A,C**

Explanation:

The command set workspace-mode normal enables Workspace (ALL ADOMs) . The study guide explicitly states that with this mode, "Workspace (ALL ADOMs): All ADOMs can be locked" and that enabling workspace mode "Disables concurrent read/write access to locked items" with "Read/write access for only one administrator-all others have read-only access." That directly proves D .

A is also verified by the lab guide, which states: "If an administrator locked one or more ADOMs, and then logs out of FortiManager, all of those ADOMs are unlocked." The phrase "one or more ADOMs" confirms that the same administrator can lock more than one ADOM at the same time.

C is incorrect because approval is required only in workflow mode , not in workspace normal.

### NEW QUESTION # 53

Push updates are failing on a FortiGate device located behind a network address translation (NAT) device?  
Which two settings should the administrator check to correct this problem? (Choose two.)

- A. Make sure FortiGuard updates and web service are enabled on the FortiGuard service interface.
- **B. Make sure the NAT device IP address and the correct ports are configured on FortiManager.**
- **C. Make sure the virtual IP address and the correct ports are configured on the NAT device.**
- D. Make sure the Bind to IP address option on the FortiGuard service interface is set to the virtual IP address from the NAT device.

**Answer: B,C**

Explanation:

What if FortiManager is behind a NAT device?

If FortiManager is behind a NAT device, sending its IP address for push updates causes push updates to fail because this is a non-routable IP address from the FDN. You must configure the following:

- \* On FortiManager, configure the NAT device IP address and port used for push updates.
- \* On the NAT device, configure the virtual IP and port that forwards to FortiManager.device.

### NEW QUESTION # 54

.....

We are here divide grieves with you to help you pass your Fortinet FCP\_FMG\_AD-7.6 exam with ease. You can abandon the time-consuming thought from now on. You won't regret your decision of choosing our Fortinet FCP\_FMG\_AD-7.6 study guide. In contrast, they will inspire your potential without obscure content to feel. After getting our FCP\_FMG\_AD-7.6 Exam Prep, you will not live under great stress during the FCP\_FMG\_AD-7.6 exam period.
