HP HPE7-A08 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Create the Implementation Plan for the Wired Network Solution: This section measures the skills of Network Designers who focus on understanding the HPE switching portfolio and selecting the right products to match various customer requirements. Candidates must also demonstrate the ability to create detailed and effective implementation plans based on given designs or customer scenarios to ensure successful wired network deployments.
Topic 2	<ul style="list-style-type: none"> • Install and Configure the Wired Network Solution: This domain evaluates the abilities of Network Engineers to provision and configure HPE Aruba Networking switches both via Aruba Networking Central and command-line interface. It covers physical switch setup, Layer 2 and Layer 3 configuration and validation, multicast features, security implementations, quality of service (QoS) settings, and integration of Aruba Networking solutions into existing environments.
Topic 3	<ul style="list-style-type: none"> • Manage, Maintain, Optimize, and Monitor the Wired Network Solution: This part measures the skills of Network Operations Engineers in managing and maintaining wired network infrastructures. It includes developing configuration management strategies, interpreting network operational data to make informed decisions, and programmatically auditing or configuring Aruba Networking switches to optimize performance and reliability.
Topic 4	<ul style="list-style-type: none"> • Troubleshoot the Wired Network Solution: Candidates in this section, typically Network Support Specialists, are tested on identifying common wired network failures such as IP or VLAN mismatches, hardware issues, or port misconfigurations. It also involves analyzing performance problems caused by QoS or configuration errors and formulating effective remediation plans to restore correct network operations.

Updated HP HPE7-A08 Exam Questions – Key to Your Career Growth

There are a lot of experts and professors in or company in the field. In order to meet the demands of all people, these excellent experts and professors from our company have been working day and night. They tried their best to design the best HPE7-A08 certification training dumps from our company for all people. By our study materials, all people can prepare for their HPE7-A08 exam in the more efficient method. We can guarantee that our study materials will be suitable for all people and meet the demands of all people, including students, workers and housewives and so on. If you decide to buy and use the HPE7-A08 Training Materials from our company with dedication on and enthusiasm step and step, it will be very easy for you to pass the exam without doubt. We sincerely hope that you can achieve your dream in the near future by the HPE7-A08 latest questions of our company.

HPE Aruba Networking Switching Professional Exam Sample Questions (Q90-Q95):

NEW QUESTION # 90

You would like to receive a monthly report tracking your available HPE Aruba Networking Central licenses and their expiration dates. Which report should you schedule?

- A. Switch Capacity Planning
- B. Resource Utilization
- C. **Infra Inventory**
- D. Network

Answer: C

Explanation:

To receive a monthly report tracking available licenses and their expiration dates in Aruba Central, the Infra Inventory report should be scheduled. It provides detailed information about device inventories, including licenses and expiration.

Switch Capacity Planning focuses on resource utilization.

Resource Utilization monitors system performance.

Network report focuses on topology and health.

NEW QUESTION # 91

Your company needs to run BGP in a multi-homed configuration to two ISPs, advertising a block of public address space you own. Which AS number would be an example of a suitable number?

- A. 0
- B. **1**
- C. 2
- D. 3

Answer: B

Explanation:

A multihomed Internet-facing BGP deployment requires a globally unique public autonomous system number. The value 63476 is within the public ASN range allocated for use on the Internet, making it suitable for advertising your own public IP space to multiple ISPs.

NEW QUESTION # 92

You have added a switch with existing configuration to an existing group in HPE Aruba Networking Central but the configuration is not synchronizing. What could cause this?

- A. Only switches with factory default config can be added to a group with existing config.
- B. The switch is still pending authorization on the organization settings page.
- C. The switch is configured in a VSX pair, which HPE Aruba Networking Central does not support.
- D. Aruba-central support mode has not been enabled locally on the switch.

Answer: D

Explanation:

For Central to push and synchronize configuration to a CX switch, the device must have Aruba Central support mode enabled locally, which allows the cloud controller to manage and overwrite the switch configuration.

NEW QUESTION # 93

While troubleshooting a scenario in which the customer has created a new VLAN on a primary HPE Aruba Networking CX 8100 VSX switch, only part of the traffic from the connected access switch over a LAG is working. Which troubleshooting methodology should you use to isolate the problem?

- A. Spot the difference by comparing the VSX switch configurations.
- B. Divide and conquer by rebooting the secondary VSX switch.
- C. Replace the configuration using the previous checkpoint on the primary VSX.
- D. Follow the path and check the connectivity from the access to the primary VSX.

Answer: A

Explanation:

Comparing the configurations of both VSX switches allows you to identify discrepancies that could cause partial traffic issues, such as missing VLAN or LAG settings, and isolate the root cause effectively.

NEW QUESTION # 94

Which two Aruba CX switch series provide high-speed uplinks for data center deployments? (Select two)

- A. Aruba CX 6200
- B. Aruba CX 9300
- C. Aruba CX 4100i
- D. Aruba CX 8400

Answer: B,D

Explanation:

The CX 8400 and CX 9300 offer 100GbE and 400GbE uplinks, enabling high-performance connectivity for spine-leaf architectures and large-scale data centers.

NEW QUESTION # 95

.....

In order to pass HP Certification HPE7-A08 Exam disposably, you must have a good preparation and a complete knowledge structure. ExamsTorrent can provide you the resources to meet your need.
