Crack the Salesforce NP-Con-101 Exam with Confidence

Some people are not good at operating computers. So you might worry about that the NP-Con-101 certification materials are not

suitable for you. Try to believe us. Our experts have taken your worries seriously. They have made it easy to operate for all people. Even if you know little about computers, you can easily begin to do exercises of the NP-Con-101 real exam dumps. Also, we have invited for many volunteers to try our study materials. The results show our products are suitable for them. In addition, the system of our NP-Con-101 test training is powerful. You will never come across system crashes. The system we design has strong compatibility. High speed running completely has no problem at all.

Salesforce Certified Nonprofit Success Pack Consultant Sample Questions (Q167-Q172):

NEW QUESTION # 167

A nonprofit using Volunteers for Salesforce on their website wants their volunteers to be able to update their contact information. What does the consultant need to configure to make this possible?

- A. In Setup, check Grant Guest Users Update Access
- B. Create and assign a new profile
- C. Change Organization-Wide Sharing setting for Contacts to Public
- D. Create a criteria-based sharing rule

Answer: A

Explanation:

To allow volunteers to update their contact information on the nonprofit's website using Volunteers for Salesforce (V4S), follow these steps:

Access Setup:

Navigate to Setup in Salesforce.

Enable Guest User Permissions:

Go to Sites and Domains > Sites.

Click on the site label for your volunteer portal.

Click on Public Access Settings.

Under Field Permissions, make sure the necessary fields (like Contact fields) have the correct read and write permissions for the guest user profile.

Grant Guest Users Update Access:

Ensure that "Grant Guest Users Update Access" is checked. This setting allows guest users, typically those who access your site without logging in, to update certain fields like their contact information.

Test the Configuration:

As a volunteer, navigate to the relevant page on the nonprofit's website.

Test updating the contact information to ensure that the changes are correctly reflected in Salesforce.

This configuration allows volunteers to update their contact details directly from the website, ensuring that the information in Salesforce is always up-to-date.

Salesforce Help Documentation: Sites and Public Access Settings.

NEW QUESTION # 168

A consultant is setting up several integrations for a nonprofit.

What strategy could the consultant implement to help prevent interruptions between the integration and Salesforce?

- A. Use the REST API with the REST Explorer to set up the integration.
- B. Create a user account solely for integrations.
- C. Create the integration using the SOAP API with My Domain enabled.
- D. Use the System Admin's user account for integrations.

Answer: B

Explanation:

To help prevent interruptions between integrations and Salesforce, creating a user account solely for integrations is a recommended strategy. Here's why and how to set it up:

Create a Dedicated Integration User:

Navigate to Setup > Users > Users.

Create a new user specifically for integration purposes.

Assign an appropriate profile with the necessary permissions for the integrations.

Benefits of a Dedicated Integration User:

Isolation of Permissions: The integration user can be given only the permissions required for the integrations, enhancing security.
Minimized Risk of Interruption: If individual user credentials are changed or users leave the organization, the integrations remain unaffected.

Audit and Monitoring: It is easier to monitor and audit integration activities when they are tied to a dedicated user account.

Set API Access for the Integration User:

Ensure that the profile assigned to the integration user has API access enabled.

Configure any necessary OAuth settings if using OAuth for authentication.

Test the Integration:

Use the integration user credentials to set up and test the integrations.

Ensure that the integrations are functioning correctly and that data is being transferred as expected.

By creating a dedicated integration user, you can ensure more stable and secure integration processes between Salesforce and other systems.

Salesforce Integration Best Practices: Integration Best Practices.

Salesforce User Management Guide: User Management.

NEW QUESTION # 169

A nonprofit organization has a new system administrator who has just taken over managing its existing Salesforce organization and wants to know which data maintenance practices should be used.

Which two data hygiene practices should a consultant recommend? Choose 2 answers

- A. Delete all past activities.
- B. Run Health Check.
- C. Organize reports into appropriate folders.
- D. Create a new custom object to store legacy data.

Answer: B,C

Explanation:

To ensure data hygiene and maintenance in Salesforce, it's essential to follow best practices that help in keeping the data clean and organized. Here are the detailed steps:

Organize Reports into Appropriate Folders:

Navigate to the Reports tab.

Create folders for different types of reports (e.g., Fundraising, Program Management).

Move existing reports into these folders for better organization.

Run Health Check:

Navigate to Setup.

In the Quick Find box, type "Health Check".

Run the Health Check to evaluate your org's security settings against Salesforce security baseline.

Review the findings and follow the recommendations to improve data security and compliance.

"Salesforce Health Check" from Salesforce Help: Health Check

NEW QUESTION # 170

Which resource should the consultant recommend to a non-profit organization to suggest new features in NPSP?

- A. Salesforce AppExchange
- B. Power of Us Hub
- C. Salesforce Help
- D. Trailblazer Community

Answer: B

Explanation:

For suggesting new features in NPSP, the recommended resource is:

Power of Us Hub: This is a community platform specifically for Salesforce.org customers. It includes forums, idea exchanges, and collaboration spaces where nonprofit users can suggest and discuss new features for NPSP.

The Power of Us Hub is the central place for engaging with the Salesforce nonprofit community and influencing future product

development.

NEW QUESTION # 171

A development associate received a corporate matching gift that the original donor did not indicate was to be matched. Which solution should the consultant recommend?

- A. Create a Contact lookup field on the Opportunity object.
- **B. Select Find Matched Gifts and click on the Find More Gifts button.**
- C. Create a Lightning quick action declaratively.
- D. Select Manage Soft Credits and change the Role for the donor.

Answer: B

Explanation:

When a corporate matching gift is received and the original donor did not indicate that it was to be matched, the consultant should recommend using the "Find Matched Gifts" feature. This feature helps in identifying and linking the matching gift to the original donation:

Select Find Matched Gifts: This option is available within the Nonprofit Success Pack (NPSP) and is designed to help match donations.

Click on the Find More Gifts button: This button will allow the development associate to search for and match the original donation with the corporate matching gift.

This process ensures that all matched gifts are accurately recorded and credited appropriately.
