### Salesforce Certified Education Cloud Consultant Sample Questions (Q159-Q164):

#### NEW QUESTION # 159

A primary school will implement Student Success Hub to support student needs from K-12. The school primarily needs to track students' families and communicate with the parents on issues.

Which default account model should the consultant recommend?

- A. Standard Account Model
- **B. Household Account Model**
- C. Administrative Account Model

**Answer: B**

Explanation:

The Household Account Model in EDA creates one account for each household and associates multiple contacts with that account. This model is suitable for tracking students' families and communicating with the parents on issues. The Household Account Model also provides features such as automatic household naming, address management, and rollup fields. The consultant should recommend this model for the primary school that will implement Student Success Hub. #### NEW QUESTION # 160

A large university integrates over one million student Consult records from its Student Information System (SIS) ..... The university has adopted the Education Data Architecture (EDA) Administrative account ..... Records in Salesforce is Integration User.

What should the consultant discuss with the university?

- A. Account data skew
- **B. Ownership data skew**
- C. OAuth token limits
- D. API call limits

**Answer: B**

Explanation:

Ownership data skew is what the consultant should discuss with the university, because it is a potential performance issue that can occur when a large number of records are owned by a single user. In this case, the Integration User owns over one million Contact records, which can cause slow or failed queries, reports, or list views. The consultant should advise the university to distribute the ownership of the records among multiple users or queues to avoid ownership data skew. API call limits, account data skew, and OAuth token limits are not relevant to this scenario. Reference:

### NEW QUESTION # 161

An institution's Office of Career Services wants a solution that allows students to schedule appointments with any available ..... directly from a portal.

Which feature should the consultant recommend to meet the requirement?

- **A. Advising Pools**
- B. Email to Case
- C. Success Teams
- D. Early Alerts

**Answer: A**

Explanation:

Advising Pools is a feature that allows students to schedule appointments with any available advisor directly from a portal. Advising Pools enables advisors to set their availability and preferences, and students to see which advisors match their needs and book appointments accordingly. Email to Case, Success Teams, and Early Alerts are not features that allow students to schedule appointments with advisors from a portal. Reference:

### NEW QUESTION # 162

The Advancement office is evaluating the capabilities of Education Cloud. The office needs to ingest, harmonize, and analyze batch data from its Education Cloud org and other systems.

Which solution should the consultant recommend?

- **A. Data Cloud**
- B. Flow with invocable action
- C. Data Processing Engine

**Answer: A**

Explanation:

Data Integration and Analysis:

Data Cloud (formerly known as Salesforce Customer 360 Data Manager) is designed for ingesting, harmonizing, and analyzing data from multiple sources.

It provides a centralized platform to manage batch data from Education Cloud and other systems.

Capabilities of Data Cloud:

Data Ingestion: Ability to import data from various sources including Education Cloud, ERP systems, and other databases.

Data Harmonization: Standardizes and merges data to create a unified view.

Data Analysis: Offers tools to analyze and visualize the harmonized data for insights.

Implementation Steps:

Enable Data Cloud: Work with Salesforce support to enable Data Cloud for your org.

Configure Data Sources: Set up connections to the various data sources.

Define Data Models: Create data models to harmonize data from different systems.

Setup Data Integration: Configure data integration processes to regularly ingest and update data.

Analyze Data: Use Data Cloud's analytics tools to generate insights from the unified data.

### NEW QUESTION # 163

Where can a customer find more information on Salesforce open-source and community sprint information?

- A. Trust.salesforce.com
- **B. Trailblazer Community**
- C. Partner Community

**Answer: B**

Explanation:

The customer can find more information on Salesforce open-source and community sprint information on Trailblazer Community. Trailblazer Community is a platform that connects Salesforce customers, partners, employees, and enthusiasts to learn, share, and collaborate on Salesforce topics and projects. Trailblazer Community provides information on Salesforce open-source and community sprint events, such as dates, locations, agendas, or registration links. The customer can also join groups, forums, or blogs related to Salesforce open-source and community sprint topics on Trailblazer Community. Trust.salesforce.com, Partner Community, or AppExchange are not platforms where the customer can find more information on Salesforce open-source and community sprint information. Reference:
