## SAP C\_BCFIN\_2502 Lab Questions & Test C\_BCFIN\_2502 Pass4sure

In order to survive better in society, we must understand the requirements of society for us. In addition to theoretical knowledge, we need more practical skills. After we use C\_BCFIN\_2502 practice guide, we can get the certification faster, which will greatly improve our competitiveness. Of course, your gain is definitely not just the C\_BCFIN\_2502 certificate. Our C\_BCFIN\_2502 study materials will change your working style and lifestyle. You will work more efficiently than others. Our C\_BCFIN\_2502 training materials can play such a big role.

## SAP Certified Associate - Positioning SAP Business Suite via SAP Financial Management Solutions Sample Questions (Q57-Q62):

### NEW QUESTION # 57

What is the primary function of SAP Business Data Cloud?

- A. To manage employee benefits
- B. To optimize supply chain operations
- C. To automate payroll processing
- D. To unify data from various sources

**Answer: D**

### NEW QUESTION # 58

What is the core function of the SAP Identity Access Governance solution?

- A. Performing risk assessments and strategic planning.
- B. Supporting adherence to regulatory requirements.
- C. Identifying, analyzing and neutralizing cyberattacks.
- **D. Managing user authorizations and permissions.**

**Answer: D**

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

SAP Identity Access Governance (IAG) is a cloud-based service that focuses specifically on the management of user authorizations and permissions across an organization's hybrid landscape. In a modern finance environment, where data privacy and security are paramount, IAG provides a centralized way to control "who can do what" within the SAP system. This is critical for maintaining internal controls and protecting sensitive financial information.

The solution automates the provisioning process and ensures that "Segregation of Duties" (SoD) is strictly maintained. For example, it can prevent a user from having both the permission to create a purchase order and the permission to approve it, which is a fundamental requirement to prevent internal fraud. By automating these checks, IAG reduces the workload on IT and Audit teams while significantly lowering the risk of unauthorized access. While it helps meet regulatory requirements (Option C) and contributes to overall security, its primary operational function is the precise governance of user identities and the enforcement of access policies to ensure that every user has exactly the permissions they need-and no more.

#### **NEW QUESTION # 59**

Which of the following is a key feature of SAP S/4HANA Finance?

- A. Manual reconciliation
- **B. Real-time analytics**
- C. Limited scalability
- D. Batch-based reporting

**Answer: B**

#### **NEW QUESTION # 60**

Which key area of Financial Management has a central focus on funding the business and supporting sustainable growth?

- A. Financial Planning & Analysis
- B. Governance, Risk, & Compliance
- **C. Treasury & Working Capital**
- D. Accounting & Financial Close

**Answer: C**

Explanation:

Comprehensive and Detailed 150 to 250 words of Explanation From Positioning SAP Business Suite via SAP Financial Management Solutions documents:

The Treasury & Working Capital pillar is uniquely positioned to focus on the liquidity and financial health required to fund business operations and long-term growth. While Accounting & Financial Close records what has happened and FP&A plans for what will happen, Treasury Management ensures the company has the actual capital available to execute those plans. This involves managing cash positions, optimizing bank relations, and mitigating financial risks such as currency fluctuations or interest rate volatility.

Sustainable growth is supported through efficient working capital management, which minimizes the amount of capital tied up in the "Cash Conversion Cycle." By optimizing accounts receivable and accounts payable through SAP's integrated tools, the CFO can free up internal cash flow to reinvest in the business without relying solely on external debt. Furthermore, modern SAP Treasury solutions include features for sustainable finance, helping organizations track and manage green bonds or ESG-linked loans. By providing real-time visibility into global cash across all entities, SAP Treasury & Working Capital enables the CFO to act as a strategic "Chief Value Officer," ensuring that the organization remains solvent, resilient, and ready to capitalize on new market opportunities.

### NEW QUESTION # 61

Which of the following is a key feature of SAP S/4HANA Finance?

- A. Real-time analytics
- B. Limited integration
- C. Manual data entry
- D. Batch processing

Answer: A

### NEW QUESTION # 62
