## Valid Real ZDTA Exam, Reliable ZDTA Test Answers

All these three Zscaler ZDTA exam questions formats contain the real, valid, and error-free Zscaler Digital Transformation Administrator (ZDTA) exam practice test questions that are ideal study material for quick Zscaler ZDTA Exam Preparation. Just choose the right TestKingIT Zscaler Digital Transformation Administrator Questions formats and download quickly and start Zscaler Digital Transformation Administrator (ZDTA) exam preparation without wasting further time.

## Zscaler Digital Transformation Administrator Sample Questions (Q37-Q42):

### NEW QUESTION # 37

Which of the following are types of device posture?

- A. Unauthorized Modification, OS Version, License Key
- B. Certificate Trust, File Path, Full Disk Encryption

- C. Detect Crowdstrike, Crowdstrike ZTA score, First name
- D. Domain Joined, Process Check, Deception Check

**Answer: A**

Explanation:

Types of device posture typically include attributes that reflect the security and compliance status of a device.

This includes Unauthorized Modification, which checks if the device has unauthorized changes; OS Version, verifying if the operating system is up-to-date; and License Key, confirming the validity of software licenses on the device. These attributes help in assessing device trustworthiness for access control.

Other options include some irrelevant attributes such as "First name" or product-specific detections not generally categorized as device posture in Zscaler's framework.

### NEW QUESTION # 38

How does a Zscaler administrator troubleshoot a certificate pinned application?

- A. They could inspect the ZIA Web Policy.
- B. They could look into the SaaS application analytics tab.
- **C. They could look at SSL logs for a failed client handshake.**
- D. They could reboot the endpoint device.

**Answer: C**

Explanation:

Certificate pinning prevents SSL interception by validating a server's certificate against known values. When ZIA performs SSL inspection, it substitutes the certificate with one signed by Zscaler's CA. This causes the handshake to fail for pinned applications. To troubleshoot, an administrator should review SSL logs to identify handshake failures, which indicate certificate pinning issues. Logs will show the TLS negotiation details, including any disruptions.

### NEW QUESTION # 39

When configuring an inline Data Loss Prevention policy with content inspection, which of the following are used to detect data, allow or block transactions, and notify your organization's auditor when a user's transaction triggers a DLP rule?

- A. Hosted PAC Files
- **B. DLP engines**
- C. VPN Credentials
- D. Index Tool

**Answer: B**

Explanation:

The inline DLP engines are responsible for inspecting content, identifying sensitive data matches, enforcing allow-or-block actions, and generating notifications (e.g., to your auditor) whenever a DLP rule is triggered.

### NEW QUESTION # 40

Can Notifications, based on Alert Rules, be sent with methods other than email?

- A. Leading ITSM systems can be connected to the Zero Trust Exchange using a NSS server, which will then connect to ITSM tools and forwards the alert.
- **B. In addition to email, text messages can be sent directly to one cell phone to alert the CISO who is then coordinating the work on the incident.**
- C. Email is the only method for notifications as that is universally applicable and no other way of sending them makes sense.
- D. In addition to email, notifications, based on Alert Rules, can be shared with leading ITSM or UCAAS tools over Webhooks.

**Answer: B**

Explanation:

Beyond email, Alert Rule notifications can be pushed via Webhooks to integrate with ITSM platforms or UCaaS tools, enabling real-time incident management and collaboration in your existing service desks or messaging systems.

#### NEW QUESTION # 41

Which of the following are types of device posture?

- A. Unauthorized Modification, OS Version, License Key
- B. Detect CrowdStrike, CrowdStrike ZTA score, First name
- C. Certificate Trust, File Path, Full Disk Encryption
- D. Domain Joined, Process Check, Deception Check

Answer: C

#### NEW QUESTION # 42

.....

In the past ten years, we always hold the belief that it is dangerous if we feel satisfied with our ZDTA study engine and stop renovating. Luckily, we still memorize our initial determination. We are proud that our ZDTA learning questions are so popular in the market. Please remember that all experiences will become your valuable asset in life. And it is never too late to learn more and something new. Just buy our ZDTA Exam Braindumps, you will find that you can reach your dream easily.

**Valid Real ZDTA Exam:** <https://www.testkingit.com/Zscaler/latest-ZDTA-exam-dumps.html>
