In order to gain more competitive advantages when you are going for a job interview, more and more people have been longing to get a CPC certification. They think the certification is the embodiment of their ability; they are already convinced that getting a CPC certification can help them look for a better job. There is no doubt that it is very difficult for most people to pass the CPC Exam and have the certification easily. If you are also weighted with the trouble about a CPC certification, we are willing to soothe your trouble and comfort you.

AAPC CPC Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • Hemic & Lymphatic Systems, Mediastinum, Diaphragm: This section of the exam measures the skills of medical coders and includes procedures related to the spleen, lymph nodes, bone marrow, as well as surgical interventions in the mediastinum and diaphragm. Coders must differentiate procedures by region and system accurately.
Topic 2	<ul style="list-style-type: none"> • Accurate ICD-10-CM Coding: This section of the exam measures the skills of medical coders and focuses on the precise assignment of diagnosis codes using the ICD-10-CM system. The goal is to ensure accurate representation of patient conditions, proper sequencing, and a clear linkage between diagnoses and services.
Topic 3	<ul style="list-style-type: none"> • Endocrine System and Nervous System: This section of the exam measures the skills of medical coders and assesses the ability to assign codes for surgeries involving glands, the brain, spinal cord, and peripheral nerves. Procedures like resections and electrical stimulation are part of the evaluated content.
Topic 4	<ul style="list-style-type: none"> • Female Reproductive System and Maternity Care & Delivery: This section of the exam measures the skills of coding specialists and evaluates coding accuracy for gynecological and obstetric procedures. It includes deliveries, antepartum care, cesarean sections, and surgical procedures involving female reproductive anatomy.
Topic 5	<ul style="list-style-type: none"> • Integumentary System: This section of the exam measures the skills of medical coders and covers procedures related to the skin and related structures. Topics include excisions, biopsies, repairs, and destruction services, focusing on accurate code selection and modifier usage for integumentary interventions.
Topic 6	<ul style="list-style-type: none"> • Special Senses (Ocular and Auditory): This section of the exam measures the skills of coding specialists and covers the coding of procedures related to the eyes and ears. Topics include surgeries on the cornea, retina, and middle • inner ear, as well as related diagnostic procedures.
Topic 7	<ul style="list-style-type: none"> • Musculoskeletal System: This section of the exam measures the skills of coding specialists and focuses on coding procedures involving bones, joints, muscles, and tendons. It covers surgeries, reductions, arthroscopies, and fracture treatments, emphasizing accurate mapping of procedures to anatomical areas.
Topic 8	<ul style="list-style-type: none"> • Pathology & Laboratory: This section of the exam measures the skills of medical coders and includes lab tests, specimen analysis, and pathological examination procedures. It ensures that coders understand how to apply codes for chemistry panels, cultures, and histopathological diagnostics.
Topic 9	<ul style="list-style-type: none"> • Evaluation & Management Services: This section of the exam measures the skills of coding specialists and covers office visits, hospital care, consultations, and other E • M services. It tests the understanding of time-based coding, medical decision-making, and history • exam components per current CMS guidelines.
Topic 10	<ul style="list-style-type: none"> • Radiology: This section of the exam measures the skills of coding specialists and focuses on diagnostic imaging procedures including X-rays, CT scans, MRIs, ultrasounds, and nuclear medicine. It emphasizes proper selection of codes based on anatomical site and modality used.
Topic 11	<ul style="list-style-type: none"> • Cardiovascular System: This section of the exam measures the skills of coding specialists and addresses services related to the heart, arteries, and veins. It involves the coding of diagnostic and therapeutic procedures, including catheterizations, bypasses, and repairs.:
Topic 12	<ul style="list-style-type: none"> • Introduction to CPT®, HCPCS Level II, and Modifiers: This section of the exam measures the skills of coding specialists and introduces candidates to CPT® coding for procedures, HCPCS Level II for supplies and services, and the correct use of modifiers. It helps learners distinguish between different code sets and understand their place in medical billing.

Topic 13	<ul style="list-style-type: none"> Overview of ICD-10-CM: This section of the exam measures the skills of medical coders and introduces the structure, format, and usage of the ICD-10-CM coding system. It reviews the purpose of ICD-10-CM in diagnosis reporting and prepares candidates to interpret chapters, code ranges, and conventions embedded in the system.
Topic 14	<ul style="list-style-type: none"> Digestive System: This section of the exam measures the skills of coding specialists and evaluates the coding of surgeries and procedures involving the oral cavity, pharynx, esophagus, stomach, intestines, liver, pancreas, and related organs. Understanding endoscopic procedures is particularly critical here.
Topic 15	<ul style="list-style-type: none"> Respiratory System: This section of the exam measures the skills of medical coders and evaluates the ability to code procedures involving the nose, sinuses, larynx, trachea, bronchi, and lungs. Attention is given to services like endoscopies, excisions, and resections within the respiratory tract.
Topic 16	<ul style="list-style-type: none"> The Business of Medicine: This section of the exam measures the skills of medical coders and covers foundational knowledge regarding the healthcare system, reimbursement models, insurance payers, HIPAA compliance, and the ethical responsibilities coders hold within clinical and billing environments. It establishes the context in which coding decisions directly affect healthcare operations and financial outcomes.
Topic 17	<ul style="list-style-type: none"> Review of Anatomy: This section of the exam measures the skills of coding specialists and covers a high-level understanding of human anatomy. It includes organs, systems, directional terminology, and anatomical locations, enabling coders to link procedures and diagnoses to the correct bodily structures with accuracy and consistency.
Topic 18	<ul style="list-style-type: none"> Applying the ICD-10-CM Guidelines: This section of the exam measures the skills of coding specialists and covers how to apply official ICD-10-CM guidelines to real-world coding scenarios. It emphasizes the hierarchy of instructional notes, general and chapter-specific rules, and how to make judgment calls within compliant coding frameworks.
Topic 19	<ul style="list-style-type: none"> Anesthesia: This section of the exam measures the skills of medical coders and involves coding anesthesia services based on surgical site, complexity, and time. It tests the understanding of anesthesia modifiers and the importance of linking anesthesia codes with the correct primary procedures.

AAPC Certified Professional Coder (CPC) Exam Sample Questions (Q238-Q243):

NEW QUESTION # 238

A patient presents to the emergency room with a nosebleed that is controlled by limited anterior nasal packing. What CPT code is reported?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:

30901 = Control of anterior epistaxis, limited, any method

30903/30905/30906 are for extensive packing or posterior epistaxis

NEW QUESTION # 239

A 4-year-old, critically ill child is admitted to the PICU from the ED with respiratory failure due to an exacerbation of asthma not manageable in the ER. The PICU provider takes over the care of the patient and starts continuous bronchodilator therapy and pharmacologic support with cardiovascular monitoring and possible mechanical ventilation support. What is the E/M code for this encounter?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

Explanation:

The code 99471 is used for initial inpatient neonatal critical care, per day, for the evaluation and management of a critically ill infant or young child. Given the scenario where a 4-year-old critically ill child is admitted to the PICU and requires intensive care management, this code is appropriate as it reflects the critical care provided beyond the emergency department services. References: CPT Professional Edition (current year), AMA.

NEW QUESTION # 240

View MR 099405

MR 099405

CC: Shortness of breath

HPI: 16-year-old female comes into the ED for shortness of breath for the last two days. She is an asthmatic.

Current medications being used to treat symptoms is Advair, which is not working and breathing is getting worse. Does not feel that Advair has been helping. Patient tried Albuterol for persistent coughing, is not helping. Coughing 10-15 minutes at a time. Patient has used the Albuterol 3x in the last 16 hrs. ED physician admits her to observation status.

ROS: No fever, no headache. No purulent discharge from the eyes. No earache. No nasal discharge or sore throat. No swollen glands in the neck. No palpitations. Dyspnea and cough. Some chest pain. No nausea or vomiting. No abdominal pain, diarrhea, or constipation.

PMH: Asthma

SH: Lives with both parents.

FH: Family hx of asthma, paternal side

ALLERGIES: PCN-200 CAPS. Allergies have been reviewed with child's family and no changes reported.

PE: General appearance: normal, alert. Talks in sentences. Pink lips and cheeks. Oriented. Well developed.

Well nourished. Well hydrated.

Eyes: normal. External eye: no hyperemia of the conjunctiva. No discharge from the conjunctiva Ears: general/bilateral. TM: normal.

Nose: rhinorrhea. Pharynx/Oropharynx: normal. Neck: normal.

Lymph nodes: normal.

Lungs: before Albuterol neb, mode air entry b/l. No rales, rhonchi or wheezes. After Albuterol neb.

improvement of air entry b/l. Respiratory movements were normal. No intercostals inspiratory retraction was observed.

Cardiovascular system: normal. Heart rate and rhythm normal. Heart sounds normal. No murmurs were heard.

GI: abdomen normal with no tenderness or masses. Normal bowel sounds. No hepatosplenomegaly Skin: normal warm and dry.

Pink well perfused Musculoskeletal system patient indicates lower to mid back pain when she lies down on her back and when she rolls over. No CVA tenderness.

Assessment: Asthma, acute exacerbation

Plan: Will keep her in observation overnight. Will administer oral steroids and breathing treatment. CXR ordered and to be taken in the morning.

What E/M code is reported?

- A. 0
- B. 1
- C. 2
- **D. 3**

Answer: D

Explanation:

* 99222: This code is used for initial hospital care, per day, for the evaluation and management of a patient, which requires a detailed or comprehensive history, a detailed or comprehensive examination, and medical decision making of moderate complexity.

* The documentation shows a detailed history (including HPI, ROS, PMH, SH, and FH) and a detailed examination (covering multiple organ systems). The medical decision making involves the management of an acute asthma exacerbation, which includes admitting the patient to observation status, administering oral steroids, and planning for further diagnostic testing.

* CPT Professional Edition, AMA

NEW QUESTION # 241

Miranda is in her provider's office for follow up of her diabetes. Her blood sugars remain at goal with continuing her prescribed medications.

When referring to the MDM Table in the CPT code book for number and complexity of problems addressed at the encounter, what type of problem is this considered?

- A. Acute, uncomplicated illness or injury
- B. Minimal problem
- C. Stable, acute illness
- **D. Stable, chronic illness**

Answer: D

NEW QUESTION # 242

A patient with intermittent asthma with exacerbation undergoes spirometry before and after bronchodilator. What CPT and ICD-10-CM codes are reported?

- A. 94070, 94010, J45.901
- B. 94060, 94010, J45.901
- C. 94070, 94010, J45.21
- **D. 94060, 94010, J45.21**

Answer: D

Explanation:

94060 = Spirometry pre- and post-bronchodilator

94010 = Baseline spirometry

J45.21 = Mild intermittent asthma with exacerbation

NEW QUESTION # 243

.....

Passing the Certified Professional Coder (CPC) Exam (CPC) exam can be a challenging task, especially if you have a tight schedule. You need comprehensive exam questions to prepare well for the exam. In this article, we will introduce you to Pass4guide AAPC CPC Exam Questions that offer relevant and reliable exam materials for your Certified Professional Coder (CPC) Exam (CPC) exam preparation.
