## API-580 New Test Materials | Reliable API-580 Study Materials

Each IT person is working hard for promotion and salary increases. It is also a reflection of the pressure of modern society. We should use the strength to prove ourselves. Participate in the API API-580 exam please. In fact, this examination is not so difficult as what you are thinking. You only need to select the appropriate training materials. PracticeVCE's API API-580 Exam Training materials is the best training materials. Select the materials is to choose what you want. In order to enhance your own, do it quickly.

### API Risk Based Inspection Professional Sample Questions (Q38-Q43):

#### NEW QUESTION # 38

During data collection, it is important to stress that the precision of the data collected should be consistent with what aspect of the RBI assessment?

- A. Sensitivity
- B. Risk thresholds
- **C. Method**
- D. Accuracy

**Answer: C**

Explanation:

Per API 580, Section 7.2:

"The precision of the data should be consistent with the RBI method used. The individual or team should understand the precision of the data needed for the analysis before gathering it." This means that different RBI approaches (qualitative, semi-quantitative, quantitative) require different levels of precision.

Reference: API 580, 2nd Edition (2016), Section 7.2

-

#### NEW QUESTION # 39

Detailed information and data are needed for quantitative RBI in order to:

- A. improve the risk rank of an item.
- B. conduct sensitivity analysis in probability models.
- **C. make use of logic and physical models.**
- D. assess the higher risks associated with the release of hazardous fluids.

**Answer: C**

Explanation:

According to Section 7.2.3:

"Quantitative RBI uses logic models depicting combinations of events that could result in severe accidents and physical models depicting the progression of accidents... Hence more detailed information and data are needed for a fully quantitative RBI in order to provide input for the models." The need for detailed data in quantitative analysis is primarily to enable the use of logic and physical

models in assessing risk.

Reference: API 580, 2nd Edition (2016), Section 7.2.3

-

#### NEW QUESTION # 40

The consequence analysis in an RBI program is performed to:

- A. provide management with numerous options for limiting the consequence of a potential failure.
- **B. discriminate between equipment items on the basis of the significance of a potential failure.**
- C. establish on the basis of consequence a relative risk ranking of equipment subject to failure.
- D. establish on the basis of consequence a prioritized ranking of equipment items for RBI plans.

**Answer: B**

Explanation:

According to API 580 Section 10.1.1:

"The consequence analysis in an RBI program is performed to provide discrimination between equipment items on the basis of the significance of a potential failure." This analysis supports relative risk ranking but does not itself define the risk; rather, it provides input to the risk evaluation. Management may use this as input, but the purpose is discrimination for risk prioritization.

Reference: API 580, 2nd Edition (2016), Section 10.1.1

#### NEW QUESTION # 41

For a typical inspection program, if excessive inspection is applied then,

- **A. Level of risk may go up**
- B. Level of risk remain the same
- C. Level of risk may go down

**Answer: A**

#### NEW QUESTION # 42

The type of failure mode that likely to occur due to mechanical and metallurgical deterioration

- A. Cracks
- B. Leaks
- C. Small holes to ruptures
- **D. Catastrophic ruptures**

**Answer: D**

#### NEW QUESTION # 43

.....

After a series of investigations and studies, we found that those students who wish to pass the API-580 exam through their own in-depth study of the textbooks are often slack in their learning. Some students may even feel headaches when they read the content that difficult to understand in the textbooks. Our API-580 Study Materials are excellent examination review products composed by senior industry experts that focuses on researching the mock examination products which simulate the real API-580 test environment. And you will be more confident to pass the API-580 exam.
