

Free JavaScript-Developer-I Brain Dumps - JavaScript-Developer-I Latest Dump

The form is titled "Brain Dump" in a cursive font. To the right of the title is a "DATE" field with a light green input box. Below the title is a table with three columns: "PEOPLE TO CONTACT", "CONTACT METHOD", and "THINGS TO SCHEDULE". The "CONTACT METHOD" column contains five rows, each with three checkboxes labeled "CALL", "MESSAGE", and "EMAIL". Below this table are three more columns: "FOLLOW UP ON", "TALK ABOUT", and "RESEARCH", each with a large empty box for notes. At the bottom are three more columns: "PERSONAL NOTES", "SCHOOL / WORK NOTES", and "OTHER NOTES", each with a large empty box for notes. A small "printdumps.com" logo is at the bottom center.

Salesforce is a customer relationship management (CRM) platform that has become an essential tool for businesses to manage their sales, marketing, and customer service operations. As Salesforce continues to gain popularity, the demand for skilled Salesforce developers has increased. Salesforce offers several certifications, including the Salesforce Certified JavaScript Developer I certification, which is designed for developers who want to demonstrate their expertise in building custom applications using Salesforce's JavaScript framework.

Salesforce Certified JavaScript Developer I Exam Sample Questions (Q200-Q205):

NEW QUESTION # 200

Universal containers (UC) just launched a new landing page, but users complain that the website is slow. A developer found some functions that cause this problem. To verify this, the developer decides to execute everything and log the time each of these suspicious function consumes.

A screenshot of a code editor showing JavaScript code for performance timing. The code is as follows:

```
01 console.time('Performance');
02
03 maybeAHeavyFunction();
04
05 thisCouldTakeForever();
06
07 orMaybeThisIsBad();
08
09 console.endTime('Performance');
```

The code is displayed on a light gray background with a dark blue border. A blue cloud-like watermark with the word "salesforce" is visible in the upper right, and a diagonal watermark "braindumps.vce.com" is overlaid across the code.

Which function can then developer use to obtain the time spent by every one of the three functions?

- A. Console.trace ()
- B. Console.timeLog ()
- C. Console.getTime ()
- D. Console.timestamp

Answer: C

NEW QUESTION # 201

A developer is setting up a new Node.js server with a client library that is built using events and callbacks.

The library:

Will establish a web socket connection and handle receipt of messages to the server. Will be imported with require, and made available with a variable called we.

The developer also wants to add error logging if a connection fails.

Given this info, which code segment shows the correct way to set up a client with two events that listen at execution time?

- A. try{ws.connect (() => {console.log('connected to client'); });} catch(error) { console.log('ERROR',error); };
- B. ws.on('connect', () => {console.log('connected to client'); ws.on('error', (error) => { console.log('ERROR', error); }});
- C. ws.connect (() => {console.log('connected to client'); }).catch((error) => { console.log('ERROR', error); });
- D. ws.on('connect', () => { console.log('connected to client'); }); ws.on('error', (error) => { console.log('ERROR', error); });

Answer: B

NEW QUESTION # 202

Refer to the code below:

```
01 const myFunction = arr => {  
02   return arr.reduce((result, current) => {  
03     return result + current;  
04   }, 5);  
05 }
```

What is the output of this function when called with an empty array?

- A. Return NaN
- B. Return Infinity
- C. Return 5
- D. Return 0

Answer: C

NEW QUESTION # 203

Which statement can a developer apply to increment the browser's navigation history without a page refresh?

- A. `Window.history.state.push(newStateObject, ' null;`
- B. `Window.history.pushState(newStateObject);`
- C. `Window.history.state.push(newStateObject);`
- D. `Window.history.pushState(newStateObject, ' ', null) ;`

Answer: A

NEW QUESTION # 204

A developer has the function, shown below, that is called when a page loads.

```
function onLoad() {  
  console.log("Page has loaded!");  
}
```

Where can the developer see the log statement after loading the page in the browser?

- A. On the webpage console log
- B. On the terminal console running the web server
- C. On the browser JavaScript console
- D. In the browser performance tools log

Answer: C

NEW QUESTION # 205
